On September 8th 2015 the Development Control Planning Committee resolved to grant planning permission for the development of the Old Town Hall for hotel use and the adjacent site for residential use (reference DC/15/00140/FULL)

This planning application was accompanied by an application for listed building consent for renovation and new build works under ref 15/00141/LBC to facilitate the development approved in the planning permission. This application was approved subject to the conditions.

A condition required to secure matching internal and external works for making good was omitted. The full wording is as follows:

All internal and external works of making good to the retained fabric of the building shall be finished to match the adjacent work with regard to methods used and to material, colour, texture and profile. Details of the internal finishes of the accommodation within the building shall be submitted to and approved in writing by the Local Planning Authority before any work is commenced. The works shall be carried out in accordance with the approved details and thereafter permanently retained on such.

REASON: In order to comply with Policy BE8 of the Unitary Development Plan and in the interest of the architectural and historic interest of the Listed Building.

The original report to DC Committee on September 8th 2015 was a joint report with 15/00140/FULL1 for planning permission for the works and none of the commentary or conclusions of that report are altered.

Based on the conclusions of the previous report to DCC and the above report, it is considered that listed building consent should be granted for the proposed works to the Old Town Hall and relevant conditions are recommended below.

Members are asked to agree to the addition of the extra condition above to the decision notice.
