

LONDON BOROUGH OF BROMLEY

STATEMENT OF EXECUTIVE DECISION

The Portfolio Holder for Environment and Community Services, Councillor William Huntington-Thresher has made the following executive decision:

LBB ELECTRIC VEHICLE CHARGING STRATEGY

Reference Report:

LBB Electric Vehicle Charging Strategy, 17/11/2021 Environment and Community Services Policy Development and Scrutiny Committee

Decision:

The Portfolio Holder made the following decisions with respect to the LBB Electric Vehicle Charging Strategy:

- 1) The Portfolio Holder approved the draft strategy.
- 2) The Portfolio Holder granted approval for Officers to design a Pilot Residential ChargePoint Project.
- 3) The Portfolio Holder granted authority to progress with 'Gully Charging' as one aspect of the project.
- 4) Full details of the proposed pilot would be reported back to the ECS PDS Committee in either January or March 2022

Reasons:

There is a need for a Council wide EV Charging Strategy to guide the installation of charging infrastructure in Bromley. This is to support LBB's organisational objectives and a borough wide transition to low or zero emissions vehicles before the 2030 ban on the sale of new petrol and diesel cars and vans.

The proposed decision was scrutinised by the Environment and Community Services PDS Committee on 17th November 2021 and the Committee supported the proposal.

.....
Councillor William Huntington-Thresher
Portfolio Holder for Environment and Community Services

TASNIM SHAWKAT
Director of Corporate Services & Governance
Bromley Civic Centre
