A G E N D A

- 1 **APOLOGIES FOR ABSENCE AND NOTIFICATION OF SUBSTITUTE MEMBERS**
- 2 **DECLARATIONS OF INTEREST**
- 3 **CONFIRMATION OF MINUTES OF THE MEETING HELD ON 18TH MAY 2016
EXCLUDING THOSE CONTAINING EXEMPT INFORMATION (Pages 3 - 8)**
- 4 **QUESTIONS BY MEMBERS OF THE PUBLIC ATTENDING THE MEETING**
In accordance with the Council's Constitution, questions to this Sub-Committee must
be received in writing four working days before the date of the meeting. Therefore
please ensure that questions are received by the Democratic Services Team by 5pm
on Thursday 15th September 2016.
- 5 **GENERAL UPDATE**
Oral Update
- 6 **PENSION FUND PERFORMANCE Q1 2016/17 (Pages 9 - 34)**

7 PENSION FUND - INVESTMENT REPORT

Printed copies of reports from the Council's Fund Managers are circulated to Sub-Committee Members with this agenda. Representatives of MFS will be attending the meeting for this item.

8 PENSION FUND ANNUAL REPORT 2015/16 (Pages 35 - 108)

A representative from the WM Company (State Street) will also attend for this item to cover investment performance of the Fund during 2015/16.

9 LOCAL GOVERNMENT ACT 1972 AS AMENDED BY THE LOCAL GOVERNMENT (ACCESS TO INFORMATION) (VARIATION) ORDER 2006 AND FREEDOM OF INFORMATION ACT 2000

The Chairman to move that the Press and public be excluded during consideration of the items of business referred to below as it is likely in view of the nature of the business to be transacted or the nature of the proceedings that if members of the Press and public were present there would be disclosure to them of exempt information.

Items of Business

Schedule 12A Description

10 CONFIRMATION OF EXEMPT MINUTES – 19TH MAY 2016 (Pages 109 - 110)

Information relating to the financial or business affairs of any particular person (including the authority holding that information)

.....

PENSIONS INVESTMENT SUB-COMMITTEE

Minutes of the meeting held at 7.30 pm on 19 May 2016

Present:

Councillor Teresa Te (Chairman)
Councillor Keith Onslow (Vice-Chairman)
Councillors Eric Bosshard, Simon Fawthrop, David Livett,
Russell Mellor and Richard Williams

Also Present:

Jane Harding, Employer Representative - Local Pension Board
Alick Stevenson, AllenbridgeEpic Investment Advisers
Brian Toms, Employer Representative - Local Pension Board
Rohan Worrall, AllenbridgeEpic Investment Advisers

1 APOLOGIES FOR ABSENCE AND NOTIFICATION OF SUBSTITUTE MEMBERS

There were no apologies for absence.

2 DECLARATIONS OF INTEREST

There were no additional declarations of interest.

3 CONFIRMATION OF MINUTES OF THE MEETING HELD ON 11TH FEBRUARY 2016

The minutes of the meeting held on 11 February 2016 were agreed, and signed as a correct record.

4 QUESTIONS BY MEMBERS OF THE PUBLIC ATTENDING THE MEETING

There were no questions.

5 POOLING OPTIONS

Report FSD16034

The Committee received a further update from the Director of Finance on the "Pooling Options" report considered at the previous meeting of the Sub-Committee where details of the pooling options consisting of the London

Collective Investment Vehicle (CIV) and ACCESS were considered. Members agreed that the Director of Finance, in consultation with the Chairman and Vice-Chairman submit a formal first stage consultation response incorporating the views expressed at the meeting and reflecting the outcome of a follow up meeting with the London Borough of Wandsworth and Kent County Council. The outcome of these meetings was reflected in the consultation responses submitted and attached as [Appendix 2](#) to the report. The consultation response was submitted on 19th February 2016 and also covered proposed changes to pension regulations which enabled a direction from the Secretary of State in terms of where to invest in the future and powers for the Secretary of State to intervene if Councils did not pool their investments. The consultation response from the Council referred to being minded to join the London CIV but to retain the option to be able to join more than one pool. It also included Bromley's concerns about the affordability of the pension scheme and issues relating to outsourcing although this was outside the scope of what was required in the response. In March 2016, the Minister for Local Government wrote to the Chairmen of every Pension Committee to outline issues raised for individual submission and confirming that individual funds could not join multiple pools. He also revealed the preference for pools to be set up and regulated through the Financial Conduct Authority (FCA) which prevented a lower cost "joint committee" option.

Apart from Bromley, all other London Boroughs had joined the London CIV. The report recommended that the Council joined the London CIV on the basis of an expected lower cost option of joining; it was already FCA regulated with potential for earlier achievement of savings in management fees and had an agreed commitment of one member one vote.

Members of the Sub-Committee agreed that the following additional recommendation should be added to the report:

"That Officers be authorised to provide the formal recommendation to Council on 4th July 2016 to join the London CIV following completion of specific legal and technical processes."

In response to questions from Members of the Sub-Committee, the Director of Finance confirmed that once the Local Authority had joined one pool it would not realistically be possible leave in order to join another pool. In addition to this, revised statutory regulations empowered the Secretary of State to intervene if Local Authorities failed to join a pool.

In response to a question from a Member of the Local Pensions Board, the Director of Finance explained that the Local Authority would retain control of asset allocation and the requirement to meet the pension fund deficit .

Members of the Sub-Committee discussed the arrangements for repayment of the pension fund deficit and . the Director of Finance advised that the proposals, following the actuarial triennial valuation, would be considered at the February 2017 meeting of this sub-committee.

RESOLVED: That

(a) the General Purposes and Licensing Committee recommend to Council that the Council joins the London Collective Investment Vehicle (CIV); and

(b) Officers be authorised to provide the formal recommendation to Council on 4th July 2016 to join the London CIV following completion of specific legal and technical processes.

6 PENSION FUND PERFORMANCE Q4 2015/16

Report FSD16032

Summary details were provided of the investment performance of Bromley's Pension Fund for the fourth quarter of 2015/16 along with information on general financial and membership trends of the Pension Fund and summarised information on early retirements.

AllenbridgeEpic provided further detail on investment performance and Baillie Gifford provided commentary on its fourth quarter performance, future economic outlook, and recent developments in financial markets. Representatives from Baillie Gifford reported that there was currently turmoil in the markets with external factors such as the US Elections and the British EU Referendum causing a degree of uncertainty.

The Committee were introduced to Mr Rohan Worrall an Investment Adviser from AllenbridgeEpic specialising in Fixed Income. Mr Worrall would be attending future meetings of the Investment Sub-Committee and was likely to eventually be Mr Stevenson's replacement as Investment Advisor to the Investment Sub-Committee.

The market value of the Fund ended the March quarter at £745.8m (£732.0m as at 31 December 2015) but as of 30 April 2016 it had fallen to £742.4m. The comparable value as at 31 March 2015 was £742.9m.

Overall, the total fund returned +1.9% (net of fees) in the latest quarter, compared to the benchmark return of +3.0%. Local authority average rankings for the March quarter were not available for the report. The Fund's medium and long-term returns remained particularly strong.

Members of the Committee asked a number of questions of the representatives from Baillie Gifford regarding the performance of the fund, expressing concerns surrounding the poor performance of oil markets and the impact that this could have on Pension Fund investments. Members expressed concern that the returns on the investment portfolio had reduced and a member suggested that greater returns could have been gained by investing in a FTSE 100 or FTSE 250 tracker which would carry less risk.

The Committee requested that future updates contain greater detail of the level of investment in emerging markets in order to provide greater transparency, and also include performance attribution information for the fixed income portfolio.

RESOLVED That:

- (a) the report be noted;**
- (b) the information regarding Performance Measurement Service as detailed in paragraph 3.3.3 of the report be noted; and**
- (c) the programme for Fund Manager attendance as set out in paragraph 3.6.1 of the report be noted.**

7 PENSION FUND CASH FLOW

Report FSD16033

The Committee considered a report providing an update on the projected cash flow position for the Pension Fund over the next few years. The Pension was projected to move into a 'cash negative' position within the next five years whereby the total cost of payments to pensioners would exceed the total incoming cash flow to the pension fund from employee and employer contributions and investment income. Officers were planning to hold a roundtable meeting with the Fund Managers, Chairman and Vice-chairman of the Pension Investment Sub-Committee, Portfolio Holder for Resources and AllenbridgeEpic to explore options for the future investment and asset allocation strategy of the Pension Fund.

The Director of Finance provided an update to the Sub-Committee under part 2 proceedings of the meeting regarding commissioning further work to explore changes in the future asset allocation to reflect the impact of the updated cash flow for the fund.

RESOLVED: That

- (a) the report be noted; and**
- (b) a review of the Pension Fund asset allocation strategy be undertaken and report back to a future meeting of the Sub-Committee.**

8 LOCAL GOVERNMENT ACT 1972 AS AMENDED BY THE LOCAL GOVERNMENT (ACCESS TO INFORMATION) (VARIATION) ORDER 2006 AND FREEDOM OF INFORMATION

ACT 2000

RESOLVED that the Press and public be excluded during consideration of the items of business referred to below as it is likely in view of the nature of the business to be transacted or the nature of the proceedings that if members of the Press and public were present there would be disclosure to them of exempt information.

**The following summaries
refer to matters
involving exempt information**

9 BROMLEY COLLEGE PENSION ARRANGEMENTS

Report FSD16031

The Committee considered a report seeking the Sub-Committee's support for an application made by a scheduled body to the Secretary of State for the appointment of another Pension Fund as its designated administering authority, in place of the London Borough of Bromley.

RESOLVED: that the recommendations be agreed.

The Meeting ended at 9.12 pm

Chairman

Report No.
FSD16067

London Borough of Bromley

PART 1 - PUBLIC

Decision Maker: Pensions Investment Sub-Committee

Date: 21st September 2016

Decision Type: Non-Urgent Non-Executive Non-Key

Title: PENSION FUND PERFORMANCE Q1 2016/17

Contact Officer: James Mullender, Principal Accountant
Tel: 020 8313 4292 E-mail: james.mullender@bromley.gov.uk

Chief Officer: Director of Finance

Ward: All

1. Reason for report

- 1.1 This report provides a summary of the investment performance of Bromley's Pension Fund in the 1st quarter of 2016/17. More detail on investment performance is provided in a separate report from the Fund's external advisers, AllenbridgeEpic, which is attached as Appendix 5. Representatives of MFS will be present at the meeting to discuss performance, economic outlook/prospects and other matters relating to their portfolio. A representative of the WM Company will also attend to present their annual report on performance for periods ended 31st March 2016. Baillie Gifford has also provided a commentary on its performance and on its view of the economic outlook and this is attached as Appendix 2. The report also contains information on general financial and membership trends of the Pension Fund and summarised information on early retirements.
-

2. RECOMMENDATIONS

2.1 The Sub-Committee is asked to:

- (a) Note the contents of the report;
- (b) Note the information regarding Performance Measurement Service as detailed in paragraph 3.3.3;
- (c) Note the position regarding admission agreements for outsourced services as set out in section 3.7;
- (d) Note the position regarding Bromley College as set out in section 3.8.

Corporate Policy

1. Policy Status: Existing policy. The Council's Pension Fund is a defined benefit scheme operated under the provisions of the Local Government Pension Scheme (LGPS) Regulations, for the purpose of providing pension benefits for its employees. The investment regulations (The LGPS (Management and Investment of Funds) Regulations 2009) allow local authorities to use all the established categories of investments, e.g. equities, bonds, property etc, and to appoint external investment managers who are required to use a wide variety of investments and to comply with certain specific limits.
 2. BBB Priority: Excellent Council.
-

Financial

1. Cost of proposal: No cost
 2. Ongoing costs: Recurring cost. Total administration costs estimated at £3.5m (includes fund manager/actuary/adviser fees, Liberata charge and officer time)
 3. Budget head/performance centre: Pension Fund
 4. Total current budget for this head: £36.3m expenditure (pensions, lump sums, etc); £42.6m income (contributions, investment income, etc); £798.2m total fund market value at 30th June 2016)
 5. Source of funding: Contributions to Pension Fund
-

Staff

1. Number of staff (current and additional): 0.4 FTE
 2. If from existing staff resources, number of staff hours: c 14 hours per week
-

Legal

1. Legal Requirement: Statutory requirement. Local Government Pension Scheme (LGPS) Regulations 2013
 2. Call-in: Call-in is not applicable.
-

Customer Impact

1. Estimated number of users/beneficiaries (current and projected): 6,320 current employees; 5,121 pensioners; 5,326 deferred pensioners as at 30th June 2016
-

Ward Councillor Views

1. Have Ward Councillors been asked for comments? No.
2. Summary of Ward Councillors comments: N/A

3. COMMENTARY

3.1 Fund Value

3.1.1 The market value of the Fund ended the June quarter at £798.2m (£744.9m as at 31st March 2016) and had risen further to £851.8m as at 31th August. The comparable value as at 30th June 2015 was £710.9m. Historic data on the value of the Fund are shown in a table and in graph form in Appendix 1.

3.2 Performance Targets and Investment Strategy

3.2.1 Historically, the Fund's investment strategy has been broadly based on a high level 80%/20% split between growth seeking assets (representing the long-term return generating part of the Fund's assets) and protection assets (aimed at providing returns to match the future growth of the Fund's liabilities). Between 1998 and 2012, Baillie Gifford and Fidelity managed balanced mandates along these lines. In 2012, a comprehensive review of the Fund's investment strategy confirmed this high-level strategy. It concluded that the growth element would, in future, comprise a 10% allocation to Diversified Growth Funds (DGF) and a 70% allocation to global equities, with a 20% protection element remaining in place for investment in corporate bonds and gilts.

3.2.2 The revised strategy was implemented in three separate phases: Phase 1 (Diversified Growth) was implemented on 6th December 2012 with a transfer of £50m from Fidelity's equity holdings (£25m to both Baillie Gifford and Standard Life); Phase 2 (global equities) was implemented on 20th December 2013, with £200m being allocated to Baillie Gifford (from within their former equities holdings), £120m to MFS International (transferred from Fidelity) and £120m to Blackrock (£70m from Baillie Gifford and £50m from Fidelity); and Phase 3 (fixed income) was finalised in May 2015, when £6m was switched from the Baillie Gifford Sterling Aggregate Plus Fund into that company's Global Bond Fund (£3m) and Emerging Market Bond Fund (£3m).

3.3 Summary of Fund Performance

3.3.1 Performance data for 2016/17 (short-term)

A detailed report on fund manager performance in the quarter ended 30th June 2016 is provided by the fund's external adviser, AllenbridgeEpic, in Appendix 5. In overall terms, the total fund returned +7.0% (net of fees) in the latest quarter, compared to the benchmark return of +7.3%. As reported in the Q4 2015/16 performance report, following the termination of the performance measurement service by WM company (State Street), no Local Authority comparator data is available for this quarter.

3.3.2 Medium and long-term performance data

Since 2006, WM Company has measured the fund managers' results against their strategic benchmarks, although, at total fund level, it continues to use the local authority indices and averages (until March 2016). Other comparisons with local authority averages may be highlighted from time to time to demonstrate, for example, whether the benchmark itself is producing good results. The Fund's medium and long-term returns have remained very strong, although the overall return of +0.1% for 2015/16 was down against the benchmark return of +0.5%. In 2014/15, the Fund returned +18.5% compared to the benchmark return of +16.4% and achieved an overall local authority average ranking in the 7th percentile. For comparison, the rankings in earlier years were 29% in 2013/14, 4% in 2012/13, 74% in 2011/12, 22% in 2010/11, 2% in 2009/10 (the second best in the whole local authority universe), 33% in 2008/09, 5% in 2007/08, 100% in 2006/07 (equal worst in the whole local authority universe), 5% in 2005/06, 75% in 2004/05, 52% in 2003/04, 43% in 2002/03 and 12% in 2001/02.

The following table shows the Fund's long-term rankings in all financial years back to 2005/06 and shows the medium to long-term returns for periods ended 30th June. The medium to long-term results have been good and have underlined the fact that the Fund's performance has been consistently strong over a long period. A representative of the WM Company will attend the meeting to present the annual performance for periods ended 31st March 2016.

Year	Whole Fund Return	Benchmark Return	Local Authority average	Whole Fund Ranking

10 year ave to 31/3/16	7.7	6.4	5.6	4

3.3.3 Performance Measurement Service

As reported in the Q4 2015/16 performance report, in April 2016, the Local Authority was informed that WM company (State Street) would cease providing performance measurement services to clients to whom they do not act as custodian with effect from June 2016. There are currently no providers offering a like for like service. Following a survey of other local authorities and discussions with AllenbridgeEpic, it would seem that most funds will use their custodian to provide this service going forward. Following an appraisal of the options available, and with the introduction of pooling on the horizon, the Director of Finance has agreed to waive the requirement for competitive tender and to award the contract to the Fund's custodian, BNY Mellon for a period of up to three years, to be reviewed annually. It should be noted that this service will not include the LA comparator data (as BNY Mellon aren't custodian for all LGPS Funds). There are a couple of potential providers for this; however take up from other Funds is unknown at present. Officers will continue to monitor the position, and will report back to a future meeting of the Sub-Committee.

3.4 Fund Manager Comments on performance and the financial markets

3.4.1 Baillie Gifford has provided a brief commentary on recent developments in financial markets, their impact on the Council's Fund and the future outlook. This is attached as Appendix 2.

3.5 Early Retirements

3.5.1 Details of early retirements by employees in the Fund are shown in Appendix 3.

3.6 Fund Manager attendance at meetings

- 3.6.1 Meeting dates have been set for 2016/17, with MFS attending this meeting. While Members reserve the right to request attendance at any time if any specific issues arise, the timetable for subsequent meetings is as follows:

Meeting 16th November 2016 – Blackrock (global equities)

Meeting 22nd February 2017 – Standard Life (DGF) and Fidelity (fixed income)

Meeting 16th May 2017 – Baillie Gifford (global equities, fixed income and DGF)

3.7 Admission agreements for outsourced services

- 3.7.1 As part of the Council's commissioning programme, all of our services are being reviewed, which, in some cases, will result in the outsourcing of further services. As a result, an application for admission body status has been received from Amey relating to the transfer of Total Facilities Management Services approved by Executive 20th July 2016. The application is being progressed and is expected to be finalised shortly in advance of the transfer date of 1st October 2016.

- 3.7.2 Part 3 of Schedule 2 to the LGPS Regulations 2013 provides that an administering authority must admit to the Scheme eligible employees of a transferee admission body where such body and the scheme employer undertake to meet the requirements of the Regulations. Provided a scheme employer (including an academy) and contractor undertake to meet the requirements of the Regulations, the Council, as administering authority, has no power to refuse admitted status although we are able to agree the terms of the agreement. Further updates will be provided in quarterly performance reports.

3.8 Bromley College

- 3.8.1 As reported to the previous meeting of the Sub-Committee in May 2016 under Part 2 proceedings, a request had been made by Bromley College to designate the London Pension Funds Authority as its administering body in place of the London Borough of Bromley.

- 3.8.2 Following approval by the sub-committee and subsequently by Full Council, the application was supported and a direction order approved by the Secretary of State. The transfer of liabilities has now taken place, with effect from 1st August 2016, and discussions are currently in progress regarding the transfer of an appropriate share of the Fund's assets and transfer of administration functions. As agreed by Council, authority to agree the asset share has been delegated to the Director of Finance, in consultation with the Chairman and Vice-Chairman of the Sub-Committee and with the advice of AllenbridgeEpic.

4. POLICY IMPLICATIONS

- 4.1.1 The Council's Pension Fund is a defined benefit scheme operated under the provisions of the Local Government Pension Scheme (LGPS) Regulations, for the purpose of providing pension benefits for its employees. The investment regulations (The LGPS (Management and Investment of Funds) Regulations 2009) allow local authorities to use all the established categories of investments, e.g. equities, bonds, property etc, and to appoint external investment managers who are required to use a wide variety of investments and to comply with certain specific limits.

5. FINANCIAL IMPLICATIONS

- 5.1.1 Details of final outturn for the 2015/16 Pension Fund Revenue Account and the position after the first quarter of 2016/17 are provided in Appendix 4 together with fund membership

numbers. A net surplus of £7.0m was achieved during of 2015/16 (mainly due to investment income of £7.3m) and total membership numbers rose by 733. In the first quarter of 2016/17 a net surplus of £1.6m was achieved and total membership numbers rose by 162.

6. LEGAL IMPLICATIONS

6.1.1 The statutory provisions relating to the administration of the Local Government Pension Scheme are contained in the Local Government Pension Scheme (LGPS) Regulations 2013. The investment regulations (The LGPS (Management and Investment of Funds) Regulations 2009) set out the parameters for the investment of Pension Fund monies.

Investment Environment and Portfolio

The events of 23 June produced a surprise result and since then we have been considering the knock-on effects on your portfolio which we outline below. In the short term, political turmoil hit the UK and uncertainty about how and when the UK exits impacted stock and currency markets. Since then, markets have steadied considerably although sterling remains at lower levels.

Not surprisingly, the direct effects of Brexit can be seen in short-term performance numbers. For the second quarter, Bank of Ireland was a notable faller, as was Prudential. Less direct exposure was also a feature of the biggest detractors. Companies that either hold equities (MS&AD, a Japanese insurer which owns equities and corporate bonds) or have exposure to equity trading (TD Ameritrade, Japan Exchange) saw share price declines. In general, these stocks have done very much better in the weeks since then as the more extreme political and economic outcomes failed to transpire.

Against this, there were plenty of stocks that continued to prosper. Impressive progress continues to be registered by online companies – Amazon’s share price hit an all time high, sentiment towards Yandex (Russia’s Google) benefited from higher revenues and a stronger rouble, and other notable positive contributors included Naspers, CyberAgent and Zillow. The recovering oil price helped Apache; and one of our favoured US recovery plays, Martin Marietta Materials, continues to drive through strong earnings progression as both volumes and prices recover in its core construction aggregates markets.

Since the referendum we have been assessing the longer-term implications. Our initial conclusions relate to the situation in Europe. Whilst the UK is undergoing political and economic uncertainty, its future path is slightly clearer in that we know our country will exit the EU (although we don’t know how and when). The UK is a flexible economy whose currency is reacting as a result of the decision that has been made. The second order impact in Europe is that there may be more pressure on the EU to reform or further countries may leave. This could, in the short to medium term, depress demand in Europe in what is already a rather weak economic backdrop and we should be wary of our stocks’ European exposure.

We have made some trades after quarter end to reflect the less sanguine European outlook although, in total, these are a relatively small proportion of the portfolio. We continue to consider whether there might be further changes but envisage fairly modest trading given our fundamental and long-term style.

Outlook

From time to time markets are driven by economic and political events but eventually we believe that fundamentals will win out. We will continue to monitor the holdings in your portfolio diligently to ensure they are capable of delivering sustainable growth. We will keep considering the long-run implications of Brexit. Like the French Revolution, the vote in favour of Leave is a victory of populism over political consensus. This could have far reaching implications if transferred to other nations. Whilst populism failed in Greece last year, it has growing numbers of followers in France, Spain and even the US who could upset the traditional political accord.

We have faith in markets in the long run and believe that market forces have a habit of eventually finding a more optimistic direction – the actual outcome will not be too gloomy. Stock markets were lower earlier this year when there

were concerns over China and the oil price was falling – Brexit may just be another bump in the road as the global economy continues its slow recovery from the Financial Crisis of 2008/9. In the meantime, we will stick to our tried and tested investment philosophy, of which the greatest asset at present is our long-term time horizon, and which is backed up by Baillie Gifford’s stable corporate structure.

Investment Environment and Outlook

The decision taken by UK voters at the end of June to leave the European Union caused shocks in markets and the long-term potential impact of this should not be underestimated.

Earlier in the quarter, the overall investment environment appeared to be a continuation of the cautiously positive sentiment with which the first quarter of the year had ended. Commentators had suggested the US Federal Reserve might raise interest rates further, though the point at which this was expected drifted longer in the aftermath of the EU vote. In emerging markets, lower interest rate prospects for developed economies, coupled with ongoing support from central banks, provide an opportunity for investors to generate attractive levels of return. The oil price has increased by around 30% in US dollar terms since the start of the year, although still well below the levels it was trading at two years ago. Its partial rebound is a reflection of better global supply and demand dynamics.

Stepping back from very recent events, for what feels like a long time now the effect of the financial crisis has been to create a 'new normal' for many countries. Slower growth, deflation and austerity have been weighing upon consumer and corporate sentiment.

Our outlook for global real GDP growth over the coming few years remains cautiously optimistic at around 2.5%–3% p.a. We note that this is below the long-term observed global trend level although it may be as much as is realistic to expect given increasing demographic headwinds and apparently poor productivity growth. It also remains dependant on the short-term on the continuation of extraordinary levels of central bank monetary stimulus.

Portfolio Positioning and Performance

Given the timing of the EU referendum, the extent of the subsequent swings in market valuations and the lack of clarity over what will happen from here, little action was taken to change the shape of the portfolio in the few days before the end of the quarter. That said, one change implemented was the removal of our currency position in the Japanese yen relative to the South Korean won. This was sold in part due to the yen's appreciation as a 'safe-haven' currency as sterling sold off, and in part due to the Korean Central Bank's surprise decision to reduce interest rates earlier in June.

Earlier in the quarter, the effect of improving valuations prompted several adjustments. We reduced high yield credit, where the underlying holdings had increased in value due to a steadily recovering oil price and the anticipated slower increase in US interest rates to 3% of portfolio. We also sold the Fund's exposure to gold during the quarter. Its role in the portfolio had been primarily as a hedge rather than a return-generating asset, but we grew concerned that interest rate rises in the US might result in price pressure and the opportunity cost of owning gold would rise.

We have continued to add to the portfolio's European property and US and UK infrastructure positions. This real asset exposure offers strong long-term expected returns as well as diversifying qualities to the portfolio.

Finally, and returning to the EU referendum once again, we implemented a currency trade – a short sterling position relative to a long position in the US dollar. As at the end of the quarter, we had retained this position in the portfolio although it was subsequently halved in size after sterling sank to 1.30 against the dollar.

During the second quarter, the net return of the Fund was 0.9%. The asset classes with the strongest positive returns were infrastructure and active currency. Our currency positions in the Japanese yen relative to the South Korean won and our protective position in US dollar relative to sterling contributed to returns. Listed equities, property and structured finance were the main detractors from performance over the quarter as the result of the EU referendum caused shocks across risk markets.

Over the 12 months the profile of returns was broadly similar with infrastructure and active currency being the largest positive contributors. Commodities also delivered a positive return, most notably gold which rallied over the first half of 2016. Risk assets such as listed equities and emerging market bonds were among the detractors and not owning 'safe haven' developed market government bonds also hindered performance over the year.

Investment Environment

While there are few signs of deep concerns as yet, both the currency and bond markets believe that Britain's economy will suffer as a result of the referendum outcome. Mark Carney, the Bank of England Governor, said that monetary policy will be loosened still further as a consequence. Corporate bonds and emerging market bonds were extremely volatile, particularly early in the review period, but the safe haven properties of gilts pushed up returns in the end.

The ripples from the Brexit shock also hurt European sentiment. We would ascribe a small part of this to the direct economic effects of lower trade with Britain. The greater part, however, is nervousness over the European 'project', particularly the willingness of the richer northern nations to subsidise the weaker southern nations. Lacking a strong banking system, countries like Italy remain vulnerable. Once again, the panacea for economic ails – quantitative easing – is being applied by the European Central Bank in larger doses, and bond yields have fallen to unprecedentedly low levels.

Emerging market currencies and bonds have been the strongest performing asset classes this year. The political strife in Europe has distracted attention from emerging markets and the sell-off of last year may have been overdone. However, there are fundamental reasons behind the rally too. Commodity prices have stabilised and the higher yield in emerging market assets makes them an attractive alternative to the miserly interest rates in developed markets.

Performance, Positioning and Outlook

With government bonds yields hitting record low levels following the referendum result, absolute returns were consequently high. Along with other risk assets, corporate bonds fell markedly in the immediate aftermath of the Brexit vote, although they recovered much of their losses in the following days.

The Fund marginally outperformed the benchmark, largely driven by positive stock selection in corporate bonds. There were no standout performers. Rather, the majority of your holdings performed better than the benchmark. The Fund holds more defensive companies as we are wary of a number of risks in the global economy. For instance, relative to the index, your Fund has less exposure to the banking sector.

New corporate bond purchases during the quarter included Yorkshire Building Society, the seventh largest mortgage lender in the UK. Its loan book is strong, with a focus on conservative lending criteria, which is evident in the low arrears, and this approach to lending and the strength of the balance sheet makes us positive on the fundamentals of the business. Another was the Royal Automobile Club (RAC) – it has approximately 30% of the UK roadside assistance market and the business benefits from a strong brand, with a customer retention rate of above 80%. We made a complete sale of your Credit Logement bonds, switching into Standard Life bonds.

We believe the continued low global growth environment and ongoing Central Bank support are likely to result in interest rates remaining at low levels for some time. This should be beneficial for government bonds and the Fund continues to be positioned for lower yields in several countries, including the United States. The UK economic and market situation remains difficult to call and bond yields can fall further because central bankers will be reluctant to take risks with the economy while political developments have scope to alarm markets.

This is by no means a bad investment climate for corporate bonds. It is perhaps closest to the Japanese situation of the past two decades which have produced steady, relatively good performance for the asset class with very low default rates. However, so much depends on radical central bank policy and we should be nervous that this is still necessary eight years after the Global Financial Crisis. In this environment, we feel that our highly selective approach to building our bond portfolios is more relevant than ever.

EARLY RETIREMENTS

A summary of early retirements and early release of pension on redundancy by employees in Bromley's Pension Fund in the current year and in previous years is shown in the table below. With regard to retirements on ill-health grounds, this allows a comparison to be made between their actual cost and the cost assumed by the actuary in the triennial valuation. If the actual cost of ill-health retirements significantly exceeds the assumed cost, the actuary will be required to consider whether the employer's contribution rate should be reviewed in advance of the next full valuation. In the latest valuation of the Fund (as at 31st March 2013), the actuary assumed a figure of £1m p.a from 2014/15, a significant increase over the estimate of £82k p.a. in the 2010 valuation. In 2014/15, there were seven ill-health retirements with a long-term cost of £452k and, in 2015/16, there were nine ill-health retirements with a long-term cost of £1,126k. Provision has been made in the Council's budget for these costs and contributions have been and will be made to reimburse the Pension Fund, as result of which the level of costs will have no impact on the employer contribution rate.

The actuary does not make any allowance for other (non-ill-health) early retirements or early release of pension, however, because it is the Council's policy to fund these in full by additional voluntary contributions. In 2014/15, there were 19 other retirements with a total long-term cost of £272k and, in 2015/16, there were 23 non ill-health retirements with a long-term cost of £733k. Provision has been made in the Council's budget for severance costs arising from LBB staff redundancies and contributions have been and will be made to the Pension Fund to offset these costs. The costs of non-LBB early retirements have been recovered from the relevant employers.

REPORT PREPARED FOR

**London Borough of Bromley
Pension Fund**

16 August 2016

Alick Stevenson

AllenbridgeEpic Investment Advisers Limited (AllenbridgeEpic).

This document is directed only at the person(s) identified above on the basis of our investment advisory agreement with you. No liability is admitted to any other user of this report and if you are not the named recipient you should not seek to rely upon it. It is issued by AllenbridgeEpic Investment Advisers Limited, an appointed representative of Allenbridge Capital Limited which is Authorised and Regulated by the Financial Conduct Authority.

AllenbridgeEpic Investment Advisers Limited is a subsidiary of Allenbridge Investment Solutions LLP

This quarterly report by your adviser, Alick Stevenson of AllenbridgeEpic Investment Advisers (AllenbridgeEpic), provides a summary of performance and an analysis of the investments of the London Borough of Bromley Pension Fund for the three months ending 30 June 2016.

Executive Summary for the Quarter ended 30 June 2016

- **Despite a small negative investment performance against the benchmark, the fund value rose to £798.2m as at 30 June 2016, from £745.7m at 31 March 2016. The corresponding figure for 30 June 2015 was £710.9m.**
- **The fund had a return of 7.0% (7.3%) for the quarter; 12.1% (12.7%) for the rolling twelve months and 11.0%pa (10.4%pa) over the rolling three years. Over the five year period the fund has returned 10.1%pa v 8.9%pa. These medium term returns compare very favourably to the current actuarial rate of +5.6%pa (figures in brackets are the respective benchmarks).**
- **Once again the majority of the value growth came from the three global equity managers, although fixed income also contributed. One of the DGF portfolios fell slightly, whilst the other rose .**
- **As far as the strategic or long term asset allocations are concerned, the fund continues to remain overweight equities (74.2% v 70%), has moved in line with the strategic asset allocation for DGF assets (9.8% v 10.0%) and remains underweight fixed income (16.0% v 20.0%).**
- **SSgA has provided its last quarterly report to the Fund, but will be in attendance at the September meeting to present their Annual Review.**
- **Representatives of Standard Life will be in attendance at the next Pensions and Investment sub Committee meeting on 21 September 2016**

Market Commentary for the Quarter ended 30 June 2016

“Where we are going, there are no roads”

Dr Emmett Brown (“Back to the Future”)

Brexit became a reality on 23 June 2016 with a 52%/48% vote in favour of leaving the EU. Markets plummeted, gold rose significantly and economic pundits crowded television and radio warning of the dire consequences to come. It seems fair to say that more newspaper column inches have been devoted to BREXIT than almost all other breaking economic stories put together.

Appendix 5

The only certainty is that the road pre and post BREXIT will be paved with issues, both positive and negative. Perhaps we should all carry a copy of Donald Rumsfeld's "Known unknowns" speech with us to remind us that there will be market volatility, currency fluctuations, Central Bank interventions and other economic turbulence to contend with, not just in the run up to exit but for some time thereafter. Not the least of which might be other EU member states calling referenda on their own continued membership thus potentially creating additional economic turbulence.

Several weeks into the third quarter, markets appear to have calmed down as economists reflect on the positives rather than focussing on the doom and gloom previously forecast by the "Remain Camp".

In the UK, David Cameron has fallen on his political sword and in a short run leadership contest, Teresa May has been anointed Prime Minister. Her new cabinet reflects an almost total clear out of "Cameron appointees", including George Osborne.

In parallel, Mr Corbyn's leadership of the Labour Party is also going to a vote. Whilst in the USA, Donald Trump and Hillary Clinton are now the officially nominated presidential candidates for the Republican and Democrat parties, with that election scheduled for November.

At the same time as BREXIT holds the headlines however, we should not forget the slowdown in the Chinese economy and the lack lustre growth in the USA.

Latest economic news suggests a gradual slowdown in the world economy, with both the UK and European economies expected to have little or no growth over the next 12 months.

Whilst stock markets have in general calmed down and indeed moved upwards,, the UK property fund sector saw a number of major funds close to investor redemptions as private investors attempted "significant " disposals over concerns that UK property values would suffer in the wake of BREXIT.

Several major property funds remained closed to redemptions at the time of writing. With one fund suggesting it may remain closed until 2017.

INVESTMENT MANAGER REVIEWS

Global Equity Portfolios

Baillie Gifford Global Alpha (segregated)

This portfolio was funded as at 20 December 2013 with a performance objective to outperform the MSCI (“ACWI”) All Country World Index by 2-3% pa (before fees) over rolling five year periods. This measurement commenced from 31 December 2013).

(The Fund was closed to prospective investors at the beginning of 2015 but remains open for additional funding from existing clients). Baillie Gifford are one of several investment managers that have been appointed to the London CIV and are currently appointed, with other managers, for both Global Equity and DGF mandates.

Portfolio turnover increased slightly, as the four rolling quarters changed, to just 14.0% (12%) over the last 12 months, which implies an average holding period of around seven years, a recognition that Baillie Gifford focus on the long term and prefer to look through the short term gyrations except when they see stock purchasing opportunities.

Baillie Gifford operate a long term growth investment strategy which aims overcome short term political gyrations by buying and holding stocks across the world which exhibit long term fundamental strengths. However, this is not a mantra to exclude the potential effects of ground breaking decisions such as taken in the UK on 23 June to leave the EU on stocks held within the portfolio. In some cases the Implications for some stocks may be negative.

The manager has therefore trimmed a couple of their biggest European holdings in Ryanair and CRH. The proceeds from these two partial sales have been used to purchase additional holdings in Prudential and Novo Norsk. In addition, the manager has made a new purchase in a Chinese stock, Ctrip which they feel will benefit as more travel spend becomes available.

At the end of June 2016 the global equity fund was invested across 24 (23) countries and held 97 (98) different investments. These investments were spread over 9 (9) sectors and encompassed 39 (40) differing industries, thus providing a broadly diversified set of assets. It is worth noting that the active money within this portfolio is continuing to run at a very high level of around 93% (93%). This implies that the fund is not holding benchmark or index weightings relating to stocks making up the index and reflects the active stock picking philosophy of the manager and its long term nature.

For the quarter, the fund had an investment return of 6.8%, some 2.0% behind the benchmark of 8.8%. Since the portfolio reorganisation in December 2013, the fund has returned 10.9%pa against a benchmark of 10.8%pa. *(All returns shown are net of fees.)*

The “active money” style (stock picking) is clearly demonstrated with the top ten holdings continuing to accounting for just under 28% of the total portfolio, in line with the previous quarter. Amazon 4.4% (3.6%) , Royal Caribbean Cruises at 2.8% (3.4%) and Naspers at 3.4% (3.1 %), continue to hold the top three positions whilst S & P, Markel and First Republic Bank take the eighth, ninth and tenth positions with 2.4%, 2.3% and 2.1% respectively.

BlackRock Ascent Life Enhanced Global Equity Fund (pooled)

This portfolio was funded as at 20 December 2013 and has a performance objective: to outperform the MSCI ACWI by 1-2% per annum whilst managing risk relative to the benchmark.

The manager can invest across the whole of the ACW Index and, as a result, held 933 stocks (916) at the end of the quarter and posted a net investment return for the quarter of 7.3% against the index of 8.6% *some 1.3% behind the benchmark in absolute terms*. For the rolling twelve months the manager remains behind the benchmark at 9.2% (*benchmark 11.6%*). Since inception, however, the fund has a positive return of 11.0%pa.

In terms of country allocations, the manager has moved to a neutral position in Europe where they were previously underweight to a small underweight position in the US, where they were previously slightly overweight. It remains underweight in the UK and slightly overweight "Other Countries".

Sectorally, the fund has remained underweight in Healthcare and Financials, moved to small overweight positions in Telecoms and Utilities has moved underweight and has remained overweight InfoTech and Consumer Staples.

The top ten stocks are little changed from last quarter with Apple (1.5%), Altria Group Inc (1.2%) and Cisco Systems (1.2%) taking the top three positions. In total the top ten stocks account for some 10.8% (11.0%) of the overall portfolio.

MFS Global Equity Fund (segregated)

This portfolio was funded as at 18 December 2013 and has a performance objective to outperform the MSCI world index (net dividends reinvested) over full market cycles.

MFS is currently invested in 15 (16) countries and has 117 (115) holdings. This contrasts with the benchmark of 1,645 (1,647) holdings spread across 23 countries.

For the quarter the fund returned 11.0% net against its benchmark of 8.6%. Over the rolling twelve months the fund had a return of 24.0% against a benchmark of 14.4%, a very good return in difficult markets. Since inception the fund has returned 16.1%pa (net) against the benchmark of 11.8% pa.

A look through the country and sector weights shows that the fund remained underweight North America (56.4% v 63.4%) and Asia Pacific ex Japan (1.6% v 4.4%), and has maintained its overweight positions in Europe ex UK (+3.7%), and Japan (+2.8%). The UK overweight has been reduced to neutral. The fund continues to run a small +1.3% overweight in emerging markets.

Sectorally, the fund has again maintained its significant overweight position in Consumer Staples (20.0% v 11.3%), with smaller overweights in Industrials (+4.9%) and Telecommunication Services (+0.9%). These over weights are being "funded" by underweight positions in Consumer Discretionary (-6.1%), Energy (-3.1%) and Utilities (-3.7%).

In terms of top ten holdings, KDDI Corporation with 2.5% of the portfolio, Nestle (2.3%) and Johnson & Johnson at 2.5% are the three largest, with J P Morgan (1.8%), Verizon Comm (1.8%), (1.8%) and Texas Instruments (1.7%) in eighth, ninth and tenth positions.

Global Equity Crossholdings

There are two crossholdings within the aggregated top ten holdings of the three global equity managers this quarter. Last quarter, the only crossholding ranked in the top ten stocks was Wells

Fargo Company at just 0.7% of the total global equity portfolio and approximately 0.5% of total fund assets.

This quarter, MFS and BlackRock both hold Johnson & Johnson for a total value of £4.8m and 3M for a value of £1.8m. These values translate to just 1.1% of the global equity portfolio and just 0.7% of total fund assets.

Diversified Growth Funds

Overall, the make-up of the Baillie Gifford fund has not changed significantly over the quarter. The manager has added slightly to its holdings in sovereign debt, funded by reducing holdings in high yield bonds.

In contrast, Standard Life holds approximately 57% (60%) of its assets in derivative based investments backed by cash, with just over 2/3rds of the portfolio invested in relative value and directional investment strategies.

Baillie Gifford

This mandate was funded on 8 December 2012 and has a performance objective to outperform UK base rate by at least 3.5% pa (net of fees) over rolling five year periods and with an annualised volatility of less than 10%.

For the 12 month period the portfolio has returned 0.1% against the benchmark of 4.0%. For this quarter the fund had a small positive return of 0.9% versus the benchmark of 1.0%. Since inception, the fund has delivered a return of +4.0% (net of fees) against its benchmark of 4.0%.

Despite some major asset class movements over the quarter culminating in the vote to exit the EU on 23 June 2016, The manager made few significant changes to the asset allocations within the fund; the exceptions being a small increase in equities to 20.3% (18.9%) and in structured finance assets up to 8.8% to 7.7% and a nominal reduction in cash holdings to 5.4% (6.2%). The majority of the other changes in asset class values are primarily due to relative value impacts and reflect the differing investment performance of the various asset classes over the quarter.

One of the primary directives for the fund, and one closely followed, is to keep volatility within target.

At the end of the quarter the current figure of 4.5% was similar to that at the end of the previous quarter of 4.5% and well within the upper ceiling of +10%.

Standard Life Global Absolute Return Fund

This mandate was funded on 7 December 2012 and has a performance objective to achieve +5% per year (gross) over 6 month LIBOR over rolling three year periods with expected volatility in the range of 4% to 8%pa.

Appendix 5

The manager has again reported significant negative performance for the quarter and for the rolling twelve months. For the quarter the fund had a negative return of -1.1% against its 6 month LIBOR benchmark of 0.2% and for the twelve months a negative return of -4.0% against the benchmark of 0.7%. Since inception, the fund has generated a positive return (net of fees) of 3.2% pa, although this return is also behind the fund benchmark of 5.6%pa.

The volatility in equity markets and subsequent declines during the quarter impacted negatively on the fund holdings in European equities. The relative value trades between US equities large cap and small cap and the US equity technology versus small cap stocks also lost money during the quarter. In terms of investment performance, the four main components in the portfolio, Market Return Strategies were broadly flat, whereas, Directional Strategies contributed a negative 0.3%, Relative Value strategies, -0.6% and currency hedging and cash -1.1%. These when calculated against their respective overall fund allocations produce a negative return of 1.1% for the quarter.

The table below highlights the asset allocation differences between Baillie Gifford and Standard Life in sourcing investment returns. Please note separate reports on each Fund on page 8

	Baillie Gifford	Baillie Gifford	Standard Life	Standard Life	Total DGF	Total DGF

FIXED INCOME PORTFOLIOS

Baillie Gifford Aggregate Plus Portfolio

This mandate was reorganised on 1 June 2015 and now has a reference benchmark comprising 44% Gilts, 44% Sterling non gilts, 6% global corporate bonds and 6% emerging market bonds. The manager's objective is to outperform this benchmark over rolling three year periods.

For the quarter, the fund returned 0.9%, just 0.1% behind the benchmark of 1.0%. Since the original inception date of 9 December 2013, the fund has generated a return of 8.7% pa relative to a benchmark of 8.8% pa.

From a credit rating perspective the fund has remained underweight benchmark levels with AAA rated bonds (7.3% v 9.3%), AA rated bonds by 11.8% (previously -10.0% to the benchmark) and overweight BBB +9.1% (6.8% to the benchmark) with a total of 92.0% (98.3%) invested in investment grade bonds.

High yield, or below investment grade, has an overweight of 3.9% (6.8%) to the index and is comprised largely of bonds rated BB which have lost their "BBB" rating, but in the opinion of the manager have the ability to regain that rating. The manager does not invest in "C" rated bonds.

Regionally, the fund has remained underweight the UK at -5.0% to the benchmark and overweight the US at +5.8% to the benchmark. Looked at by sector the fund is underweight sovereign debt (-10.5%) and Utilities (-5.3%) with corresponding overweights in Industrials +7.7% and Securitized loans +7.2%.

In terms of active money, ie. those positions larger than the benchmark allocation, the manager holds 2.2% in Annington Finance, 1.9% in Close Bros and 1.9% in KFW 5% 2036 and 1.9% in Tesco Property Finance.

Overall, the fund is long benchmark duration at 9.7 years compared to 9.2 years for the benchmark. The running yield on the total portfolio is 4.04% compared to the benchmark of 3.63%

Fidelity Global Aggregate Fixed Income Portfolio

This portfolio was funded in April 1998 and has a performance objective to outperform by 0.75% pa (gross of fees) a benchmark comprising 100% of (IBoxx Composite (50% Gilts and 50% £ Non Gilts) over rolling three year periods.

The fund basically achieved the benchmark during the quarter with a return of 5.5% (gross of fees) against the benchmark of 5.4%. Over the rolling three years, the fund is ahead of the benchmark by 0.4% pa (9.5% pa v 9.1%pa) and since inception (30 April 1998) has outperformed the benchmark by 0.8% pa with a return of 7.0% pa.

In terms of credit quality, the fund has slightly under 92% (93%) invested in investment grade bonds, albeit underweight the index, especially in AA bonds (fund 53.8% v 57.5%), and has 18.4% (16%) invested in BBB rated bonds. The manager's holdings in high yield bonds has drifted upwards to 5.7% (4.4%) with the remaining 2.3% (8.7%) in a mix of cash (6.7%) and unrated investments.

There have been some changes during the quarter, with the sectoral allocation to US treasury assets rising slightly to 48.0% (46.1%) of the portfolio. Overweight positions in the Financial Services (+4.2%), Insurance (+3.7%) and Basic Industry (1.8%) sectors are offset by underweights in Supranationals and Sovereign Assets (-6.2%) and Utilities (-4.3%).

The portfolio is tracking benchmark duration of 9.7 years and has a running yield of just 2.8% (2.9%)

PART 1 - PUBLIC

Decision Maker: Pensions Investment Sub-Committee

Date: 21st September 2016

Decision Type: Non-Urgent Non-Executive Non-Key

Title: PENSION FUND ANNUAL REPORT 2015/16

Contact Officer: James Mullender, Principal Accountant
Tel: 020 8313 4292 E-mail: james.mullender@bromley.gov.uk

Chief Officer: Director of Finance

Ward: All

1. Reason for report

1.1 This report introduces the annual report and accounts of the Bromley Pension Fund for the year ended 31st March 2016, which the Council is required to publish under the Local Government Pension Scheme Regulations 2013. In accordance with the regulations, the annual report includes a number of stand-alone documents that require the approval of the Sub-Committee (the Governance Policy Statement – pages 29 to 30 of the Annual Report, the Funding Strategy Statement – pages 50 to 60, the Statement of Investment Principles – pages 61 to 68 and the Communications Policy Statement – pages 69 to 70). The annual report (attached at Appendix 1) has been audited by the Fund's external auditor, KPMG LLP and a statement from KPMG is included on page 37 of the Appendix. In accordance with the regulations, the Council will publish the Annual Report on its website by 1st December 2016.

2. RECOMMENDATIONS

2.1 The Sub-Committee is asked to:

(a) Note and approve the Pension Fund Annual Report 2015/16;

(b) Approve the Governance Policy Statement, Funding Strategy Statement, Statement of Investment Principles and Communications Policy Statement as outlined in para 3.2;

(c) Agree that arrangements be made to ensure publication by the statutory deadline of 1st December 2016.

Corporate Policy

1. Policy Status: Existing policy. The Council's Pension Fund is a defined benefit scheme operated under the provisions of the Local Government Pension Scheme (LGPS) Regulations, for the purpose of providing pension benefits for its employees. The investment regulations (The LGPS (Management and Investment of Funds) Regulations 2009) allow local authorities to use all the established categories of investments, e.g. equities, bonds, property etc, and to appoint external investment managers who are required to use a wide variety of investments and to comply with certain specific limits.
 2. BBB Priority: Excellent Council.
-

Financial

1. Cost of proposal: No cost
 2. Ongoing costs: Recurring cost. Pension Fund audit fee £21,000 in 2015/16. Total administration cost £3.50m (includes fund manager/actuary/adviser fees, Liberata charge and officer time)
 3. Budget head/performance centre: Pension Fund
 4. Total current budget for this head: £36.6m expenditure (pensions, lump sums, etc); £41.7m income (contributions, investment income, etc); £745.8m total fund market value at 31st March 2016)
 5. Source of funding: Contributions to Pension Fund
-

Staff

1. Number of staff (current and additional): 0.4 FTE
 2. If from existing staff resources, number of staff hours: c 14 hours per week
-

Legal

1. Legal Requirement: Statutory requirement. Local Government Pension Scheme (LGPS) Regulations 2013
 2. Call-in: Call-in is not applicable.
-

Customer Impact

1. Estimated number of users/beneficiaries (current and projected): 6,234 current employees; 5,084 pensioners; 5,287 deferred pensioners as at 31st March 2016
-

Ward Councillor Views

1. Have Ward Councillors been asked for comments? No.
2. Summary of Ward Councillors comments: N/A

3. COMMENTARY

3.1 The Pension Fund is required by the Local Government Pension Scheme Regulations 2013 to publish an Annual Report and Statement of Accounts. The Regulations set out what is to be included within the report and require the report to be published by 1st December. Furthermore, the Regulations require an administering authority to have regard to guidance given by the Secretary of State and the Fund has complied fully with the Regulations and guidance. The Annual Report for 2015/16 is attached at Appendix 1.

3.2 In accordance with the Regulations, the Annual Report includes four separate documents that require the approval of the Sub-Committee. These are:

- Governance Policy Statement (published in accordance with Regulation 55 of the Local Government Pension Scheme Regulations 2013). This can be found on pages 29 to 30 of the Annual Report;
- Funding Strategy Statement (prepared in accordance with Regulation 58 of the Local Government Pension Scheme Regulations 2013). This can be found on pages 50 to 60 of the Annual Report;
- Statement of Investment Principles (SIP) (produced in accordance with the requirements of The Local Government Pension Scheme (Management and Investment of Funds) Regulations 2009). This can be found on pages 61 to 68 of the Annual Report; and
- Communications Policy Statement (required by Regulation 61 of the Local Government Pension Scheme Regulations 2013). This can be found on pages 69 to 70 of the Annual Report.

These statements were approved by the Sub-Committee on 23rd September 2015, and are kept under review in accordance with the Regulations. No changes are currently being proposed, and members are therefore requested to formally re-approve these statements.

3.3 The Bromley Pension Fund had total net assets of £748.0m as at 31st March 2016 (£745.4m as at 31st March 2015). The Fund Accounts and Net Assets Statement can be found on pages 35 to 48 of the Annual Report.

3.4 Fund performance was reported quarterly to the Sub-Committee during 2015/16 and the Fund underperformed against its benchmark by 0.4% over the year (+0.1% against a benchmark return of +0.5%). Performance compared to the local authority universe (average return of +0.2%) was fair and a ranking in the 39th percentile was achieved in the year (1% being the best and 100% being the worst). Details of investment policy and performance are set out on pages 12 to 17 of the Annual Report.

3.5 Total membership of the fund rose from 15,796 as at 31st March 2015 to 16,605 as at 31st March 2016, when it comprised 6,234 employees, 5,084 pensioners and 5,287 deferred members. Payments into the Fund from contributions (employee and employer), transfers in and investment income totalled £42.1m in 2015/16 (£40.7m in 2014/15) and payments from the Fund for pensions, lump sums, transfers out and administration totalled £35.1m (£35.5m in 2014/15). Details of this can be found in the Pension Fund Revenue Account statement on page 49 of the Annual Report.

3.6 The Annual Report and Accounts have been prepared in accordance with officers' understanding of the requirements of both the LGPS Regulations and the Secretary of State's guidance. The accounts have been audited by KPMG and were made available in draft form on the Council's website before the end of June 2016. At the time of writing KPMG anticipate

issuing an unqualified audit opinion on the financial statements of the Pension Fund and a statement to that effect can be found on page 37 of the Annual Report. The Annual Report has also been audited and is required to be published by 1st December.

4. POLICY IMPLICATIONS

4.1 The Council's Pension Fund is a defined benefit scheme operated under the provisions of the Local Government Pension Scheme (LGPS) Regulations, for the purpose of providing pension benefits for its employees. The investment regulations (The LGPS (Management and Investment of Funds) Regulations 2009) allow local authorities to use all the established categories of investments, e.g. equities, bonds, property etc, and to appoint external investment managers who are required to use a wide variety of investments and to comply with certain specific limits. Under the 2013 Regulations, an Annual Report is required to be published by 1st December.

5. FINANCIAL IMPLICATIONS

5.1 These are summarised in the body of the report and more details are provided in the relevant sections of the Annual Report. The fee for the separate audit of the Pension Fund Accounts and Annual Report was £21,000 in both 2015/16 and 2014/15 and this was charged to the Pension Fund Revenue Account.

FOREWORD

This Annual Report has been produced to keep pensioners and other interested stakeholders informed about the administration and performance of the London Borough of Bromley Pension Fund ("the Fund"). Regulation 34(3) of the Local Government Pension Scheme (Administration) Regulations 2008 and Regulation 57(3) of the Local Government Pension Scheme Regulations 2013 requires an administering authority to have regard to guidance given by the Secretary of State when preparing and publishing its Pension Fund Annual Report. Revised CIPFA guidance was issued by the Secretary of State on 18th August 2014 and this report complies with the regulations and with the CIPFA guidance and includes additional disclosures required therein.

The Local Government Pension Scheme (LGPS) was established to provide death and retirement benefits for all eligible employees, mainly local government staff. The LGPS is a funded final salary scheme, with earnings-banded fixed employee contribution rates and variable employer rates depending on the funding level assessed every three years by the Fund's actuary. Benefits are defined in law and inflation-protected in line with increases in the Consumer Prices Index for September. The scheme is operated by designated administering authorities - each maintains a pension fund and invests monies not needed immediately.

The Council's Pension Fund is a funded defined benefit career average (final salary until 31st March 2014) statutory scheme operated under the provisions of the Local Government Pension Scheme (LGPS) Regulations 2013. The Authority and employees pay contributions into the Fund, calculated at a level intended to ensure that pensions liabilities balance with investment assets over a period of time. The Fund provides benefits for members, including retirement pensions, lump sum retirement grants and widows' pensions.

The Fund is governed by the Superannuation Act 1972 and is administered in accordance with the following legislation:

- The LGPS (Benefits, Membership and Contributions) Regulations 2007 (as amended)
- The LGPS (Administration) Regulations 2008 (as amended)
- The LGPS (Management and Investment of Funds) Regulations 2009.
- The LGPS Regulations 2013 (effective from 1st April 2014).

Pension benefits accrued prior to 1st April 2014 are based on final pensionable pay and length of pensionable service and are calculated as follows:

Service pre 1 April 2008:

- Pension: each year worked is worth $1/80$ x final pensionable salary.
- Lump sum: automatic lump sum of $3/80$ for each year worked x final pensionable salary. A proportion of the accrued pension may be exchanged for a one-off tax free cash payment (£1 pension equates to a £12 lump sum).

Service post 31 March 2008:

- Pension: each year worked is worth $1/60$ x final pensionable salary.
- Lump sum: no automatic lump sum, but a proportion of the accrued pension may be exchanged for a one-off tax free cash payment (£1 pension equates to a £12 lump sum).

With effect from 1st April 2014, the LGPS became a career-average scheme and pension benefits accrued from that date are calculated as follows:

- Pension: for each year of scheme membership, a pension equal to 1/49 of pensionable pay for that year will be added to an employee's pension account. Annual additions are then made to ensure the accrued pension keeps pace with inflation.
- Lump sum: no automatic lump sum, but a proportion of the accrued pension may be exchanged for a one-off tax free cash payment (£1 pension equates to a £12 lump sum).

As well as a change to the way in which benefits are calculated, the normal retirement age for benefits accrued after 31st March 2014 changed to State Pension Age or 65, whichever is later.

There is a range of other benefits provided under the scheme including, but not limited to, early retirement, disability/ ill-health retirement and death benefits.

The London Borough of Bromley is a designated administering authority and is responsible for the administration of the scheme for its employees (and certain admitted bodies), excluding teachers, who have their own specific scheme. The Council discharges this responsibility through the Pensions Investment Sub-Committee consisting of seven councillors appointed by the Council and one staff representative. The Pensions Investment Sub-Committee is primarily responsible for investment and monitoring matters and reports to the General Purposes and Licensing Committee, which has overall responsibility for the administration of the scheme.

The Pensions Investment Sub-Committee has delegated the management of the Fund's active investments to professional investment managers, whose activities are specified in detailed investment management agreements and whose performance is monitored quarterly. The investment managers of the Fund are appointed by the Sub-Committee and, as at 31 March 2016, comprise Baillie Gifford, Blackrock, Fidelity, MFS International and Standard Life. They are regulated by the Financial Conduct Authority (FCA). The Fund's investment managers are set individual performance targets marked against relevant market benchmarks.

2015/16 saw a drop from the good performance seen during 2014/15, both in terms of overall market returns and the specific Fund returns within that market, with the total fund value rising from £745.4m as at 1st April 2015 to £748.0m as at 31st March 2016. In 2015/16, the Fund underperformed the benchmark by 0.4% overall, achieving a return of +0.1% compared to the benchmark return of +0.5%. With regard to the local authority universe, the Fund's overall performance for the year was in the 39th percentile. Further details about the Fund's performance can be found on pages 13 to 17. Our investment policy is summarised on pages 12 to 13 and further details are set out in the Statement of Investment Principles on pages 61 - 68.

This Annual Report was reported to the meeting of the Pensions Investment Sub-Committee on 21st September 2016.

LONDON BOROUGH OF BROMLEY PENSION FUND

MANAGEMENT AND FINANCIAL PERFORMANCE REPORT

The Fund

The London Borough of Bromley Pension Fund is part of the national Local Government Pension Scheme (LGPS), which is a statutory career average (final salary until 31st March 2014) scheme set up to provide pensions and retirement benefits for most local government employees including non-teaching staff in schools and for the employees of certain other bodies. It does not provide for teachers, who have a separate national scheme. Up to the local elections in May 2014, Councillors were eligible to join the scheme at the discretion of individual councils, although councillors' pensions were based on career average Members' allowances. Since May 2014, however, Councillors can no longer be active members of the scheme.

As well as for its own employees, the Fund provides for employees who transferred from the Council to Affinity Sutton (formerly Broomleigh Housing Association), Bromley Mytime, Liberata UK, Certitude and The Landscape Group. These bodies are permitted under the regulations to contribute to the Fund and are termed Admission Bodies. It also provides for non-teaching staff in the colleges of further education within the borough (Ravensbourne College and Bromley & Orpington College) and these are termed Scheduled Bodies. As at 31st March 2016, the Fund also provided for 76 school academies, which are also termed Scheduled Bodies. The Council is responsible for administering the Fund in accordance with various statutory regulations, the principal regulations being the Local Government Pension Scheme Regulations 2013. Day-to-day administration of the Fund, such as the collection of contributions and the payment of pensions, is contracted out to Liberata UK Ltd.

Fund management and advisers

Any decisions on discretionary matters, most of which are prescribed by the regulations, are either taken by officers under delegated authority (generally by the Director of Finance) or referred to the General Purposes and Licensing Committee. The Pensions Investment Sub-Committee oversees the investment of the Fund and has a general responsibility to monitor the Fund's financial position. The Governance Policy Statement (pages 29 – 30) sets out the responsibilities of the various parties involved in managing the Fund. Meetings are held quarterly and the Sub-Committee's membership for the year 1st April 2015 to 31st March 2016 comprised:

Councillor Teresa Te (Chairman), Councillor Keith Onslow (Vice-Chairman), Councillor Eric Bosshard, Councillor Richard Williams, Councillor David Livett, Councillor Russell Mellor, Glenn Kelly (Non-voting staff representative), Jane Harding (Local Pension Board member) and Brian Toms (Local Pension Board member).

Member attendance at Pensions Investment Sub-Committee meetings in 2015/16.

Performance monitoring

WM Company, Deutsche Bank House, 525 Ferry Road, Edinburgh, EH5 2AW

Council officers

Peter Turner, Director of Finance

Martin Reeves, Principal Accountant

Local Pension Board

From April 2015, a new governance structure for the LGPS and other public sector pension schemes came into force, which, among other things, requires the administering authority to set up a Local Pension Board to assist in the management and administration of the LGPS. The Board had to be established by 1st April 2015 and is required to be operational by 1st August 2015. The Board's composition and terms of reference were approved by Council in February and its membership comprises two employer and two member representatives. Its main function is to assist the administering authority with the good governance of the scheme, ensuring the Fund's adherence to legislation, statutory codes of practice and guidance. The Board will meet annually and will submit an annual report on its work to the Council's Pensions Manager.

Risk Management

There are many factors that could have an adverse impact on achievement of the funding strategy and target funding levels. These can be categorised as administrative, management and investment risks. Some of the key potential risks are listed in a section of the Funding Strategy Statement (pages 55 - 56), together with comments on their materiality, on the procedures for monitoring them and on measures available to mitigate them. The risks listed

there have been categorised in four main areas, i.e. financial, demographic, regulatory and governance risks.

The Pensions Investment Sub-Committee is responsible for the prudent and effective stewardship of the London Borough of Bromley Pension Fund. As part of this duty, the Sub-Committee oversees the monitoring and management of risk. The risk management process involves the identification, analysis, control and monitoring of risk. A key tool for the management of risk is the risk register. The register incorporates an assessment of likelihood and impact of risk events as well as control measures in place and an overall risk score. The risk register is kept under review by the Director of Finance and is presented to Members.

Officers operate within the financial procedures and control environment of the Administering Authority. These are regularly audited by internal and external audit.

Management of Third Party Risk

The Fund's investment managers and its custodian issue annual internal control documents. These documents identify internal processes and procedures and details of the audit testing done on them during the year. These provide comfort to the Fund that risk management and control policies and procedures are in place within these organisations. The Director of Finance analyses and reconciles information provided by the custodian to that of the investment manager.

The Pensions Investment Sub-Committee receives quarterly performance reports in which manager performance is reviewed. Any issues arising out of these reviews are raised at the Sub-Committee meeting. The Fund's independent investment adviser monitors the market and the activities of investment managers and informs officers if there are any concerns such as key changes of staff.

Financial Performance

The Council prepares accounts as at 31st March each year, which comply with the CIPFA Code of Practice on local authority accounting 2015/16 and the provisions of Chapter 6, Section 5 "Accounting and Reporting by Pension Funds". The Fund is a defined benefit scheme operated under the provisions of the Local Government Pension Scheme (LGPS) Regulations 2013 for the purpose of providing pension benefits for its employees. In addition to the provision of retirement pensions, the benefits include lump sum retirement grants and widows' pensions.

Day-to-day income and expenditure into and out of the Fund are recorded in the Pension Fund Revenue Account, which showed an overall surplus of £7.0m in 2015/16, which mainly comprised investment income. The Fund's investment assets appear in the Council's Annual Statement of Accounts and the total value of the Fund's net assets increased in 2015/16 from £745.4m as at 1st April 2015 to £748.0m as at 31st March 2016. The Pension Fund Accounts and Net Assets Statement, together with supporting notes, are attached (pages 35 - 49).

Results of participation in National Fraud Initiative (NFI) exercises (data matches, overpayments identified, actions taken, etc).

As part of the National Fraud Initiative 2014 data matching exercise, the LB Bromley pension data was matched to other data such as the DWP deceased register and payroll data. No evidence of fraud was identified but there were 9 cases of overpayments in respect of pensioners who were deceased. The total amount involved was £3,353. The data matching exercise is run every two years; however, management has agreed to join the flexible data matching scheme offered by the National Fraud Team which matches pension data to the

latest DWP deceased register. This was recently matched and the results referred to the Pension Manager for investigation.

In 2015/16, an annual internal audit was completed and the report concluded controls were in place and working well in the areas of:

- Pension entry and opt outs are authorised appropriately
- Payments are made to the correct person according to source documentation
- Pension Retirement Grants are paid at the correct level and after the retirement date
- Payment of death grants are made accurately and promptly
- Life Certificates are regularly sent out and chased up to ensure payments are accurately made for pensioners abroad
- Regular reconciliations are undertaken between pensions and the ledger
- No issues were identified in system security

However,

- Examination of a sample of five transfers out identified two instances where transfer payments had not been processed in a timely manner.
- There was no evidence that a Business Plan for the Pension Services has been prepared by the Council for 2015-16 financial year.

As a result, a substantial assurance opinion was given.

Analysis of pension overpayments, recoveries and amounts written off.

During 2015/16 there were:-

- 58 overpayments to pensioners (41 in 2014/15)
- Total Sum £27,838.93 (one overpayment relates to £12,585.84 of this amount as the notification of death was not received until 2015/16) (£18,073.79 in 2014/15)
- Total Outstanding £18,518.86 of which £13,743.42 relates to three cases prior to February 2016, the remaining outstanding amount relates to death notifications only received from February 2016 (£335.44 in 2014/15)
- There were no write-offs included in the amounts above (1 in 2014/15 totalling £188.07)

In addition to the above there were a further 21 overpayments below £50 (25 in 2014/15) and, in such cases, the Council's policy is not to pursue.

This is the 3rd year this information has been required and, in future years, data will be built up to enable a 5-year analysis to be provided.

Management Performance

Liberata UK Ltd manage the general administration of the Local Government Pension Scheme for the London Borough of Bromley. Performance standards are used to monitor and improve performance. Performance is reported regularly to the Council and is published annually for the information of Scheme members.

Liberata's commitment to Scheme members is:

As administrators of the Bromley Fund, we aim to provide you with good quality service and to communicate effectively. Liberata aim to:

- *453 pieces of correspondence responded to in the last year, of which 99.42% were within the performance standard (99.81% in 2014/15)*

- Process each stage of a transfer of pension rights (to or from the Fund) within 10 days of receiving the required information
91.16% of 95 transfer-in quotations (93.68% in 2014/15) and 94.13% of 86 transfer-out quotations (92.00% in 2014/15) issued within the performance standard
- Process retirement grants (lump sums) within 10 working days of retirement, provided that Liberata have all the necessary information
98.50% of 256 retirement grants paid within the performance standard (99.00% in 2014/15)
- Issue a benefit statement annually to all active and deferred members
Statements issued to all active and deferred members in July and August
- Advise pensioners in April of the annual increase to their local government pension
Pensions increase letters issued to all pensioners in April
- Advise pensioners in April of the annual increase to their local government pension
Pensions increase letters issued to all pensioners in April

Details of contributions received from each employer in the Fund.

A list of contributing employers and details of contributions received is given below. Summary details are provided in the notes to the Pension Fund Accounts (pages 39 and 42).

Contributions are required by statute to be paid into the Fund by the 19th day of the following month to that which they relate if paid by cheque or by 22nd if paid by bank transfer. The Pension Regulations allow the Council to charge interest on contributions that are not paid on time, but this power was not exercised in 2015/16.

INVESTMENT POLICY AND PERFORMANCE REPORT

Investment Principles

In accordance with the requirements of regulation 12 of The Local Government Pension Scheme (Management and Investment of Funds) Regulations 2009 (“the Regulations”), as amended, the Council has produced a Statement of Investment Principles (SIP). The SIP for 2015/16 was approved by the Pensions Investment Sub-Committee on 21st September 2016. This is published on the Council's website (see pages 61 - 68).

Investment Managers

Investment of the Fund is governed by the Local Government Pension Scheme (Management and Investment of Funds) Regulations 2009, which define the categories of investments that may be used and set various limits to prevent over-concentration in single asset types or single investments. In practice, investment in all the principal classes of assets is permitted. Most of the Pensions Investment Sub-Committee’s work relates to the monitoring of investment performance, which can have a critical impact on the value of the Fund’s assets.

The Council currently employs five investment managers:

- Baillie Gifford & Company (initially appointed in December 1999 and still running a fixed income mandate as well as a Diversified Growth Fund (DGF) mandate from December 2012 and a global equities mandate from December 2013);
- Blackrock (appointed from December 2013 to manage a global equities mandate);
- Fidelity Pensions Management (originally appointed in April 1998, but now only running a fixed income mandate);
- MFS International (appointed from December 2013 to manage a global equities mandate); and
- Standard Life Investments (appointed to run a DGF mandate from December 2012).

It also employs an independent custodian, the Bank of New York Mellon, to hold the Fund’s investments and perform related functions such as the collection of investment income and operation of bank accounts in various currencies. The Pensions Investment Sub-Committee is responsible for all these appointments.

The regulations require the performance of the investment managers to be reviewed at least once every three months. Quarterly meetings of the Sub-Committee are held for this purpose and each manager submits a report on his activities in the previous quarter. The Fund managers attend meetings as requested to present and discuss reports on performance. The Director of Finance presents a separate report on investment performance to each meeting, based on data prepared by the independent WM Company and including comments from the Fund’s external advisers, AllenbridgeEpic.

The investment managers have to operate within the investment powers set out in the regulations and in accordance with their benchmarks. These determine the broad allocation of investments over different asset classes and the extent to which they can diverge from that allocation. Details are included in the Fund’s Statement of Investment Principles (pages 61 - 68). The Pensions Investment Sub-Committee is responsible for determining and reviewing the asset allocation strategy of the Fund and this is reviewed on a regular basis. The asset allocation strategy agreed in 2006 (two balanced portfolios managed by Fidelity and Baillie Gifford with benchmarks based on a broad 80:20 ratio of equities to bonds) remained in place until the comprehensive strategy review that took place during 2011/12 (see below).

The regulations also require the authority to review periodically whether to retain their managers. The section on investment performance on pages 13 - 17 shows that the Fund has done very well in comparison with other local authority funds over all measured periods (out to 10 years), as a result of which, prior to 2011/12, it had been concluded that there was no reason to seek to terminate either of the current agreements. However, following relatively poor performance in 2011/12, a comprehensive strategy review was carried out, which concluded that, in view of ongoing world market problems, a change of direction was required. Consequently, the Sub-Committee agreed to maintain the high level 80%/20% split between growth seeking assets (representing the long-term return generating part of the Fund's assets) and protection assets (aimed at providing returns to match the future growth of the Fund's liabilities). The growth element would, however, comprise a 10% investment in Diversified Growth Funds (DGF - a completely new mandate) and a 70% allocation to global equities. The latter involved the elimination of our previous arbitrary regional weightings, which now provides new managers with greater flexibility to take advantage of investment opportunities in the world's stock markets, thus, in theory at least, improving long-term returns. A 20% protection element would remain in place for investment in corporate bonds and gilts. The first phase of the new strategy (an allocation of £50m (10% of the total Fund value at that time) to two Diversified Growth Fund (DGF) managers, Baillie Gifford and Standard Life) was implemented in December 2012. Phase 2 (the award of three separate global equities mandates – 70% (£440m) of the total Fund value at that time – to Baillie Gifford, Blackrock and MFS International) was implemented in December 2013. Phase 3 (the award of two separate fixed income mandates – 20% of the total Fund value) was implemented during 2015/16.

Fees paid to the investment managers are charged to the Fund. In 2015/16, these were calculated on the following bases:

Baillie Gifford (global equities*) - Base fee (quarterly) 01/04/15 to 31/12/15 0.55% of first £30m of Fund value (increased to 0.65% from 01/01/16), 0.45% of next £30m (increased to 0.50% from 01/01/16) and 0.35% of remainder (unchanged from 01/01/15).

Baillie Gifford (fixed income) - Base fee (quarterly) 0.25% of total Fund value.

Baillie Gifford (DGF*) - Base fee (quarterly) 0.65% of first £30m, 0.50% on the next £90m and 0.45% thereafter.

* Baillie Gifford global equities and DGF values are aggregated for fee calculations

Blackrock (global equities) - Base fee (quarterly) 0.30% of total Fund value.

Fidelity (fixed income) - Base fee (quarterly) 0.35% of first £10m of Fund value, 0.30% of next £10m, 0.21% of next £30m and 0.18% of remainder.

MFS (global equities) - Base fee (quarterly) 0.60% of first £25m of Fund value, 0.45% of next £25m and 0.40% of remainder.

Standard Life (DGF) – Base fee (quarterly) 0.70% of total Fund value.

Review of Investment Performance

The WM Company provides an independent performance measurement service for the Fund and attends the Pensions Investment Sub-Committee once a year to present an annual report.

Performance data for 2015/16

Fund Value

The total market value of the Fund has fluctuated considerably in the last few years. Since 2002, however, increases in the good years (most notably 2005/06, 2009/10, 2012/13 and

2014/15) have far exceeded decreases in the bad years (2002/03 and 2008/09). As a result, the total value of Fund investments has increased from £180.3m as at 31st March 2003 to £748.0m as at 31st March 2016. In 2015/16, the value rose by 0.3% from £745.4m to £748.0m.

£50m Fidelity equities sold in Dec 2012 to fund Standard Life and Baillie Gifford DGF allocations.
 @ Assets sold by Fidelity (£170m) and Baillie Gifford (£70m) in Dec 2013 to fund MFS and Blackrock global equities.

PENSION FUND - QUARTERLY VALUES SINCE 2002

Investment Performance

The Fund's medium and long-term returns have remained very strong, although the overall return of +0.1% for 2015/16 was down against the benchmark return of +0.5% (ranking in the 39th percentile (the lowest rank being 100%)). In 2014/15, the fund returned +18.5% compared to the benchmark return of +16.4% (overall ranking in the 5th percentile). For comparison, the rankings in recent years were 29% in 2013/14, 4% in 2012/13, 74% in 2011/12, 22% in 2010/11, 2% in 2009/10 (the second best in the whole local authority universe), 33% in 2008/09, 5% in 2007/08, 100% in 2006/07 (equal worst in the whole local authority universe), 5% in 2005/06, 75% in 2004/05, 52% in 2003/04, 43% in 2002/03 and 12% in 2001/02.

Since the implementation of Phase 2 (global equities) of the revised Investment Strategy in December 2013, the Fund has employed a total of five managers, all of which are measured against specific benchmarks and are given specific performance objectives, as follows:

Global equities – Baillie Gifford, Blackrock and MFS are all required to outperform the MSCI All Countries World Index.

Fixed income – Baillie Gifford are required to outperform 50% FTSE UK Gilts All Stocks/50% BAML Sterling Non-Gilts Index; Fidelity are required to outperform 50% iBoxx Gilts/50% iBoxx non-Gilts.

DGF – Baillie Gifford are required to achieve Base Rate + 3.5%; Standard Life are required to achieve 6 month Libor + 5%.

The WM Company measures their results against these benchmarks instead of against its local authority indices and averages. At total Fund level, however, it continues to use the local authority indices and averages and other comparisons with local authority averages may be highlighted from time to time to demonstrate, for example, whether the benchmark itself is producing good results. The following tables show total Fund performance and the performance returns of the individual managers in periods ended 31st March 2016.

Medium and long-term performance data

As is shown in the table above, the Fund's medium and long-term returns have remained very strong. Long-term rankings to 31st March 2016 were in the 6th percentile for three and five years and in the 4th percentile for ten years, all of which were very good and underlined the fact that the Fund's performance has been consistently strong over a long period. Whole Fund returns and rankings for individual years are shown in the following table:

Year	Whole Fund Return	Benchmark Return	Local Authority average	Whole Fund Ranking
	%	%	%	
2015/16	0.1	0.5	n/a	39

10 year ave to 31/3/16	7.7	6.4	n/a	4

The graph below shows total Fund performance to 31st March 2016 over 1, 3, 5 and 10 years compared to the local authority universe.

Custodial arrangements

The Fund uses the Bank of New York (BNY) Mellon as custodian of the cash and securities deposited for safe custody, including stocks, shares, bonds, notes, coupons, certificates of deposit or commercial paper, whether in certificated, uncertificated, registered or bearer form. BNY also effect settlements and other transfers and arranges for the collection of dividends and other receipts.

FUND ADMINISTRATION REPORT

Pension Fund Governance Policy and Compliance Statement

In accordance with regulation 73A of the Local Government Pension Scheme Regulations 1997, the Council has produced a Pension Fund Governance Policy Statement. This is attached at pages 29 – 30. In June 2007, the regulations were amended to require administering authorities to report the extent of compliance against a set of best practice principles published by the government. This Governance Compliance Statement was reported to the General Purposes and Licensing Committee in July 2008 and is attached at pages 31 - 34.

Fund Administration

Liberata UK Ltd manage the general administration of the Local Government Pension Scheme for the London Borough of Bromley. Details of their performance against standards are shown in the Management and Financial Report above.

Details of administration costs, including investment management fees, adviser fees and fees paid to Liberata are shown on pages 9 and 10 and in the supporting notes to the Pension Fund accounts (page 43).

Liberata UK Ltd

As administrators of the Fund, Liberata aim to provide Members with good quality service and to communicate effectively. They undertake the administration of the LGPS Regulations and associated legislation for over 15,000 Fund members, including LB Bromley staff, non-teaching staff employed by LB Bromley, Affinity Sutton (formerly Broomleigh Housing Association), Bromley MyTime, Liberata UK, Landscape Group, Certitude, Bromley & Lewisham MIND, the Council's colleges (Bromley & Orpington and Ravensbourne), academies and elected Members of the Council.

Administrator functions include:

- Provision of retirement benefits, life cover and dependants' benefits for current and former staff and their dependants.
- Maintenance of member pension records via interface from the Council payroll.
- Implementation of changes in the regulations affecting benefit (or potential benefit) entitlements and keeping members informed of their options.
- Provision of illustrations for transfer of members' previous pension benefits into the Fund and, where appropriate, affecting the transfer.
- Provision, on request, of illustrations of the benefits of paying additional contributions.
- Provision of details of preserved entitlements for early leavers and transfers out and payment as necessary.
- Provision of forecasts of redundancy and early retirement benefits and payment as necessary.
- Calculation and recovery of employer costs associated with the capital impact on the Fund of early payment of benefits – including one-off payments.
- Operation of special provisions of the LGPS relating to elected Members who have opted to join the Fund.
- Provision of data to the Council's actuary for the annual IAS19 exercise and for triennial full valuations of the Fund.
- Submission of statutory returns to government bodies as required.
- Maintenance of Pensions IT system, with updated versions and revisions to tables as advised by the actuary or the Government's Actuary Department.

- Advice and assistance on pension issues where members' employment is being transferred to a contractor under TUPE. Arranging terms for admission agreements to the Fund for new employers.

Key activity in 2015/16 included:

- Production of the academy conversion data for the Actuary, to enable them to calculate the pension deficit for the 16 Schools that have converted to academy status within 2015/16.
- The provision of data to the Actuary for a number of possible outsourcing contracts and admitted body membership.
- Notification to all scheme members of the cessation of contracting out.
- Data cleansing for the forthcoming triennial valuation in 2016/17.
- Reconciliation of all transfer in/out payments and retirement grants and death grants for 2014/15 completed.

Enquiries and Complaints

In order to protect Members' interests, the Council is required by the LGPS regulations to set up a two-stage appeal procedure. Full details of these can be obtained from the Liberata Pensions Team (contact details shown below). In addition to the internal dispute process, Members also have access to a number of external advisers or regulators who are there to assist with pension matters.

Self-Service Pensions

Members of the Fund can access their own pension records online, through the Altair Member Self Service (MSS). This service allows Members to view their own records and carry out their own pension benefits calculations, including deferred benefits, pension predictions, lump sum commutation options and redundancy estimates. Members also have the option of updating their Expression of Wish records (by downloading and submitting a signed form) and personal details such as change of address or name. An activation key to access the Altair Member Self Service function can be requested by accessing <https://bromleypensionsonline.bromley.gov.uk> and a key and details of how to use MSS will be sent direct to the member.

The Fund's Internal Dispute Resolution Procedure.

Members are initially encouraged to contact Liberata UK if they are not sure which benefits they are entitled to or if they have a problem with their benefits. Many problems are resolved informally in this way before they escalate.

If, however, Members are not satisfied with anything relating to their membership of the Fund, their pension benefits or decisions taken that affect them (or their dependants), they have the right to ask for a review under the formal complaint procedure. This procedure is called the Internal Dispute Resolution Procedure (IDRP).

The IDRP has two stages:

Stage 1: the complaint should be made formally, in writing, within 6 months of the date of notification of the decision against which the member wishes to complain. A person nominated by the employer will review the decision and inform the complainant in writing within 3 months of the date on which the complaint was logged.

Stage 2: the member can ask for a 2nd look at the complaint (by a person not involved in the 1st stage decision) if he/she is not satisfied with the 1st stage decision or if the 1st stage decision has not been made within 3 months of the date on which it was logged.

If the complainant is still unhappy with the decision after the 2nd stage, he/she can take the case to the Pensions Ombudsman, provided this is within 3 years of the original decision or problem.

There were no formal complaints raised through the IDRP in 2015/16.

Membership of Bodies

The Fund is a member of the following bodies:

Local Government Pensions Committee – provides technical advice, guides, communications and training on the Local Government Pension Scheme.

Pensions and Lifetime Savings Association (previously National Association of Pension Funds) – the voice of workplace pensions in the UK. Spreads best practice among members, challenges regulation and promotes policies that add value. Also provides technical advice, guides, communications and training.

ACTUARIAL REPORT

The regulations require an actuarial valuation of the Fund's assets and liabilities every three years and the Pensions Investment Sub-Committee is responsible for considering the actuary's report. In the report on the most recent valuation as at 31st March 2013, the Fund's actuary, Mercer Ltd, determined the level of employers' contributions for the three years 2014/15 to 2016/17. Employers' contributions have to provide both for the ongoing cost of pensions in respect of employees' future service and for the eventual elimination of the shortfall in respect of past service. Contribution rates for the years 2011/12 to 2013/14 were set by the Council's previous actuary, Barnett Waddingham, in the 2010 valuation. The next full valuation of the Fund (as at 31st March 2016) will be carried out during 2016/17.

In the 2013 valuation, the actuary found that the value of the Fund's assets represented 82% of the value of its liabilities, down from 84% in 2010. The actuarially assessed position at 31 March 2013 is summarised in the table below.

Valuation	31 March 2010	31 March 2013	% change
	£m	£m	%
Liabilities	511	712	+39.3
Assets	429	584	+36.1
Shortfall	82	128	+56.1
Funding level	84%	82%	-2.0

The key actuarial assumptions as at 31st March 2010 and 2013 are shown below:

Financial Assumptions	2010	2013
Future investment returns	% p.a.	% p.a.
<i>Discount Rate (future service)</i>	7.2	5.6
<i>Pay increases – long term</i>	5.0	4.1
<i>Pay increases – short term (3 years)</i>	n/a	1.0
<i>General inflation</i>	3.5	2.6
<i>Pension increases</i>	3.0	2.6

In the 2010 Valuation, the employer contribution rate in respect of future service with effect from 1st April 2011 to 31st March 2014 was set at 14.7% for all London Borough of Bromley employees. The 2013 Valuation increased this to 15.3% for the three years 1st April 2014 to 31st March 2017. In addition to contributions in respect of Fund members, the Council is also required to make contributions to eliminate the Fund deficit. These were fixed in the 2010 valuation at £5.5m in 2011/12, £5.8m in 2012/13 and £6.1m in 2013/14 with the aim of recovering the deficit over a period of 12 years. The 2013 Valuation set these at £5.9m per annum in 2014/15, 2015/16 and 2016/17 with the aim of recovering the deficit over a period of 15 years.

The 2013 valuation report also contained contribution rates for the other employers in the Fund, including Bromley & Orpington and Ravensbourne Colleges, Affinity Sutton (Broomleigh Housing Association), Liberata UK and Bromley MyTime, as well as for schools. Separate contribution rates were also set for those schools that had adopted academy status. A deficit recovery period of no more than 15 years was set for all these employers, in line with the period set for the Council. The Contribution Schedule set by the actuary is shown on pages 26 - 28.

The Fund income from employer contributions by the Council has increased steadily over the years, principally because there has been a funding shortfall in the Fund since the early

nineties. Since then, a programme of annual increases in employer contributions has been implemented with the aim of eliminating the shortfall over an extended period. For a variety of reasons, however, the shortfall has persisted and, in common with all defined benefit schemes, both public and private, there has been a sharp deterioration since the turn of the century as the result of adverse market conditions and improved longevity. The Fund's current strategy is to achieve a funding level of 100% by 2028, but this will be reassessed in the next full valuation (as at 31st March 2016), the results of which will be known towards the end of 2016/17.

The latest Fund valuation report (as at 31st March 2013) can be found at http://www.bromley.gov.uk/downloads/file/2097/pension_fund_actuarial_valuation_report_31_march_2013. No interim valuations were carried out between that date and the previous full valuation as at 31st March 2010.

The actuary's Summary Funding Statement and Rates and Adjustments certificate are attached at pages 23 - 24 and 25 - 28 respectively.

LONDON BOROUGH OF BROMLEY PENSION FUND
ACTUARIAL VALUATION 31 MARCH 2013 – PAST SERVICE FUNDING POSITION
(Sections 2.1, 2.2 and 2.3 of the Funding Report of the Actuarial Valuation as at 31 March 2013)

Section 2. Key results of the funding assessment

2.1 Past service funding position

The table below compares the assets and liabilities of the Fund at 31 March 2013. Figures are also shown for the last valuation as at 31 March 2010 for comparison.

	£m	
	31 March 2013	31 March 2010
Total assets	584	429*
Liabilities:		
Active members	237	195
Deferred pensioners	131	70
Pensioners	344	246
Total liabilities	712	511
Past service surplus / (shortfall)	(128)	(81)
Funding level	82%	84%

*smoothed asset value at 31 March 2010

The table shows that at 31 March 2013 there was a shortfall of £128m. An alternative way of expressing the position is that the Fund's assets were sufficient to cover 82% of its liabilities – this percentage is known as the funding level of the Fund.

At the previous valuation at 31 March 2010 the shortfall was £81m, equivalent to a funding level of 84%.

The liability value at 31 March 2013 shown in the table is known as the Fund's "funding target". The funding target is calculated using assumptions that the Administering Authority has determined are appropriate, having consulted with the actuary, and are also set out in the Administering Authority's Funding Strategy Statement (FSS).

2.2 Normal Contribution Rate

The valuation looks at the normal employer contribution rate required to cover the cost of the benefits (including death benefits and expenses) that will be built up over the year after the valuation date (the "Common Contribution Rate"). The table below gives a breakdown of the Common Contribution Rate at 31 March 2013 and also shows the corresponding rate at 31 March 2010 for comparison.

	% of pensionable pay	
	31 March 2013	31 March 2010
Normal contribution rate for retirement and death benefits	21.2	21.3
Allowance for administrative expenses	0.7	0.0
Total normal contribution rate	21.9	21.3
Average member contribution rate	6.6	6.6
Common Contribution rate	15.3	14.7

The benefits earned under the LGPS changed with effect from 1 April 2014, and the Common Contribution Rate at 31 March 2013 allowed for these changes. Active members pay contributions to the Fund as a condition of membership in line with the rates required under the governing Regulations.

2.3 Correcting the shortfall

The funding objective as set out in the FSS is to achieve and maintain a funding level of 100% of liabilities (the Funding Target). In line with the FSS, where a shortfall exists at the effective date of the valuation a deficit recovery plan will be put in place which requires additional contributions to correct the shortfall (or contribution reductions to refund any surplus). The maximum deficit recovery period for the Fund has been set as 15 years.

In practice, each employer's position is assessed separately. The Schedule to the Rates and Adjustments Certificate (see pages 26 - 28) sets out the contributions for each employer over the three year period to 31 March 2017. The individual rates take into account the differing circumstances of each employer or employer group and the funding plan, as laid down in the FSS. Contribution requirements for the period from 1 April 2017 onwards will be revised as part of the next actuarial valuation as at 31 March 2016 and will be confirmed in the Rates and Adjustments Certificate and Schedule accompanying that valuation report.

LONDON BOROUGH OF BROMLEY PENSION FUND
ACTUARIAL VALUATION 31 MARCH 2013 – RATES AND ADJUSTMENTS
CERTIFICATE ISSUED IN ACCORDANCE WITH REGULATION 36 OF THE
ADMINISTRATION REGULATIONS
(Appendix G of the Funding Report of the Actuarial Valuation as at 31 March 2013)

Primary Contribution Requirements

I hereby certify that, in my opinion, the common rate of employers' contributions payable in each year of the period of three years beginning 1 April 2014 should be at the rate of 15.3 per cent of Pensionable Pay.

I hereby certify that, in my opinion, the amount of the employers' contributions payable in each year of the period of three years beginning with 1 April 2014, as set out above, should be individually adjusted as set out in the attached schedule. Contributions will be payable monthly in arrears with each payment normally being due by the 19th of the following month (or the 22nd if paid electronically) unless otherwise noted in the schedule or in a separate agreement with an individual employer, and the contributions in the attached schedule take account of any such agreements.

Further Adjustments

A further individual adjustment shall be applied in respect of each non-ill health early retirement occurring in the period of three years covered by this certificate. This further individual adjustment will be calculated in accordance with methods agreed from time to time between the Fund's actuary and the Administering Authority.

The contributions set out in the attached schedule represent the minimum contribution which may be paid by each employer in total over the 3 years covered by the certificate. Additional contributions or a different pattern of contributions may be paid if requested by the employer concerned at the sole discretion of the Administering Authority as agreed with the Actuary. The total contributions payable by each employer will be subject to a minimum of zero.

The individual employer contributions may be varied as agreed by the Actuary and Administering Authority to reflect any changes in contribution requirements as a result of any benefit costs being insured with a third party or parties including where the third party or parties participate in the Fund.

In cases where an element of an existing Scheme employer's deficit is transferred to a new employer on its inception, the Scheme employer's deficit recovery contributions, as shown on the schedule to this Certificate, may be reallocated between the Scheme employer and the new employer to reflect this, on advice of the Actuary and as agreed with the Administering Authority so that the total payments remain the same overall.

Regulation 36(8)

No allowance for non-ill health early retirements has been made in determining the results of the valuation, on the basis that the costs arising will be met by additional contributions. Allowance for ill health retirements has been included in each employer's contribution rate, on the basis of the method and assumptions set out in the report.

Notes:

1. The percentages shown are percentages of pensionable pay and apply to all members.
2. These employers were admitted to the Fund after 31 March 2013.
3. Assumed rate. Valuation not complete at date of writing (July 2016).

LONDON BOROUGH OF BROMLEY PENSION FUND GOVERNANCE POLICY STATEMENT

1. This statement has been published in accordance with regulation 55 of the Local Government Pension Scheme Regulations 2013.
2. It was published after consultation with the other employers in the Fund, namely Bromley & Orpington College, Ravensbourne College, Affinity Sutton (Broomleigh Housing Association), Bromley Mytime and Bromley & Lewisham MIND. The Council also consulted its employees through their departmental representatives and trade unions.
3. Before publishing the statement, the Council took into account guidance issued by the CIPFA Pensions Panel under the title "Local Government Pension Scheme: Pension Fund Decision Making – Guidance Notes (2006)".
4. Under Schedule 1, paragraph H1 of The Local Authorities (Functions and Responsibilities) (England) Regulations 2000 (SI 2000 No. 2853), functions relating to local government pensions are not to be the responsibility of an authority's Executive.
5. The Council has made the following arrangements for delegation of its functions relating to pensions:
 - (a) Overall responsibility for administration of the Local Government Pension Scheme has been delegated to the General Purposes and Licensing Committee.
 - (b) Responsibility for the following functions has been delegated to the Pensions Investment Sub-Committee, which is a sub-committee of the General Purposes and Licensing Committee:
 - (i) Monitoring the financial position of the Pension Fund, including consideration of the triennial actuarial valuations.
 - (ii) Investment of the Pension Fund, including the appointment of investment managers.
 - (iii) Management of the Council's additional voluntary contributions (AVC) scheme.
 - (c) Responsibility for day-to-day administration has been delegated to the Director of Finance. He has issued operational guidelines for internal use by staff, including staff employed by Liberata Pensions, for reference in determining the day-to-day issues that have been delegated to him.
6. The General Purposes and Licensing Committee normally meets six times a year. Its membership comprises 15 elected councillors, with its political make-up determined according to proportionality rules.
7. The Pensions Investment Sub-Committee normally meets four times a year. Its primary function is to review the investment performance of the Fund's external investment managers. Its membership comprises seven elected councillors, with its political make-up determined in accordance with proportionality rules, and one non-voting representative of the Council's employees.
8. Neither the General Purposes and Licensing Committee nor the Pensions Investment Sub-Committee includes any representatives of the other Fund employers. The Council does not believe that it would be practicable for these employers to be represented on

either committee, as this would result in an inappropriate balance of committee membership given that a large proportion of the Fund's members are the financial responsibility of the Council.

9. In addition to both the General Purposes and Licensing Committee and the Pensions Investment Sub-Committee, a Local Pension Board (hereinafter referred to as 'the Board') has been established to meet the requirements of The Local Government Pension Scheme Regulations 2013 (as amended). The role of the Local Pension Board is to "assist" administering authorities to secure compliance with the LGPS regulations and other legal and regulatory requirements, and generally to ensure the efficient and effective governance and administration of the LGPS.

The Board is not a Local Authority committee, but has been established by Council. It may only operate within its Terms of Reference. A full copy of the Terms of Reference is available on request and a summary of the key points can be found below:

- The Board must comprise of an equal number of Employer and Member Representatives, with no fewer than two of each;
- Member Representatives are formally appointed by the General Purposes and Licensing Committee. Employer Representatives are formally appointed by full Council on the recommendation of the General Purposes and Licensing Committee;
- The Board must meet officially on an annual basis, further ad hoc meetings may be convened as and when required;
- The Board's role is to oversee and it is not a decision making body with regard to the management of the Pension Fund;
- No independent Chairman will be appointed to the Board. Instead, Employer and Member representatives will rotate the chairing of meetings on an annual basis.

In the event of a vote, Board members have one vote per member. However, it is anticipated that the Board will reach a consensus where possible.

GOVERNANCE COMPLIANCE STATEMENT

The objective of the Governance Compliance Statement is to make the administration and stewardship of the scheme more transparent and accountable to our stakeholders.

Principle A – Structure

a)	The management of the administration of benefits and strategic management of fund assets clearly rests with the main committee established by the appointing council.	Fully Compliant
b)	That representatives of participating LGPS employers, admitted bodies and scheme members (including pensioner and deferred members) are members of either the main or secondary committee established to underpin the work of the main committee.	Partly compliant
c)	That where a secondary committee or panel has been established, the structure ensures effective communication across both levels.	Partly compliant
d)	That where a secondary committee or panel has been established, at least one seat on the main committee is allocated for a member from the secondary committee or panel.	Partly compliant

* Please use this space to explain the reason for non-compliance (regulation 73A(1)(c)/1997 Regulations)

Neither the General Purposes and Licensing Committee nor the Pensions Investment Sub-Committee includes any representatives of the other Fund employers. The Council does not believe that it would be practicable for these employers to be represented on either committee, as this would result in an inappropriate balance of committee membership given that a large proportion of the Fund's members are the financial responsibility of the Council. This matter will be kept under review. There is a non-voting representative of the Council's employees on the Pensions Investment Sub-Committee and there are also two employer representatives and two member representatives on the Local Pension Board.

Principle B – Representation

a)	<p>That all key stakeholders are afforded the opportunity to be represented within the main or secondary committee structure. These include :-</p> <ul style="list-style-type: none"> i) employing authorities (including non-scheme employers, e.g, admitted bodies); ii) scheme members (including deferred and pensioner scheme members), iii) independent professional observers, and iv) expert advisors (on an ad-hoc basis). 	Partly compliant
----	---	------------------

b)	That where lay members sit on a main or secondary committee, they are treated equally in terms of access to papers and meetings, training and are given full opportunity to contribute to the decision making process, with or without voting rights.	Fully compliant
----	---	-----------------

Please use this space to explain the reason for non-compliance (regulation 73A(1)(c)/1997 Regulations)
The Pensions Investment Sub Committee includes an employee representative as part of its membership and the Local Pension Board membership comprises two employer representatives and two member representatives.

Please use this space if you wish to add anything to explain or expand on the ratings given above :-
The employee representative on the Pensions Investment Sub Committee receives all non-exempt papers and can attend Sub-Committee meetings other than for exempt matters. Equal access is given to training and he also has a full opportunity to contribute to the decision making process but without voting rights.

Principle C – Selection and role of lay members

a)	That committee or panel members are made fully aware of the status, role and function they are required to perform on either a main or secondary committee	Fully compliant
----	--	-----------------

Principle D – Voting

a)	The policy of individual administering authorities on voting rights is clear and transparent, including the justification for not extending voting rights to each body or group represented on main LGPS committees.	Fully compliant
----	--	-----------------

Please use this space if you wish to add anything to explain or expand on the ratings given above :-
Before publishing the statement, the Council took into account guidance issued by the CIPFA Pensions Panel under the title “Local Government Pension Scheme: Pension Fund Decision Making – Guidance Notes (2006)”.

Principle E – Training, Facility time, Expenses

a)	That, in relation to the way in which statutory and related decisions are taken by the administering authority, there is a clear policy on training, facility time and reimbursement of expenses in respect of members involved in the decision-making process.	Fully compliant
b)	That where such a policy exists, it applies equally to all	Fully compliant

	members of committees, sub-committees, advisory panels or any other form of secondary forum.	
--	--	--

Please use this space if you wish to add anything to explain or expand on the ratings given above :-

The policy is to ensure that there is regular and comprehensive access to training. An in-house training session for Councillors was held in July 2014 and another one is planned for September 2015. In addition, three Members of the Pensions Investment Sub-Committee attended an external training event in October 2014.

Principle F – Meetings (frequency/quorum)

a)	That an administering authority’s main committee or committees meet at least quarterly.	Fully compliant
b)	That an administering authority’s secondary committee or panel meet at least twice a year and is synchronised with the dates when the main committee sits.	Not applicable
c)	That administering authorities who do not include lay members in their formal governance arrangements, provide a forum outside of those arrangements by which the interests of key stakeholders can be represented	Partly compliant

* Please use this space to explain the reason for non-compliance (regulation 73A(1)(c)/1997 Regulations)

As stated, an employee representative is currently a member of the Pensions Investment Sub-Committee. Presentations are made to the employee forum where opportunities exist for the representation of interests and issues.

Please use this space if you wish to add anything to explain or expand on the ratings given above :-

The General Purposes and Licensing Committee meets six times per year plus any special meetings.
The Pensions Investment Sub Committee meets four times per annum plus any special meetings.

Principle G – Access

a)	That, subject to any rules in the Council’s constitution, all members of main and secondary committees or panels have equal access to committee papers, documents and advice that fall to be considered at meetings of the main committee.	Fully compliant
----	--	-----------------

Please use this space if you wish to add anything to explain or expand on the ratings given above :-

Equal access is given.

Principle H – Scope

a)	That administering authorities have taken steps to bring wider scheme issues within the scope of their governance arrangements	Fully compliant
----	--	-----------------

Please use this space if you wish to add anything to explain or expand on the ratings given above :-

Wider scheme issues are also part of the Council's governance arrangements.

Principle I – Publicity

a)	That administering authorities have published details of their governance arrangements in such a way that stakeholders with an interest in the way in which the scheme is governed, can express an interest in wanting to be part of those arrangements.	Fully compliant
----	--	-----------------

FUND ACCOUNT AND NET ASSETS STATEMENT

Regulation 34(1)(f) requires an administering authority to prepare a Pension Fund account and net assets statement with supporting notes and disclosures prepared in accordance with proper practice. These statements must be included in this annual report and must be drawn up in accordance with the Code of Practice on Local Authority Accounting issued by CIPFA.

The accounts have to be accompanied by a statement of responsibilities signed by the Director of Finance and by the independent auditor's report. These can be found on pages 36 and 37. The Fund Account and Net Assets Statement are on page 38, supporting notes are on pages 39 to 48 and details of the Pension Fund Revenue Account are on page 49.

During 2015/16, the total net assets of the Fund rose from £745.4m to £748.0m. The Pension Fund Revenue Account showed a surplus for the year of £7.0m (excluding changes in market value) and total Fund membership numbers increased in the year from 15,796 to 16,605.

STATEMENT OF RESPONSIBILITIES

The Authority's Responsibilities

The Authority is required:

- * to make arrangements for the proper administration of its financial affairs and to secure that one of its officers has the responsibility for the administration of those affairs. In this Authority, that officer is the Director of Finance;
- * to manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets; and
- * to approve the Statement of Accounts.

The Director of Finance's Responsibilities

The Director of Finance is responsible for the preparation of the Fund's Statement of Accounts in accordance with proper practices as set out in the CIPFA/LASAAC *Code of Practice on Local Authority Accounting in the United Kingdom* (the Code).

In preparing this Statement of Accounts, the Director of Finance has:

- * selected suitable accounting policies and then applied them consistently;
- * made judgements and estimates that were reasonable and prudent; and
- * complied with the Code of Practice.

The Director of Finance has also:

- * kept proper accounting records which were up to date;
- * taken reasonable steps for the prevention and detection of fraud and other irregularities.

Director of Finance

I certify that the Pension Fund accounts set out on pages 38 - 48 of the Pension Fund Annual Report present fairly the financial position of the Authority as at 31st March 2016 and its income and expenditure for the year ended 31st March 2016.

Peter Turner
Director of Finance

Dated.....

The maintenance and integrity of the London Borough of Bromley website is the responsibility of senior officers. Uncertainty regarding legal requirements is compounded as information published on the internet is accessible in many countries with different legal requirements relating to the preparation and dissemination of financial statements.

Independent auditor's report to the members of the London Borough of Bromley on the pension fund financial statements published with the Pension Fund Annual Report

We have examined the pension fund financial statements for the year ended 31 March 2016 on pages 38 to 48.

Respective responsibilities of the Director of Finance and the auditor

As explained more fully in the Statement of the Director of Finance's Responsibilities the Director of Finance is responsible for the preparation of the pension fund financial statements in accordance with applicable law and the Code of Practice on Local Authority Accounting in the United Kingdom 2015/16.

Our responsibility is to report to you our opinion on the consistency of the pension fund financial statements included in the Pension Fund Annual Report with the pension fund financial statements included in the annual published statement of accounts of the London Borough of Bromley, and their compliance with applicable law and the Code of Practice on Local Authority Accounting in the United Kingdom 2015/16.

In addition, we read the information given in the Pension Fund Annual Report to identify material inconsistencies with the pension fund financial statements. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Our report on the administering authority's annual published statement of accounts describes the basis of our opinion on those financial statements.

Opinion

In our opinion, the pension fund financial statements are consistent with the pension fund financial statements included in the annual published statement of accounts of the London Borough of Bromley for the year ended 31 March 2016 and comply with applicable law and the Code of Practice on Local Authority Accounting in the United Kingdom 2015/16.

Matters on which we are required to report by exception

The Code of Audit Practice requires us to report to you if:

- the information given in the Pension Fund Annual Report for the financial year for which the financial statements are prepared is not consistent with the financial statements; or
- any matters relating to the pension fund have been reported in the public interest under section 24 of the Local Audit and Accountability Act 2014 in the course of, or at the conclusion of, the audit.

We have nothing to report in respect of these matters.

Phillip Johnstone

The Fund's financial statements do not take account of liabilities to pay pensions and other benefits after the period end. The Actuarial present value of promised retirement benefits is disclosed in Note 12.

PENSION FUND

Notes to the Accounts

1 Description of Fund

The following description of the Fund is a summary only. For more detail, reference should be made to the London Borough of Bromley Pension Fund Annual Report 2015/16 and the underlying statutory powers underpinning the scheme, which are listed below.

(a) General

The London Borough of Bromley Pension Fund is part of the LGPS and is administered by the London Borough of Bromley. It is a contributory defined benefit pension scheme to provide pensions and other benefits for pensionable employees of the Council and of other organisations with scheduled or admitted body status within the Fund. Teachers are not included as they are members of the Teachers' Pension Scheme, administered by the Department for Education. Former NHS public health staff who transferred to Bromley in April 2013 are also not included as they remain members of the NHS Pension Fund, administered by the Department for Health.

The Fund is governed by the Public Services Pensions Act 2013 and is administered in accordance with the following legislation:

- The LGPS (Transitional Provisions, Savings and Amendment) Regulations 2014 (as amended)
- The LGPS (Management and Investment of Funds) Regulations 2009.
- The LGPS Regulations 2013 (effective from 1st April 2014).

The Fund is overseen by the London Borough of Bromley Pensions Investment Sub-Committee.

(b) Membership

Membership of the Fund is voluntary and employees are free to choose whether to join the scheme, remain in the scheme or make their own personal pension arrangements outside the scheme.

Organisations participating in the Fund include:

- Administering Authority: The London Borough of Bromley
- Scheduled Bodies: Academies, Colleges and Foundation Schools whose staff are automatically entitled to be members of the Fund
- Admitted Bodies: Other organisations that participate in the Fund under admission agreements with the Fund. These may include voluntary, charitable and similar bodies or private contractors carrying out local authority functions after outsourcing to the private sector.

As at 31st March 2016, there were a total of 89 employer organisations in the Bromley Fund, including the Council itself. These are listed below.

Notes to the Accounts

1 Description of Fund continued

<i>Special School/AP Academies</i>	<i>Admitted Bodies</i>	<i>Admitted Bodies</i>
Bromley Trust Academy	Affinity Sutton	Liberata UK
Beacon Academy	Bromley & Lewisham MIND	Certitude
<i>Scheduled Bodies - Other</i>	Bromley Mytime	The Landscape Group
Bromley & Orpington Colleges		
Ravensbourne College		

The following table shows the total membership of the Fund as at 31st March 2016 and 2015.

	2015	2016
Members	5,782	6,234
Pensioners - widows / dependants	700	711
- other	4,248	4,373
Deferred Pensioners	5,066	5,287
Total	<u>15,796</u>	<u>16,605</u>

(c) Funding

Benefits are funded by contributions and investment earnings. Contributions are made by active scheme members in accordance with the LGPS Regulations 2013 and, in 2015/16, ranged from 5.5% to 12.5% of pensionable pay. Contributions are also made by employers and these are set based on triennial actuarial valuations, the rates for 2015/16 being set by the most recent valuation as at 31st March 2013. In 2015/16, employer rates ranged from 12.9% to 28.3% of pensionable pay.

(d) Benefits

Pension benefits accrued prior to 1st April 2014 are based on final pensionable pay and length of pensionable service and are calculated as follows:

Service pre 1st April 2008:

- Pension: each year worked is worth $1/80$ x final pensionable salary.
- Lump sum : automatic lump sum of $3/80$ for each year worked x final pensionable salary. A proportion of the accrued pension may be exchanged for a one-off tax free cash payment (£1 pension equates to a £12 lump sum).

Service post 31st March 2008:

- Pension: each year worked is worth $1/60$ x final pensionable salary.
- Lump sum : no automatic lump sum, but a proportion of the accrued pension may be exchanged for a one-off tax free cash payment (£1 pension equates to a £12 lump sum).

With effect from 1st April 2014, the LGPS became a career average scheme and pension benefits accrued after 31st March 2014 are calculated as follows:

- Pension: for each year of scheme membership, a pension equal to $1/49$ of pensionable pay for that year will be added to an employee's pension account. Annual additions are then made to ensure the accrued pension keeps pace with inflation.
- Lump sum : no automatic lump sum, but a proportion of the accrued pension may be exchanged for a one-off tax free cash payment (£1 pension equates to a £12 lump sum).

As well as a change to the way in which benefits are calculated, the scheme normal retirement age for benefits accrued after 31st March 2014 changed to State Pension Age or 65, whichever is later. There is a range of additional benefits for members of the scheme including, but not limited to, early retirement, ill health retirement and death benefits.

2 Basis of Preparation

The Statement of Accounts summarises the Fund's transactions for the 2015/16 financial year and its position as at 31st March 2016. The accounts do not take account of obligations to pay pensions and benefits which fall due after the end of the financial year. The accounts have been prepared in accordance with the Code of Practice on Local Authority Accounting in the United Kingdom 2015/16, which is based on International Financial Reporting Standards (IFRS), as amended for the UK public sector.

The accounts summarise the transactions of the Fund and report on the net assets available to pay pension benefits. The actuarial present value of promised retirement benefits, valued on the basis of International Accounting Standard (IAS) 19, for the fund is disclosed in Note 12 of these accounts and that for the London Borough of Bromley is disclosed in Note 45 to the main statements.

PENSION FUND

Notes to the Accounts

3 Summary of Significant Accounting Policies

(a) Contribution income

Normal contributions, both from members and employers, are accounted for on an accruals basis at the percentage rate recommended by the scheme actuary in the payroll period to which they relate. Employers' augmentation contributions and pension strain contributions are accounted for in the period in which the liability arises. Any amount due in the year but unpaid is classified as a current financial asset. Employer deficit contributions are accounted for in accordance with the agreement under which they are paid or, in the absence of an agreement, on a receipts basis.

(b) Transfers to and from other schemes

Transfer values represent the amounts received and paid during the year for members who have either joined or left the Fund during the financial year and are calculated in accordance with the LGPS Regulations. Individual transfers in/out are accounted for when received/paid, which is normally when the member liability is accepted or discharged.

(c) Investment Income

(i) Interest income

Interest income is recognised in the Fund account as it accrues.

(ii) Dividend income

Dividend income is recognised on the date the shares are quoted ex-dividend. Any amounts not received by the end of the reporting period are disclosed in the net assets statement as "current assets".

(iii) Distributions from pooled funds

Pooled investment vehicles are accumulation funds and, as such, the change in market value also includes income, net of withholding tax, which is re-invested in the fund.

(iv) Movement in the net market value of investments

The change in market value of investments during the year comprises all increases and decreases in the market value of investments held at any time during the year, including profits and losses realised on sales of investments.

(d) Benefits payable

Where members can choose whether to take their benefits as a full pension or as a lump sum with reduced pension, retirement benefits are accounted for on an accruals basis on the later of the date of retirement and the date the option is exercised. Other benefits are accounted for on an accruals basis on the date of retirement, death or leaving the Fund, as appropriate.

(e) Taxation

The Fund is a registered public service scheme under the Finance Act 2004 and, as such, is exempt from UK income tax on interest received and from capital gains tax on the proceeds of investments sold. Income from overseas investments suffers withholding tax in the country of origin, unless exemption is permitted. Irrecoverable tax is accounted for as a Fund expense as it arises.

(f) Administrative expenses

All administrative expenses are accounted for on an accruals basis. Staff costs of the pensions administration team and management, accommodation and other overheads are charged to the Fund in accordance with Council policy.

(g) Investment management expenses

All investment management expenses are accounted for on an accruals basis and investment manager fees are agreed in the respective mandates governing their appointments. Broadly, these are based on a percentage of the total market value of investments under management and therefore increase or decrease as the total value of investments changes.

(h) Financial assets

Equities traded through the Stock Exchange Electronic Trading Service are valued on the basis of the latest traded price. Other quoted securities are valued at their closing bid price. Pooled investment vehicles are valued at either the bid price where a bid price exists or on the single unit price provided by the investment managers.

(i) Foreign currency transactions

Dividends, interest and purchases and sales of investments in foreign currencies have been accounted for at the spot market rates at the date of transaction. End-of-year spot market exchange rates are used to value cash balances held in foreign currency bank accounts, market values of overseas investments and purchases and sales outstanding at the end of the reporting period.

PENSION FUND

Notes to the Accounts

3 Summary of Significant Accounting Policies continued

(j) Cash

Cash comprises cash investments placed by the Fund managers and cash held internally by the Fund.

(k) Financial liabilities

The Fund recognises financial liabilities at fair value as at the reporting date. A financial liability is recognised in the net assets statement on the date the Fund becomes party to it.

(l) Actuarial present value of promised retirement benefits

The actuarial present value of promised retirement benefits is assessed every three years by the scheme actuary in accordance with the requirements of IAS 19 and relevant actuarial standards. As is permitted under the Code, the Fund has opted to disclose the actuarial present value of promised retirement benefits by way of a note to the Net Assets Statement (see Note 12). A summary of the results of the last full actuarial valuation is shown in Note 11.

(m) Additional voluntary contributions (AVCs)

The Council provides an AVC scheme for its members, the assets of which are invested separately from those of the Pension Fund. AVCs are managed independently of the fund by specialist providers (Aviva and Equitable Life) and each contributor receives an annual statement showing the amount held in their account and the movements in the year. In accordance with the LGPS (Management and Investment of Funds) Regulations 2009, AVCs are not included in the Pension Fund accounts, but are disclosed in Note 13.

4 Critical Judgements in Applying Accounting Policies, Assumptions on the Future and Other Major Sources of Estimation Uncertainty

The Pension Fund liability is calculated every three years by the scheme actuary, with annual updates in the intervening years. The methodology used is in line with accepted guidelines and in accordance with IAS 19. Assumptions underpinning the valuations are agreed with the actuary and are summarised in Note 11. The assumptions were determined after taking into account historical experience, current trends and other factors. This estimate is subject to significant variations based on changes to the underlying assumptions. Consequently, actual results may be materially different from estimates.

Blackrock - global equities	397	425
Standard Life - Diversified Growth Fund	196	205
	<u>2,495</u>	<u>2,617</u>

9 Investments

Following a review of the Fund's investment strategy in 2012, contracts were awarded for Diversified Growth (10% of the Fund) from December 2012 and Global Equities (70% of the Fund) from December 2013. The managers as at 31st March 2016 were as follows:

Global equities: Baillie Gifford, Blackrock and MFS.

Fixed income: Baillie Gifford and Fidelity.

Diversified Growth: Baillie Gifford and Standard Life.

The bid value of the Fund as at 31st March 2015 and 2016 was divided between the Fund managers as follows:

	31st March 2015		31st March 2016	
	£000	%	£000	%
Baillie Gifford - global	248,249	33.42%	247,852	33.27%
- fixed income	51,574	6.94%	51,849	6.96%
- DGF	45,464	6.12%	44,802	6.01%
Fidelity - fixed income	66,614	8.97%	67,377	9.05%
MFS - global	150,773	20.30%	159,238	21.38%
Blackrock - global	150,533	20.26%	145,461	19.53%
Standard Life -DGF	29,676	3.99%	28,319	3.80%
	<u>742,883</u>	100.00%	<u>744,898</u>	100.00%

The carrying amounts of financial assets held by Fund managers are held as fair value through profit and loss.

Pooled investments shown in the Net Assets Statement include the following:

	31st March 2015 £000	31st March 2016 £000
Diversified Growth Funds (2)	75,140	73,121
Global Equity Fund (1)	150,533	145,461
Sterling Bond Funds (2)	118,181	119,218
	<u>343,854</u>	<u>337,800</u>

PENSION FUND

Notes to the Accounts

9 Investments continued

The table below analyses movements in market values between the start and end of the year.

	Value at 31st March 2015 £000	Purchases £000	Sales £000	Change in MV £000	Value at 31st March 2016 £000
Equities	393,637	57,459	(54,539)	1,835	398,392
Pooled investments	343,854	6,097	(6,000)	(6,151)	337,800
Sub-Total	737,491	63,556	(60,539)	(4,316)	736,192
Cash	6,472				8,862
Other investment balances	(1,080)				(156)
Total	742,883	63,556	(60,539)	(4,316)	744,898

Total purchases and sales in 2014/15 were £119,289k and £110,481k respectively.

The change in market value (MV) of investments during the year comprises all increases and decreases in the value of investments held at any time during the year, including gains and losses realised on sales of investments and unrealised changes in market value. In the case of pooled investment vehicles, which are accumulation funds, changes in value also include income, net of withholding tax, which is re-invested in the Fund. All gains and losses recognised arose from financial instruments valued at fair value through profit and loss.

Transaction costs, comprising costs charged directly to the scheme such as fees, commissions, stamp duty and other fees, are included in the cost of purchases and sale proceeds.

Transaction costs incurred during the year totalled £132k (£115k in 2014/15). Indirect costs are also incurred through the bid-offer spread on investments within pooled investment vehicles, but amounts are not separately provided to the scheme.

The Code requires the Council to disclose any single investments exceeding either 5% of the net assets available for benefits or 5% of any class or type of security. Details are shown below.

	31st March 2015		31st March 2016	
	£000	% of total Fund	£000	% of total Fund
Baillie Gifford

	<u>2,104</u>	<u>2,526</u>
<u>Creditors (current liabilities)</u>		
Fund management fees	618	538
Other	0	3
	<u>618</u>	<u>541</u>

11 Actuarial Position

The Fund is valued triennially in accordance with the provisions of the Local Government Pension Scheme (Administration) Regulations 2008. The Fund's former actuary, Barnett Waddingham LLP, carried out a full valuation of the Fund at 31st March 2010, when its solvency level was calculated at 84%. The 2010 actuarial valuation set the level of employer contributions required to attain 100% solvency within 12 years. It set employer rates for the years ending 31st March 2012, 2013 and 2014 at an average of 14.7% and specified that lump sum past-deficit contributions of £5.5m, £5.8m and £6.1m should be made in those three years.

PENSION FUND

Notes to the Accounts

11 Actuarial Position continued

The most recent full valuation of the Fund (as at 31st March 2013) was carried out by Mercer Ltd, the Fund's actuary since January 2013 during 2013/14. This calculated a new deficit position (82% funded) and set a common employer contribution rate of 15.3% and an annual lump sum past-deficit contribution of £5.9m from 1st April 2014 until 31st March 2017 with the aim of recovering that deficit over 15 years.

A significant number of schools adopted academy status during 2014/15 and 2015/16 and more are expected to follow in 2016/17. Calculations of deficit shares and contribution rates for academies are carried out individually by the Council's actuary and are set at either the same rate as the Council or at a rate sufficient to ensure that the deficit share is recovered within 15 years.

The following assumptions were employed in the 2010 and 2013 valuations.

	2010	2013
	% p.a.	% p.a.
<u>Economic assumptions</u>		
Increases in earnings - long term	5.0	4.1
- short term (3 years)	n/a	1.0
General Inflation	3.5	2.6
Increases in pensions	3.0	2.6
Investment return - Overall discount rate	7.2	5.6
<u>Mortality assumptions</u>	Years	Years
Life expectancy - male aged 65 now	21.3	22.9
- at 65 for male aged 45 now	22.2	25.1
- female aged 65 now	24.3	25.3
- at 65 for female aged 45 now	25.3	28.2

12 Actuarial Present Value of Promised Retirement Benefits

The net liability of the London Borough of Bromley part of the Fund in relation to the actuarial promised retirement benefits and the net assets available to fund these benefits (both based on IAS 19 information available as at 31st March) is shown in detail in Note 45 to the main financial statements. The figures shown in the Net Assets Statement are in respect of the Whole Fund. We are also required to disclose the actuarial present value of future benefits for the Fund as a whole. This was assessed by the Council's actuary under IAS 26 as £929m as at 31st March 2016 (£938m as at 31st March 2015).

The demographic assumptions used in the IAS 26 report were the same as those used for the 2013 full valuation (see Note 11) and the following financial assumptions were used:

	2015	2016
	% p.a.	% p.a.
Increases in earnings *	3.5	3.5
Increases in pensions	2.0	2.0
Investment return - Overall discount rate	3.3	3.6

* includes a corresponding allowance to that made in the actuarial valuation for short-term public sector pay restraint.

13 Additional Voluntary Contributions

Contributing members have the right to make AVCs to enhance their pensions. In accordance with the LGPS (Management and Investment of Funds) Regulations 2009, AVCs are not included in the Pension Fund accounts. A summary of contributions made by members in 2014/15 and 2015/16 and the total value of AVC Funds as at 31st March 2015 and 2016 is shown below.

	2014/15	2015/16
	£000	£000
AVC contributions		
- to Aviva	90	74
- to Equitable Life *	-	-
Total contributions	90	74

* the total contribution to Equitable Life was less than £500.

	2014/15	2015/16
	£000	£000
Market Value		
- Aviva	987	1,013
- Equitable Life	91	83
Total Market Value	1,078	1,096

PENSION FUND

Notes to the Accounts

14 *Related Parties*

Two members of the Pensions Investment Sub-Committee during the year were in receipt of a pension, and one is a deferred pensioner. the year. A special responsibility allowance of £1,971 was paid to the Chairman of the Sub-Committee in both 2014/15 and 2015/16. No other payments were made for meeting attendance.

The Council incurred costs of £588k (£534k in 2014/15) in relation to the administration of the fund and was subsequently reimbursed by the fund for these expenses.

Two key management personnel of the Fund (the Director of Corporate Services and the Director of Finance) are active members of the Fund.

15 *Nature and extent of risks arising from financial instruments*

The Code of Practice on Local Authority Accounting in the United Kingdom 2015/16 requires disclosure of the nature and extent of risks arising from financial instruments. This requirement extends to the specific risks related to Pension Fund investments. Detailed disclosures concerning these risks are included in this note on the next two pages.

Risk and Risk Management

The Fund's primary long-term risk is that its assets will fall short of its liabilities (i.e. promised benefits payable to members). Therefore, the aim of investment risk management is to minimise the risk of an overall reduction in the value of the Fund and to maximise the opportunity for gains across the whole Fund portfolio. The Fund achieves this through asset diversification to reduce exposure to market risk, price risk, currency risk and credit risk to an acceptable level. In addition, the Fund manages its liquidity risk to ensure that there is sufficient liquidity to meet its forecast cash-flows. The Authority manages these investment risks as part of its overall Pension Fund risk management programme.

Market Risk

Market risk is the risk of loss from fluctuations in equity and commodity prices, interest and foreign exchange rates and credit spreads. The Fund is exposed to market risk from its investment activities, particularly through its equity holdings. The level of risk exposure depends on market conditions, expectations of future price and yield movements and the asset mix. The objective of the Fund's risk management strategy is to identify, manage and control market risk exposure within acceptable parameters, whilst optimising the return on risk.

In general, excessive volatility in market risk is managed through the diversification of the portfolio in terms of geographical and industry sector and individual securities. The Fund has an asset allocation rebalancing policy that ensures that diversification is maintained in the event that particular asset class values increase or decrease to an extent that rebalancing is required to retain diversification. These ranges are reviewed quarterly by the Director of Finance. Further details of current policy are included in the Fund's Statement of Investment Principles. To mitigate market risk, the Authority and the Fund's investment advisers undertake appropriate monitoring of market conditions and benchmark analysis.

Other price risk

Other price risk represents the risk that the value of the financial instrument will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or foreign currency), whether those changes are caused by factors specific to the individual instrument or its issuer or factors affecting all such instruments in the market.

The Fund is exposed to share price risk. This arises from investments held by the Fund for which the future price is uncertain. All securities investments present a risk of loss of capital. Except for shares sold short, the maximum risk resulting from financial instruments is determined by the fair value of the financial instruments. Possible losses from shares sold short are unlimited.

The Fund's investment management agreements for non-pooled investments provide tolerances for investment manager deviation from market asset class returns expressed as the tracking error from benchmark returns. Fund officers review these metrics with Fund managers at each quarter.

The Fund's investment managers mitigate this price risk through diversification and the selection of securities and other financial instruments is monitored by the Authority to ensure it is within limits specified in the Fund's investment strategy.

PENSION FUND

Notes to the Accounts

15 *Nature and extent of risks arising from financial instruments continued*

Currency Risk

Currency risk represents the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Fund is exposed to currency risk on financial instruments that are denominated in any currency other than the base currency of the Fund, i.e. £Sterling.

Many securities denominated in foreign currencies also gain significant proportions of their income and profits from jurisdictions outside of the market on which those securities are quoted. Over the long-term, currency rates reflect value in a particular territory and, to the extent that a particular security is exposed to currency risk in a particular territory, investment managers make decisions about this in their analysis of what securities to buy, sell or hold. The Fund manages this risk by setting investment benchmarks and comparing overall outcomes against those benchmarks. These outcomes are reported to the Director of Finance and the Pensions Investment Sub-Committee every quarter.

Credit Risk

Credit risk represents the risk that the counterparty to a transaction or a financial instrument will fail to discharge an obligation and cause the Fund to incur a financial loss. The market values of investments generally reflect an assessment of credit in their pricing and consequently the risk of loss is implicitly provided for in the carrying value of the Fund's financial assets and liabilities.

In essence, the Fund's entire investment portfolio is exposed to some form of credit risk. However, the selection of high quality counterparties, brokers and financial institutions minimises credit risk that may occur through the failure to settle a transaction in a timely manner.

Deposits are not made with banks and financial institutions unless they are rated independently and meet the Council's credit criteria. The Council has also set limits as to the maximum percentage of the deposits placed with any one bank or building society. In addition, the Council may invest in AAA-rated money market funds to provide diversification.

The Council believes it has managed its exposure to credit risk, and has had no experience of default or uncollectable deposits over the past five financial years. The Fund held £1.1m of Pension Fund cash under its treasury management arrangements at 31st March 2016 (£1.2m as at 31st March 2015). In practice, the Pension Fund Revenue Account cashflow position was broadly cash neutral for most of the year and, as a result, it was not considered viable to separate out Pension Fund cash from Council cash for investment purposes.

The Council reviews exposure to different classes of credit ratings for fixed-interest securities and these results are reviewed quarterly by the Director of Finance.

Liquidity Risk

Liquidity risk represents the risk that the Fund will not be able to meet its financial obligations as they fall due. The Authority therefore takes steps to ensure that the Pension Fund has adequate cash resources to meet its commitments.

The Fund has immediate access to its cash holdings that are invested by the Authority, although, as is stated above, the level of cash held was not sufficient to warrant separate investment. The levels of cash held are reviewed by the Authority as part of the periodic cash-flow forecasting and form part of the Fund's investment strategy. The Fund's investment strategy ensures that most, if not all, of the Fund is invested in assets that can be sold at short notice to avoid any liquidity risk. The Fund managers held no illiquid assets (i.e. assets that could not be sold within 10 days) as at both 31st March 2015 and 2016.

Interest rate risk

The Fund invests in financial assets for the primary purpose of obtaining a return on investments. These investments are subject to interest rate risks, which represent the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Changes in interest rates principally affect investments held in cash or fixed interest securities. Changes in interest rates, currencies and credit risk are all inter-related and affected by many influences including sovereign interest rates and factors affecting each individual investment. Investment managers manage these risks through the choice of their investments, by having benchmark outputs to attain and reporting variances from benchmark returns. The Council reviews outcomes versus the assigned benchmark and the exposure to different classes of credit ratings and these results are reviewed quarterly by the Director of Finance.

PENSION FUND

Notes to the Accounts

15 Nature and extent of risks arising from financial instruments continued

Summary

The following table sets out the potential sums at risk, most of which are remote possibilities, under the various types of risk:

	Market Risk £000	Other Price Risk £000	Currency Risk £000	Interest Rate Risk £000	Credit Risk £000

	736,192	625,680	590,165	201,045	744,898

* The Diversified Growth Funds invest in a wide range of assets, including equities, bonds and alternative investments, as determined by the Fund managers. As a result, there is exposure to all types of risk up to the value of the investments held.

16 Determination of the fair value of assets

All investment assets are held at fair value. The determination of the fair value can be complex depending on the investment and the complexity of measurement can be represented by the fair value hierarchy. The fair value hierarchy ranks fair values at levels between 1 and 3.

Valuations considered to be Level 1 are based on quoted prices, and the valuation of the fund's equities fall into this category.

Level 2 valuations are based on observable inputs relating to the assets, such as the quoted price of similar assets or market data relating to the assets held. The valuation of the fund's Sterling Bond Funds and Global Equities Fund fall into this category.

Level 3 valuations are based on non-observable inputs. These types of valuation are common to the valuation of private equity and other alternative investments which are held within the Diversified Growth Funds and so the valuation of the Diversified Growth Funds are considered to be level 3 valuations.

LONDON BOROUGH OF BROMLEY PENSION FUND FUNDING STRATEGY STATEMENT (FSS)

This Statement has been prepared by London Borough of Bromley (the Administering Authority) to set out the funding strategy for the London Borough of Bromley Pension Fund (the LBBPF), in accordance with Regulation 58 of the Local Government Pension Scheme Regulations 2013 and the guidance paper issued by the Chartered Institute of Public Finance and Accountancy (CIPFA) Pensions Panel.

1. INTRODUCTION

The Local Government Pension Scheme Regulations 2013 (“the 2013 Regulations”) and the Local Government Pension Scheme (Transitional Provisions, Savings and Amendment) Regulations 2014 (“the 2014 Transitional Regulations”) (collectively “the Regulations”) provide the statutory framework from which the Administering Authority is required to prepare a FSS. The key requirements for preparing the FSS can be summarised as follows:

- After consulting with the external actuary, the Administering Authority will prepare and publish a funding strategy.
- In preparing the FSS, the Administering Authority must have regard to :-
 - the guidance issued by CIPFA for this purpose; and
 - the Statement of Investment Principles (SIP) for the LBBPF published under Regulation 12 of the Local Government Pension Scheme (Management and Investment of Funds) Regulations 2009 (as amended);
- The FSS must be revised and published annually and whenever there is a material change in either the policy on the matters set out in the FSS or the Statement of Investment Principles.

Benefits payable under the LBBPF are guaranteed by statute and thereby the pensions promise is secure. The FSS addresses the issue of managing the need to fund those benefits over the long term, whilst, at the same time, facilitating scrutiny and accountability through improved transparency and disclosure.

The Scheme is a defined benefit arrangement with principally final salary related benefits from contributing members up to 1 April 2014 and Career Averaged Revalued Earnings (“CARE”) benefits earned thereafter. There is also a “50:50 Scheme Option”, where members can elect to accrue 50% of the full scheme benefits and pay 50% of the normal member contribution.

The benefits provided by the LBBPF are specified in the governing legislation contained in the 2013 Regulations and the 2014 Transitional Regulations. The required levels of employee contributions from 1 April 2015 are also specified in the 2013 Regulations.

Employer contributions are determined in accordance with the 2013 Regulations, which require that an actuarial valuation is completed every three years by the actuary, including the provision of a rates and adjustments certificate. Contributions to the LBBPF should be set so as to “secure its solvency”, whilst the actuary must also have regard to the desirability of maintaining as nearly constant a rate of contribution as possible. The actuary must have regard to the FSS in carrying out the valuation.

2. PURPOSE OF THE FSS IN POLICY TERMS

Funding is the making of advance provision to meet the cost of accruing benefit promises. Decisions taken regarding the approach to funding will therefore determine the rate or pace at which this advance provision is made. Although the Regulations specify the fundamental principles on which funding contributions should be assessed, implementation of the funding strategy is the responsibility of the Administering Authority, acting on the professional advice provided by the actuary.

The purpose of this Funding Strategy Statement is:

- to establish a clear and transparent fund-specific strategy which will identify how employers' pension liabilities are best met going forward;
- to support the regulatory requirement to maintain as nearly constant employer contribution rates as possible; and
- to take a prudent longer-term view of funding those liabilities.

The intention is for this strategy to be both cohesive and comprehensive for the LBBPF as a whole, recognising that there will be conflicting objectives that need to be balanced and reconciled. Whilst the position of individual employers must be reflected in the statement, it must remain a single strategy for the Administering Authority to implement and maintain.

3. AIMS AND PURPOSE OF THE LBBPF

The aims of the Fund are to:

- enable employer contribution rates to be kept as nearly constant as possible and at reasonable cost to the taxpayers, scheduled, resolution and admitted bodies
- manage employers' liabilities effectively
- ensure that sufficient resources are available to meet all liabilities as they fall due, and
- maximise the returns from investments within reasonable risk parameters.

The purpose of the Fund is to:

- receive monies in respect of contributions, transfer values and investment income,
- and pay out monies in respect of scheme benefits, transfer values, costs, charges and expenses as defined in the 2013 Regulations, the 2014 Transitional Regulations and in the Local Government Pension Scheme (Management and Investment of Funds) Regulations 2009.

4. RESPONSIBILITIES OF THE KEY PARTIES

The Administering Authority should:

- collect employer and employee contributions
- invest surplus monies in accordance with the Regulations
- ensure that cash is available to meet liabilities as and when they fall due
- manage the valuation process in consultation with the LBBPF's actuary

- prepare and maintain an FSS and a SIP, both after due consultation with interested parties
- monitor all aspects of the LBBPF's performance and funding and amend FSS/SIP, and
- with effect from 1st April 2015, establish, support and monitor a Local Pension Board ("LPB") in accordance with the requirements set down in the Public Service Pensions Act 2013, the Regulations and the Pension Regulator's relevant Code of Practice..

The Individual Employer should:

- deduct contributions from employees' pay correctly after determining the appropriate employee contribution rate (in accordance with the Regulations)
- pay all contributions, including their own as determined by the actuary, promptly by the due date
- exercise discretions within the regulatory framework
- make additional contributions in accordance with agreed arrangements in respect of, for example, augmentation of scheme benefits, early retirement strain, and
- notify the Administering Authority promptly of all changes to membership or, as may be proposed, which affect future funding.

The Fund actuary should:

- prepare valuations including the setting of employers' contribution rates after agreeing assumptions with the Administering Authority and having regard to the FSS
- prepare advice and calculations in connection with bulk transfers and individual benefit-related matters,
- advise on funding strategy, the preparation of the FSS, and the inter-relationship between the FSS and the SIP.

5. SOLVENCY ISSUES AND TARGET FUNDING LEVELS

Funding Objective

To meet the requirements of the Administration Regulations, the Administering Authority's long term funding objective is for the Fund to achieve and then maintain sufficient assets to cover 100% of projected accrued liabilities (the "**funding target**") assessed on an ongoing past service basis including allowance for projected final pay. In the long term, the employer rate would ultimately revert to the Future Service Rate.

Determination of the Funding Target and Recovery Period

The principal method and assumptions to be used in the calculation of the funding target are set out in Appendix 1.

Underlying these assumptions are the following two tenets:

- that the Scheme is expected to continue for the foreseeable future; and

- favourable investment performance can play a valuable role in achieving adequate funding over the longer term.

This allows us to take a longer term view when assessing the contribution requirements for certain employers. As part of this valuation when looking to potentially stabilise contribution requirements we will consider whether we can build into the funding plan the following:-

- allowance for interest rates and bond yields having reverted since the valuation date to higher levels

In considering this the Administering Authority, based on the advice of the Actuary, will consider if this results in a reasonable likelihood that the funding plan will be successful.

As part of each valuation separate employer contribution rates are assessed by the actuary for each participating employer or group of employers. These rates are assessed taking into account the experience and circumstances of each employer, following a principle of no cross-subsidy between the distinct employers (employer groups) in the Scheme. In attributing the overall investment performance obtained on the assets of the Scheme to each employer a pro-rata principle is adopted. This approach is effectively one of applying a notional individual employer investment strategy identical to that adopted for the Scheme as a whole.

The Administering Authority has adopted the following objectives for setting the individual employer contribution rates arising from the 2013 actuarial valuation:

- A default recovery period of 15 years will apply. Employers will, however, have the freedom to adopt a recovery plan on the basis of a shorter period if they so wish. A shorter period may be applied in respect of particular employers where the Administering Authority considers this to be warranted (see Deficit Recovery Plan below).
- In the current circumstances, as a general rule, the Fund does not believe it appropriate for contribution reductions to apply compared to the 2010 funding plan where substantial deficits remain.
- For any employers assessed to be in surplus at the valuation date, their individual contribution requirements will be adjusted to such an extent that any surplus is used (ie run-off) over a 15 year period. The current level of contributions will be phased down as appropriate.
- The employer contributions will generally be expressed as a percentage of pensionable payroll.
- On the cessation of an employer's participation in the Scheme, the actuary will be asked to make a termination assessment. Any deficit in the Scheme in respect of the employer will be due to the Scheme as a termination contribution, unless it is agreed by the Administering Authority and the other parties involved that the assets and liabilities relating to the employer will transfer within the Scheme to another participating employer.

In determining the above objectives the Administering Authority has had regard to:

- relevant guidance issued by the CIPFA Pensions Panel
- the need to balance a desire to attain the target as soon as possible against the short-term cash requirements which a shorter period would impose, and

- the Administering Authority's views on the strength of the participating employers' covenants in achieving the objective.

Deficit Recovery Plan

If the assets of the scheme relating to an employer are less than the funding target at the effective date of any actuarial valuation, a recovery plan will be put in place, which requires additional contributions from the employer to meet the shortfall.

Additional contributions will be expressed as a level percentage of pensionable payroll, subject to review based on the results of each actuarial valuation.

In determining the actual recovery period to apply for any particular employer or employer group, the Administering Authority may take into account some or all of the following factors:

- the size of the funding shortfall;
- the business plans of the employer;
- the assessment of the financial covenant of the employer; and the security of future income streams
- any contingent security available to the Fund or offered by the employer such as guarantor or bond arrangements, charge over assets, etc.
- length of expected period of participation in the Fund.

The assumptions used in these Recovery Plan calculations are set out in Appendix 1.

The Normal Cost of the Scheme (Future Service Contribution Rate)

In addition to any contributions required to rectify a shortfall of assets below the funding target, contributions will be required to meet the cost of future accrual of benefits for members after the valuation date (the "normal cost"). The method and assumptions for assessing these contributions are also set out in Appendix 1.

6. LINK TO INVESTMENT POLICY SET OUT IN THE STATEMENT OF INVESTMENT PRINCIPLES

The results of the 2013 valuation show the liabilities at 31 March 2013 to be 82% covered by the current assets, with the funding deficit of 18% being covered by future deficit contributions.

In assessing the value of the LBBPF's liabilities in the valuation, allowance has been made for asset out-performance as described in Appendix 1, taking into account the investment strategy adopted by the LBBPF, as set out in the SIP.

It is not possible to construct a portfolio of investments which produces a stream of income exactly matching the expected liability outgo. However, it is possible to construct a portfolio which closely matches the liabilities and represents the minimum risk investment position. Such a portfolio would consist of a mixture of long-term index-linked and fixed interest gilts. Investment of the LBBPF's assets in line with the least risk portfolio would minimise fluctuations in the LBBPF's ongoing funding level between successive actuarial valuations.

Departure from a least risk investment strategy, in particular to include equity type investments, gives the prospect that out-performance by the assets will, over time, reduce the contribution requirements. The funding target might in practice therefore be achieved by a range of combinations of funding plan, investment strategy and investment performance.

The current benchmark investment strategy, which was agreed by the Pensions Investment Sub-Committee in 2012 and is set out in more detail in the SIP, is:

- Global Equities 70%
- Fixed Income 20%
- Diversified Growth 10%

7. IDENTIFICATION OF RISKS AND COUNTER MEASURES

The funding of defined benefits is by its nature uncertain. Funding of the LBBPF is based on both financial and demographic assumptions. These assumptions are specified in Appendix 1 and in the actuarial valuation report. When actual experience is not in line with the assumptions adopted a surplus or shortfall will emerge at the next actuarial assessment and will require a subsequent contribution adjustment to bring the funding back into line with the target.

The Administering Authority has been advised by the actuary that the greatest risk to the LBBPF's funding is the investment risk inherent in the predominantly equity (or return seeking) based strategy, so that actual asset out-performance between successive valuations could diverge significantly from the overall out performance assumed in the long term.

What are the Risks?

Financial

- Investment markets fail to perform in line with expectations
- Market yields move at variance with assumptions
- Investment Fund Managers fail to achieve performance targets over the longer term
- Asset re-allocations in volatile markets may lock in past losses
- Pay and price inflation significantly more or less than anticipated
- Effect of possible increase in employer's contribution rate on service delivery and admitted/scheduled bodies

Demographic

- Longevity horizon continues to expand
- Deteriorating pattern of early retirements (including those granted on the grounds of ill health)

Insurance of certain benefits

The contributions for any employer may be varied as agreed by the Actuary and Administering Authority to reflect any changes in contribution requirements as a result of any benefit costs being insured with a third party or internally within the Fund.

Regulatory

- Further changes to Regulations, e.g. more favourable benefits package, potential new entrants to scheme, e.g. part-time employees
- Changes to national pension requirements and/or HMRC rules

Governance

- Administering Authority unaware of structural changes in employer's membership (e.g. large fall in employee numbers, large number of retirements)
- Administering Authority not advised of an employer closing to new entrants
- An employer ceasing to exist with insufficient funding or adequacy of a bond.
- Changes in Committee membership.

8. MONITORING AND REVIEW

The Administering Authority has taken advice from the actuary in preparing this Statement.

A full review of this Statement will occur no less frequently than every three years, to coincide with completion of a full actuarial valuation. Any review will take account of current economic conditions and will also reflect any legislative changes.

The Administering Authority will monitor the progress of the funding strategy between full actuarial valuations. If considered appropriate, the funding strategy will be reviewed (other than as part of the triennial valuation process), for example:

- if there has been a significant change in market conditions, and/or deviation in the progress of the funding strategy
- if there have been significant changes to the LBBPF membership, or LGPS benefits
- if there have been changes to the circumstances of any of the employing authorities to such an extent that they impact on or warrant a change in the funding strategy e.g. closure to new entrants
- if there have been any significant special contributions paid into the LBBPF

ACTUARIAL VALUATION AS AT 31 MARCH 2013

Method and assumptions used in calculating the funding target and recovery plan

Method

The actuarial method to be used in the calculation of the funding target is the Projected Unit method, under which the salary increases assumed for each member are projected until that member is assumed to leave active service by death, retirement or withdrawal from service. This method implicitly allows for new entrants to the scheme on the basis that the overall age profile of the active membership will remain stable. As a result, for those employers which are closed to new entrants, an alternative method is adopted (the Attained Age method), which makes advance allowance for the anticipated future ageing and decline of the current closed membership group.

Financial assumptions

Investment return (discount rate)

A yield based on market returns on UK Government gilt stocks and other instruments which reflects a market consistent discount rate for the profile and duration of the Scheme's accrued liabilities, plus an Asset Out-performance Assumption ("AOA") 1.75% per annum.

The asset out-performance assumptions represent the allowance made, in calculating the funding target, for the long term additional investment performance on the assets of the Fund relative to the yields available on long dated gilt stocks as at the valuation date.

Inflation (Consumer Prices Index)

The inflation assumption will be taken to be the investment market's expectation for RPI inflation as indicated by the difference between yields derived from market instruments, principally conventional and index-linked UK Government gilts as at the valuation date, reflecting the profile and duration of the Scheme's accrued liabilities, but subject to the following two adjustments:

- an allowance for supply/demand distortions in the bond market is incorporated, and
- due to retirement pensions being increased annually by the change in the Consumer Price Index rather than the Retail Price Index, the overall reduction to RPI inflation at the valuation date is 1.0% per annum.

Salary increases

The assumption for real salary increases (salary increases in excess of price inflation) will be determined by an allowance of 1.5% p.a. over the inflation assumption as described above. This includes allowance for promotional increases. In addition to the long term salary increase, assumption allowance has been made for expected short term pay restraint of 1% per annum for 3 years.

Pension increases/Indexation of CARE benefits

Increases to pensions are assumed to be in line with the inflation (CPI) assumption described above. This is modified appropriately to reflect any benefits which are not fully indexed in line with the RPI (e.g. Guaranteed Minimum Pensions in respect of service prior to April 1997).

Demographic assumptions

Mortality

The mortality in retirement assumptions will be based on the most up-to-date information in relation to self-administered pension schemes published by the Continuous Mortality Investigation (CMI), making allowance for future improvements in longevity. The mortality tables used are set out below, with a loading reflecting wider LGPS experience. Existing ill health retirees are assumed to exhibit average mortality equivalent to that for a good health retiree at an age 3 years older. Current members who retire on the grounds of ill health are assumed to exhibit average mortality equivalent to that for a good health retiree at an age 4 years older. For all members, it is assumed that the accelerated trend in longevity seen in recent years will continue in the longer term and as such, the assumptions build in a minimum level of longevity 'improvement' year on year in the future in line with the CMI projections subject to a minimum rate of improvement of 1.5% per annum.

Commutation

It has been assumed that, on average, 50% of retiring members will take the maximum tax-free cash available at retirement and 50% will take the standard 3/80ths cash sum. The option which members have to commute part of their pension at retirement in return for a lump sum is a rate of £12 cash for each £1 p.a. of pension given up.

Other Demographics

All other assumptions are as per the last valuation.

Expenses

Expenses are met out the Fund, in accordance with the Regulations. This is allowed for by adding 0.7% of pensionable pay to the contributions as required from participating employers. This addition is reassessed at each valuation. Investment expenses have been allowed for implicitly in determining the discount rates.

Discretionary Benefits

The costs of any discretion exercised by an employer in order to enhance benefits for a member through the Fund will be subject to additional contributions from the employer as required by the Regulations as and when the event occurs. As a result, no allowance for such discretionary benefits has been made in the valuation.

Method and assumptions used in calculating the cost of future accrual

The cost of future accrual (normal cost) will be calculated using the same actuarial method and assumptions as used to calculate the funding target except that the financial assumptions adopted will be as described below.

The financial assumptions for assessing the future service contribution rate should take account of the following points:

- contributions will be invested in market conditions applying at future dates, which are unknown at the effective date of the valuation, and which are not directly linked to market conditions at the valuation date; and
- the future service liabilities for which these contributions will be paid have a longer average duration than the past service liabilities.

The financial assumptions in relation to future service (i.e. the normal cost) are not specifically linked to investment conditions as at the valuation date itself, and are based on an overall assumed real return (i.e. return in excess of price inflation) of 3.0% per annum, with a long term average assumption for consumer price inflation of 2.6% per annum. These two assumptions give rise to an overall discount rate of 5.6% p.a (i.e. 3.0% plus 2.6%).

Adopting this approach the future service rate is not subject to variation solely due to different market conditions applying at each successive valuation, which reflects the requirement in the Regulations for stability in the “Common Rate” of contributions. In market conditions at the effective date of the 2013 valuation this approach gives rise to a slightly more optimistic stance (i.e. allows for a higher AOA) in relation to the cost of accrual of future benefits compared to the market related basis used for the assessment of the funding target.

At each valuation the cost of the benefits accrued since the previous valuation will become a past service liability. At that time any mismatch against gilt yields and the asset out-performance assumptions used for the funding target is fully taken into account in assessing the funding position.

Summary of key whole Fund assumptions used for calculating funding target and cost of future accrual (the “normal cost”) for the 2013 actuarial valuation

Long-term gilt yields	
Fixed interest	3.20% p.a.
Index linked	-0.40% p.a.
Past service Funding Target financial assumptions	
Investment return/Discount Rate	4.95% p.a.
CPI price inflation	2.60% p.a.
Long Term Salary increases	4.10% p.a.
Pension increases/indexation of CARE benefits	2.60% p.a.
Future service accrual financial assumptions	
Investment return	5.60% p.a.
CPI price inflation	2.60% p.a.
Long Term Salary increases	4.10% p.a.
Pension increases/indexation of CARE benefits	2.60% p.a.

Demographic assumptions

The post retirement mortality tables adopted for this valuation are as follows:

Life expectancy at 65 in 2013		Base table	Adjustment	Improvement model	Long term rate
CURRENT ANNUITANTS	Normal health	S1PxA	97% / 97%	CMI_2012	1.5%
	Ill health	S1PxA	Normal health + 3 years	CMI_2012	1.5%
	Dependants	S1PMA/S1DFA	159% / 109%	CMI_2012	1.5%
	Future Dependants	S1PMA/S1DFA	110% / 98%	CMI_2012	1.5%
CURRENT ACTIVES / DEFERREDS	Actives normal health	S1PxA	97% / 91%	CMI_2012	1.5%
	Actives ill health	S1PxA	Normal health + 4 years	CMI_2012	1.5%
	Deferreds	S1PxA	118% / 105%	CMI_2012	1.5%
	Future dependants	S1PMA/S1DFA	107% / 99%	CMI_2012	1.5%

Notes:

CMI = Continuous Mortality Investigation, which publishes mortality projections for the Institute and faculty of Actuaries.

S1P = the set of base tables used by the CMI.

Other demographic assumptions are as for the 2010 valuation.

LONDON BOROUGH OF BROMLEY PENSION FUND

STATEMENT OF INVESTMENT PRINCIPLES

Introduction

This statement has been produced in accordance with the requirements of The Local Government Pension Scheme (Management and Investment of Funds) Regulations 2009 (“the Regulations”) and was reported to the Pensions Investment Sub-Committee on 21st September 2016. The Regulations provide that an administering authority must prepare, maintain and publish a written statement of the principles governing its decisions about investments. The Regulations specify eight issues that must be addressed in the statement. The following sections of this statement address these issues in turn.

(a) The types of investment to be held

The fund’s investment managers are authorised to invest in all assets permitted under the Regulations, subject to the provisions of their benchmarks and certain minor restrictions. Details of the Investment Guidelines and Restrictions are included below.

(b) The balance between different types of investments

The broad balance between different types of investments is defined in the investment managers’ benchmarks, which were comprehensively reviewed and revised in 2012, following a review of the Fund’s Investment Strategy. Details of the five managers’ benchmarks are shown below. The Pensions Investment Sub-Committee will review its asset allocation strategy every three years.

(c) Risk

At the last full valuation of the Fund (as at 31st March 2013), the actuary valued the fund’s assets at 82% of the fund’s liabilities (84% in the previous valuation as at 31st March 2010). He determined employers’ contribution rates with a view to achieving 100% solvency over a 15-year period, assuming a broad 80:20 asset allocation between “growth” assets (equities and Diversified Growth Funds) and “protection” assets (fixed income) as at the valuation date. The Pensions Investment Sub-Committee has set targets to out-perform various benchmarks and it believes that the risks associated with a high allocation to equities are justified by the need to improve its funding level.

Other key risks that could have an adverse impact on the achievement of the fund’s funding strategy and target funding levels are analysed in the fund’s Funding Strategy Statement, where they are analysed over financial, demographic, regulatory and governance risks.

(d) The expected return on investments

The fund’s investment strategy is based on the long-term returns assumed by the actuary in the 2013 actuarial review. The assumed return (future service discount rate) for the Fund was 5.6%.

(e) The realisation of investments

The investment managers have full discretion to make decisions on the realisation of investments having regard to their benchmarks and their investment targets.

(f) The extent to which social, environmental or ethical considerations are taken into account in investments

The authority has been advised that its primary responsibility is to secure the best returns for the fund in the interests of its council taxpayers and its members. The Council has decided

to take no action at this time in developing an ethical investment policy, having also considered:

- the difficulties involved in identifying companies meeting any ethical investment criteria;
- the possibility of judicial review in the case of any company included in error;
- the difficulty and cost of monitoring any policy;
- the unpredictable impact on investment performance;
- the complications that would arise in relation to performance measurement; and
- the lack of support for such a policy from other employers in the fund.

The authority therefore does not impose any obligation on the investment managers to take account of such considerations in making investments. However, the managers seek to encourage best corporate practice in companies' management of the social, environmental and ethical impact of their activities. They seek to achieve this by engaging in dialogue with companies in which they invest in order to encourage them to improve policies and practices. In their investments they seek to favour those companies that pursue best practices provided it does not act to the detriment of the return or risk of the portfolio. They also take account of any social, environmental or ethical factors that they consider to be relevant to investment risk.

(g) The exercise of the rights (including voting rights), if any, attaching to the investments

The investment managers have been authorised to exercise voting rights on behalf of the Fund unless specifically instructed to vote in a particular way on any individual resolution. In exercising those rights, they will have regard to the Combined Code issued by the Hampel Committee on Corporate Governance. They have been instructed to report back to the Council's Pensions Investment Sub-Committee every quarter on any material divergence from the recommendations of the Combined Code by companies in which the Council is invested and on action taken by them in response to the divergence. They have also been instructed to report to the Sub-Committee at least every six months on their corporate governance activities generally, including their dialogue with companies' management to encourage sound social, environmental and ethical practices in their activities. The Sub-Committee will issue instructions on individual matters only in exceptional circumstances, when asked for instructions by a manager or when a specific resolution is brought to their attention. With regard to other rights such as the taking up of rights issues, this is left for the investment managers to decide in the light of their assessment of market conditions at the time.

(h) Stock Lending

The Pension Fund does not currently operate a stock lending programme through its custodian bank.

COMPLIANCE WITH MYNERS' PRINCIPLES

Under regulation 12 (3) of the Local Government Pension Scheme (Management and Investment of Funds) Regulations 2009 (as amended), the Council is required to state the extent to which it complies with a set of principles of investment practice. Ten principles were originally set out in the document "CIPFA Pensions Panel Principles for Investment Decision Making in the Local Government Pension Scheme in the United Kingdom". This document was published in April 2002 in response to the recommendations of the Review of Institutional Investment in the United Kingdom undertaken by Paul Myners.

The principles were updated in a Treasury report in October 2008, "Updating the Myners' Principles: A Response to Consultation". This report set out six investment governance principles that the Council must comply with. These are set out below, together with details of the level of compliance.

INVESTMENT GUIDELINES AND RESTRICTIONS

General

Investment is permitted in all classes of assets, subject to the limits imposed by the Regulations on the proportion of the fund which may be invested in certain investments and certain other restrictions imposed by the authority. In addition, the investment managers do not use certain investments as a matter of policy.

All references to percentages in this appendix are to percentages of the total value of all existing investments in the fund before making the investment which is subject to the limit. The limits only apply at the time the investment is made.

Limits imposed by the Regulations

- All contributions to any single partnership: 2%
- All contributions to partnerships: 5%
- All deposits with any local authority or precepting body which is an exempt person (within the meaning of the Financial Services and Markets Act 2000) in respect of accepting deposits as a result of an order made under section 38(1) of that Act, and all loans: 10%
- All deposits with any single bank, institution or person (other than the National Savings Bank): 10%
- All investments in unlisted securities of companies: 10%
- Any single holding in unlisted securities: 2% (limit imposed by the authority)
- Any other single holding, apart from investments in OEICs and unit trusts: 10% (there is no limit on investment in single OEICs or unit trusts apart from the total limit below)
- All investments in unit trusts and open-ended investment companies (OEICs) managed by any one body: 35%
- Any single insurance contract: 25%
- All securities transferred under stocklending arrangements: 25%

Other restrictions imposed by the authority

- Cash held at custodian's bank is not to exceed £2,500,000 for each individual fund manager, with any excess placed on the money market with the main clearing banks or placed in institutional cash funds approved by the authority
- No sub-underwriting
- Certain limits on use of futures and options are recorded in the relevant investment management agreements and fund prospectuses

Asset Allocation

The current investment strategy comprises the following asset allocations:

Global Equities (70% allocation in agreed Investment Strategy)

	Value @ 31 March 2016 £m	% of total %
Baillie Gifford	242.7	
MFS International	155.5	
Blackrock	145.5	
	<hr/> 543.7	72.7%

Fixed Income (20% allocation in agreed Investment Strategy)

	Value @ 31 March 2016 £m	% of total %
Baillie Gifford	51.9	
Fidelity	67.3	
	<hr/> 119.2	15.9%

Diversified Growth (10% allocation in agreed Investment Strategy)

	Value @ 31 March 2016 £m	% of total %
Baillie Gifford	44.8	
Standard Life	28.3	
	<hr/> 73.1	9.8%

Other (cash, current assets/liabilities)

	Value @ 31 March 2016 £m	% of total %
Cash held by Fund managers	8.9	
Current net assets	3.1	
	<hr/> 12.0	1.6%

Grand Total

	Value @ 31 March 2016 £m	% of total %
Total assets held by Fund managers	744.9	
Current net assets	3.1	
	<hr/> 748.0	100.0%

The Fund managers have been set the following targets/benchmarks:

Global equities – Baillie Gifford, Blackrock and MFS are all required to outperform the MSCI All Countries World Index.

Fixed income – Baillie Gifford are required to outperform 50% FTSE UK Gilts All Stocks/50% BAML Sterling Non-Gilts Index; Fidelity are required to outperform 50% iBoxx Gilts/50% iBoxx non-Gilts.

DGF – Baillie Gifford are required to achieve Base Rate + 3.5%; Standard Life are required to achieve 6 month Libor + 5%.

The funding strategy adopted for the 2013 valuation is based on an assumed overall asset out-performance of 1.75% per annum.

Compliance with Myners Principles

The Principles, together with the Council's position on compliance (*in italics*), are set out below:

Principle 1. Effective decision-making

Administering authorities should ensure that:

- decisions are taken by persons or organisations with the skills, knowledge, advice and resources necessary to make them effective and monitor their implementation; and
- those persons or organisations have sufficient expertise to be able to evaluate and challenge the advice they receive and manage conflicts of interest.

Key points:

1. Elected members have a fiduciary duty to the Fund, Scheme members and local taxpayers.
2. Functions can be delegated and investment managers used, but overall responsibility rests with members.
3. Proper advice should be taken and the regulations define this as: "the advice of a person who is reasonably believed...to be qualified by his ability in and practical experience of financial matters."
4. The Wednesbury Principle (1945) applies to all parties involved in the arrangements and ensures they direct themselves properly in law and demonstrate reasonable behaviour.
5. All councils must appoint one of its officers to have responsibility for ensuring arrangements are in place for the proper administration of its financial affairs.
6. The role of the Pensions Committee and key officers should be clear in the Council's Constitution.
7. Best governance practices should be followed.
8. The Pensions Committee should ensure it has appropriate skills and is run in a way to facilitate effective decision-making.

Bromley complies with this principle in all major respects. The Fund produces a Statement of Investment Principles, a Funding Strategy Statement (which serves as the Fund's business plan) and a Governance Statement. The functions delegated and the administration of the Fund's activities are undertaken with appropriately trained staff and in accordance with the Council's constitution and the Fund's compliance procedures. The Council employs an independent professional adviser and the training requirements of Pensions Investment Sub-Committee members and officers are reviewed on an ongoing basis. Most recently, a training evening was held in July 2014, primarily for new Members of the Sub-Committee following the recent elections, but open to all Council Members. Three Sub-Committee members attended an external training course in October 2014 and a further internal training event is planned for September 2015.

Principle 2. Clear objectives

Overall investment objectives should be set for the Fund that take account of the Scheme's liabilities, the potential impact on local taxpayers, the strength of the covenant for non-local authority employers and the attitude to risk of both the administering authority and other scheme employers. These should be clearly communicated to advisors and investment managers.

Key points:

1. A three-yearly actuarial valuation as required by the regulations.
2. A full range of investment opportunities should be considered.
3. A strategic asset allocation should be used and reviewed regularly.
4. Robust investment management agreements should be in place.

5. The target investment return and associated risks should reflect the liabilities, assets held and link to the actuarial process.
6. The provision for taking proper advice should be demonstrated.

The Fund takes a range of specialist advice in formulating its SIP and FSS, ensuring that they link with the common objectives that arise from the actuarial process, with emphasis on managing investment risk relative to cash flows and the need for stable contribution rates. These policies are reviewed regularly and informal discussions with the actuary take place to track progress between valuations. The Pensions Investment Sub-Committee places significant emphasis on reviewing and monitoring the investment strategy with regular reviews and input from experienced professional advisors. Robust agreements are in place with the Fund's investment managers and their performance is monitored quarterly by the Sub-Committee, with the managers being required to attend those meetings on a regular basis. The Fund's overall investment objective, as recorded in its Funding Strategy Statement, is to improve its funding level from 82% as at the last full valuation (31 March 2013) to 100% by 31 March 2028.

Principle 3. Risk and Liabilities

In setting and reviewing the investment strategy, administering authorities should take account of the form and structure of the Fund's liabilities, including the implications for local taxpayers, the strength of the covenant for participating employers, the risk of their default and longevity risk.

Key points:

1. The Pensions Committee should set a clear investment objective.
2. Investment risk should be fully evaluated, monitored and the link to employing bodies' ability to meet liabilities recognised.
3. Appropriate guarantees should be used to protect against employer default.
4. The need for affordable, stable contributions should be reflected in the work of the Pensions Committee.
5. The Pensions Committee should satisfy itself that the standards of internal controls applied are sound and robust.
6. An understanding of risk should be demonstrated and reported upon.

Members approved the Funding Strategy Statement and the asset allocation strategy having regard to the Fund's liabilities and the need to achieve stable and affordable contributions, consulting with interested parties regularly. The investment setting process takes account of short-term market volatility, but, with strong positive cash flows, places great emphasis on the medium to long-term view. The Fund's Annual Report includes a statement of overall risk management of all activities.

Principle 4. Performance Assessment

Arrangements should be in place for the formal measurement of performance of the investments, investment managers and advisors. The administering authority should also periodically make a formal assessment of its own effectiveness as a decision-making body and report on this to Scheme members.

Key points:

1. Extensive formal performance measurement of investments, managers and advisors should be in place and relate to the investment objectives.
2. Effectiveness of the Pensions Committee should be reported on at regular intervals.
3. Returns should be measured quarterly in accordance with the regulations; a longer time frame (three to seven years) should be used in order to assess the effectiveness

of fund management arrangements and review the continuing compatibility of the asset/liability profile.

The overall investment objectives of the Fund link to portfolios and individual investment objectives. Performance is measured quarterly against targets driven by the investment strategy and its component parts. The investment performance of the fund and its managers is measured by the independent WM Company in full compliance with this principle and a fund performance report is submitted to the Pensions Investment Sub-Committee each quarter. No arrangements are in place for formal assessment of the Sub-Committee's own procedures and decisions, although the Annual Report does detail the Sub-Committee's work and achievements.

Principle 5. Responsible Ownership

Administering authorities should:

- Adopt, or ensure their investment managers adopt, the Institutional Shareholders' Committee Statement of Principles on the responsibilities of shareholders and agents.
- Include a statement of their policy on responsible ownership in the statement of investment principles.
- Report periodically to Scheme members on the discharge of such responsibilities.

Key points:

1. Disclose approach to company governance matters and socially responsible issues in the SIP.
2. Define expectations of managers on company governance matters.
3. The Institutional Shareholders' Committee Statement of Principles for institutional shareholders and/or agents should be followed.

Bromley's approach to corporate governance is set out in the main body of the SIP, including its approach to voting rights and engagement with companies' management. This approach is broadly consistent with the Institutional Shareholders' Committee Statement of Principles.

Principle 6. Transparency and Reporting

Administering authorities should:

- Act in a transparent manner, communicating with stakeholders on issues relating to their management of investments, its governance and risks, including performance against stated objectives.
- Provide regular communication to Scheme members in the form they consider most appropriate.

Key points:

1. Maintain a sound governance policy and demonstrate its implementation.
2. Maintain a communication policy and strategy.
3. Ensure all required strategies and policies are published in a clear transparent manner.
4. Annual reports are a demonstration of accountability to stakeholders and should be comprehensive and readily available.

The Fund produces and reviews regularly its key policy and strategy documents, publishing them on its website. All members, actives, deferreds and pensioners receive communications on the Fund's activities and performance. A comprehensive Annual Report is produced, which includes the Council's formal Communications Policy Statement. The results of the monitoring of the managers are published in the public agendas of the Pensions Investment Sub-Committee, which are also published on the website.

**LONDON BOROUGH OF BROMLEY PENSION FUND
COMMUNICATIONS POLICY STATEMENT**

Regulation 61 of the Local Government Pension Scheme Regulations 2013 requires administering authorities to prepare, maintain and publish a Communications Policy Statement. This statement sets out the Council's policy concerning communications with members, members' representatives, prospective members and employing authorities.

Prospective Members		Responsibility
Employees' Guide to the Local Government Pension Scheme	Council employees All new prospective Scheme members are provided with a booklet before an appointment.	Booklet - Liberata. Distribution - Head of HR and Schools.
	Councillors All newly elected Councillors are provided with a booklet shortly after appointment.	Booklet – Liberata. Distribution - Head of Committee services.
	Employees of scheduled bodies other than the Council All new prospective Scheme members are provided with a booklet before or on appointment.	Booklet – Liberata. Distribution - Scheduled body.
	Employees of admitted bodies All new prospective Scheme members are provided with a booklet on meeting the body's admission requirements.	Booklet - Liberata. Distribution - Admitted body.
Annual newsletter	All prospective members are issued with the Scheme's annual newsletter, which carries information on joining the Scheme.	Production & distribution –Liberata in partnership with LBB.
Staff Intranet	The staff intranet contains outline information about the Scheme and details of where further information may be obtained.	Head of Human Resources in conjunction with Director of Finance.
National Website	The address of the LGPS website maintained by the Employer's Organisation for Local Government is published in the Scheme booklet, the annual newsletter and various other documents.	www.lgps.org.uk
Members		
Employees' Guide to the LGPS	A booklet is issued on or before appointment. A further copy is available on request.	
Annual Newsletter	An annual newsletter is issued to all active and prospective members covering relevant pension topics within the LGPS. It will also include any material changes or developments in the Scheme.	Production & distribution –Liberata in partnership with LBB.
Annual Benefit Statement	A statement of accrued and prospective benefits as at 31 st March each year is sent to the home address of all active members. An explanation of the statement and a note of any material changes or developments in the	Production & distribution - Liberata.

	Scheme accompany this.	
	A statement of the current value of accrued benefits is sent annually to the home address of deferred members where the current address is known. An explanation of the statement and a note of any material changes or developments in the Scheme accompany this.	Production & distribution - Liberata.
