**43 STATEMENTS BY THE LEADER OF THE COUNCIL,  
PORTFOLIO HOLDERS OR CHAIRMEN OF COMMITTEES**

a) Public Health

The Portfolio Holder for Resources updated members on the position in Bromley in respect of the transfer of responsibility for Public Health to the

Council's control. Non acute care and community services would be transferring to the Council's control with the merger of Social Services and Community Services from next year. In preparation for this major step a shadow Health Board had been operating bringing together the elements of public health and establishing the model for taking things forward. The Health and Wellbeing Board had pooled its resources both in terms of finance and staffing. The shared agenda had been informed by the first Joint Needs Assessment and a Public Health Director had been appointed as a shared post. Next month the 40 plus remaining staff of the PCT structure would transfer to the Council's site. Whilst welcoming the changes the Portfolio Holder highlighted that the finance attached to this was still unclear. Indicative figures had been released with Bromley allocated a very meagre amount. There were significant variations in the funding ranging from £20 per head at the lowest end to £122 at the highest. Funding for the current year was still held by the PCT and they had been cooperating closely with the Council to ensure a smooth transition. There was also a move towards a closer commissioning process to build on joint expertise. The Portfolio Holder stressed the need to watch the situation closely and to state clearly that we would not take on any responsibility which was not properly funded. Bromley was joining with London Councils to call for a minimum grant per head to ensure fairness and also to receive a realistic slice of the total fund. Councillor Arthur would be attending a pan London event the next day to assess the progress that had been by each Borough. He was pleased to say that Bromley was some way ahead of other boroughs due to a mixture of shared functions in previous years and the willingness of Health Partners to bring a positive and fresh attitude to the table. There were no questions on the Statement.

b) Bromley Valley Gymnastics Centre

The Portfolio Holder for Renewal and Recreation informed members of his recent visit to the Bromley Valley Gymnastics Centre in Cotmandene. Councillor Morgan reported that he and his wife had attended a gymnastics display at the Centre, which he had not known about before, and had been very impressed by the high standard of skill of the club members. They had members ranging from the age of 3 years up to senior class who were trained to the very highest of levels and the club had won national and international competitions. It was a privately run club attracting a wide membership and did not receive any form of subsidy from the Council. The premises they used were a former school gymnasium which they rented from the Council. Councillor Morgan went on to mention some of the successes of the Club and wanted to highlight what these young people were doing. The coaches and organisers gave of their time and talent and Councillor Morgan wanted to record the Council's thanks and best wishes for the club's future. The Mayor advised that he had also attended a display at the Club which was one he had known about for some years and endorsed Councillor Morgan's statement. There were no questions on the Statement.

it further notes that parents in the neighbouring district of Sevenoaks, with the support of the local Member of Parliament, Michael Fallon and members of Kent County Council, are actively pursuing such an option;

further notes that demand for places by Bromley parents at the two selective schools within the borough and for places in neighbouring authorities far outweighs the number of available places;

resolves to support, in principle, any move by either of the two selective schools in the borough or by schools in neighbouring districts (including independent selective schools) to provide additional selective places in Bromley and particularly in those parts of the borough most distant from existing provision of selective places.”
