EDUCATION AND CARE SERVICES DEPARTMENT

Briefing Paper **Member/Officer Working Party -
Primary School Development Plan**

Date: **9 August 2012**

Subject: **ANALYSIS BY PLANNING AREA**

Assistant Director Dr Tessa Moore
Assistant Director (Education)

Contact Officer: Mike Barnes
Head of Access and Admissions

1. BACKGROUND

The strategic planning of primary school places and school organisation in the Borough is driven through the Primary Schools' Development Plan.

A comprehensive review of the Primary Schools' Development Plan (PSDP) was completed in autumn 2010 to address the significant increase in demand for primary school places; outcomes from this review were reported to the CYP PDS in January 2011. A further review took place in January 2012 with outcomes reported to the Children and Young People PDS and Portfolio Holder on 21 February 2012.

Specific planning assumptions for primary school provision were agreed by Bromley's Education Committee in January 1998 and were also consulted upon for the agreement of the School Organisation Plan. The assumptions are to:

- accommodate children in schools in the locality in which they live;
- maximise strategic locations;
- expand existing provision wherever possible;
- consolidate at whole-forms of entry (FE) where possible;
- encompass all maintained schools.

It is proposed that the above assumptions should be reviewed and that the assumption to encompass all maintained schools should be updated to read "encompass all state-funded schools".

There is also a commitment to investigate the potential for amalgamation of infant and junior schools whenever the opportunity arises. Decisions on amalgamation are taken following detailed analysis of all factors, consideration of the potential benefits and disadvantages and extensive consultation.

A key responsibility of the LA, allied to the provision of sufficient school places to children, is the delivery of high quality education and the efficient use of resources. The Primary Schools' Development Plan focuses on the supply of places, but the quality of education provided by those places and the efficient use of resources are also major considerations.

2. INITIAL OUTCOMES FROM ANALYSIS

Boroughwide

The current published admissions limit capacity in the Borough is **3575**. For the 2012/13 Reception intake 9 schools have accepted an additional form of entry (30 pupils) above the school's published admission number, resulting in a total of **3845** reception places.

The number of reception pupils in Bromley schools has risen from **3165** in January 2007 to **3706** in January 2012. The numbers are projected to remain at between **3790** and **4070** until at least 2020.

The following analysis by planning area identifies some of the issues to be considered by the working party.

(a) PLANNING AREA 1

Wards: Crystal Palace, Penge and Cator, Clock House

This continues to be a volatile area in pupil place planning terms. The numbers of 4 year olds in this area remains above that of the total admissions numbers for the schools. The analysis indicates a history of migration to schools in the neighbouring Planning Area 2 and a high percentage take up of primary places in two of the authorities which border this area, ie Croydon and Lewisham.

This area is currently showing a shortfall of places of approximately two forms of entry. To meet the demand for these additional places there is currently a proposal to expand Churchfields Primary School permanently from 1 form of entry (FE) to 2 FE. Churchfields has admitted 2 forms of entry since 2010/11 as a temporary arrangement. In 2011/12 and 2012/13 Malcolm Primary School has accepted an additional 30 reception pupils. Royston Primary admitted an additional form of entry in September 2011 but this was not repeated for September 2012.

The current shortfall of places could increase if fewer places are available out-of-borough and if parents are unable to secure places in Planning Area 2.

Issues for consideration:

- To consider the feasibility of repeating the additional form of entry at Malcolm Primary School for an additional year (2013/14).
- Consider extra places at other schools in the area as a 'bulge' year(s).
- Consider the feasibility for permanent expansions of schools in this area.

(b) PLANNING AREA 2

Wards: Copers Cope, Kelsey and Eden Park

Analysis of pupil projections indicates that there has been a very close match of places to demand and an increase in projected reception numbers. The permanent expansion of Unicorn Primary School and the additional form of entry at Clare House Primary School in 2012/13, which can be repeated in 2013/14, have ensured sufficient places to meet the current increased demand. A shortfall of places is projected from 2014/15.

Governors of Worsley Bridge Junior and Bromley Road Infant Schools have indicated that they would like to review the future organisation of the two schools as separate primary schools.

Issues for consideration:

- To consider the feasibility of a permanent expansion of Clare House Primary School from 1 FE to 2 FE.
- To formally consult on extending the age range of Bromley Road Infant School to become a 1 FE Primary School and Worsley Bridge Junior School to become a 2 FE Primary School with the potential to expand to 3 FE.

(c) PLANNING AREA 3

Wards: Shortlands, West Wickham, Hayes and Coney Hall

There has been a close match of places to demand in this area with a current shortfall of places that has been accommodated by Hawes Down Infant School admitting an additional form of entry in September 2012. There is a small projected shortfall in places for the rest of the decade.

Issues for consideration:

- Managing shortfall in places by negotiating extra year intakes in schools in this area and keep under review the need for any permanent change to school organisation.
- Review each school site to establish the feasibility of any permanent expansion by 1 FE.

(d) **PLANNING AREA 4**

Wards: Bromley Town, Plaistow and Sundridge, Bickley

Capacity in this planning area has been closely matched to need for several years and it was necessary to negotiate an extra form of entry at Bickley Primary School for reception in 2008/09, 2009/10 and 2010/11 before a permanent expansion of the school from September 2011.

Both Valley and Parish Primary Schools accepted an extra form of entry in September 2011 and September 2012. It has been agreed to consult on the permanent expansion of Parish Primary School from 2 FE to 3 FE.

Scotts Park Primary School admitted an additional form of entry in 2012 and is able to repeat this in 2013. The pupil projection data indicates that there will be a continuing shortfall of places in this planning area throughout this decade of approximately 2 FE.

The Governors of St George's CE Primary School have indicated that they would wish to consolidate from 1.5 FE to whole form(s) of entry if feasible.

Issues for consideration

- To consider the permanent increase of Published Admission Number (PAN) at Scotts Park Primary School from 60 to 90.
- To consider the feasibility of future changes to the PAN for St George's CE Primary School.

(e) **PLANNING AREA 5**

Wards: Bromley Common and Keston, Petts Wood and Knoll, Farnborough and Crofton

Demand has increased in recent years leading to the expansion of Princes Plain Primary School by half a form of entry. Keston Church of England Primary School admitted an additional form of entry in 2012 and are able to repeat this in 2013.

There is a significant housing development on the 'Blue Circle' site within this planning area. This development is planned to consist of 788 dwellings.

There is a projected shortfall of places in this planning area of approximately two forms of entry.

Issues for consideration

- To consider the permanent Increase of PAN at Keston CE Primary School to 60.

- To consider further expansion of primary provision on the Princes Plain / EDC campus.

(f) **PLANNING AREA 6**

Wards: Chislehurst, Mottingham, Chislehurst North

Planning Area 6 includes the major residential development on the site of the Ravensbourne College of Art and Design.

Chislehurst Church of England School and the Diocese of Rochester have been in discussions with the Local Authority concerning the feasibility of relocating and expanding the school to a new site in Chislehurst.

There are two 'stand alone' infant schools in this planning area. The planning for this area assumes Red Hill Primary School and Mottingham Primary School will admit additional pupils at Key Stage 2 to accommodate some, or all, of the pupils that leave these local infant schools.

There is a projected shortfall of places in this planning area of approximately one form of entry. This could be accommodated by the expansion of Edgebury Primary School.

Issues for consideration

- Feasibility of relocation and expansion of Chislehurst C of E School.
- Feasibility of admitting additional pupils or expanding Edgebury Primary School.

(g) **PLANNING AREA 7**

Wards: Cray Valley West and Cray Valley East

There is a close relationship between this Planning Area and Area 8.

In accordance with the recommendations, endorsed by the Portfolio Holder in November 2006, the Local Authority had undertaken the following action to:

Reduce the PANs of St Mary Cray Primary School, Leeson's Primary, Midfield Primary, Poverest Primary, St Paul's Cray Primary from 1.5 FE to 1 FE with effect from September 2008.

Therefore, from September 2008, the Admissions Limit Capacity in this area reduced from 400 to 328. There is now a very close match of places to current demand in this area with a shortfall in 2012/13. This shortfall has been accommodated by Midfield Primary School admitted an additional form of entry.

There is a projected shortfall of just over a form of entry.

There is a history of mobility between schools in this area, partly accounted for by the significant resident Traveller population.

Issues for consideration:

- To consider the permanent Increase of PAN at Midfield Primary School to 60.
- To review with the Governors of schools in this planning area, the feasibility of increasing capacity.

(h) **PLANNING AREA 8**

Wards: Orpington, Chelsfield and Pratts Bottom

There is a close relationship between the Planning Area and Area 7.

Capacity in this planning area is closely matched to current and projected need.

Following previous primary school reviews, Blenheim Infant and Junior school merged to form Blenheim Primary School reducing by 1 FE , Warren Road increased from 3 to 4 FE and Holy Innocents Catholic Primary reduced from 2 to 1 FE. Following a decision by the Office of the Schools Adjudicator in March 2007, Hillside has a Published Admission Number of 54.

It may also be necessary to consider temporary expansions of other schools in this planning area.

Issues for consideration:

- That there should be no current change to school organisation or size in this planning area. Officers should continue to monitor demand and take action as appropriate should temporary expansions be required.

(i) **PLANNING AREA 9**

Wards: Biggin Hill and Darwin

In accordance with the decision of the Children and Young People Portfolio Holder and Executive, Biggin Hill Infant and Junior Schools amalgamated to form Biggin Hill Primary School with effect from January 2008. The new school has a Published Admission Number of 60, a reduction of 1 FE from the separate Infant and Junior Schools. Similarly, Oakland Infant and Junior Schools amalgamated with effect from April 2009 with no change to the published admissions number of 90.

Cudham Primary School has a PAN of 15 reduced from 19 with effect from September 2012.

Capacity in this planning area is closely matched to current and projected need

Issues for consideration:

- That there should be no current change to school organisation or size in this planning area.

All Planning Areas

The overall projected shortfall in places by 2017 is approximately 13 forms of entry. A small surplus of places is desirable to facilitate pupil mobility and parental preference, therefore the additional places needed is in excess of this figure.

Issues for consideration

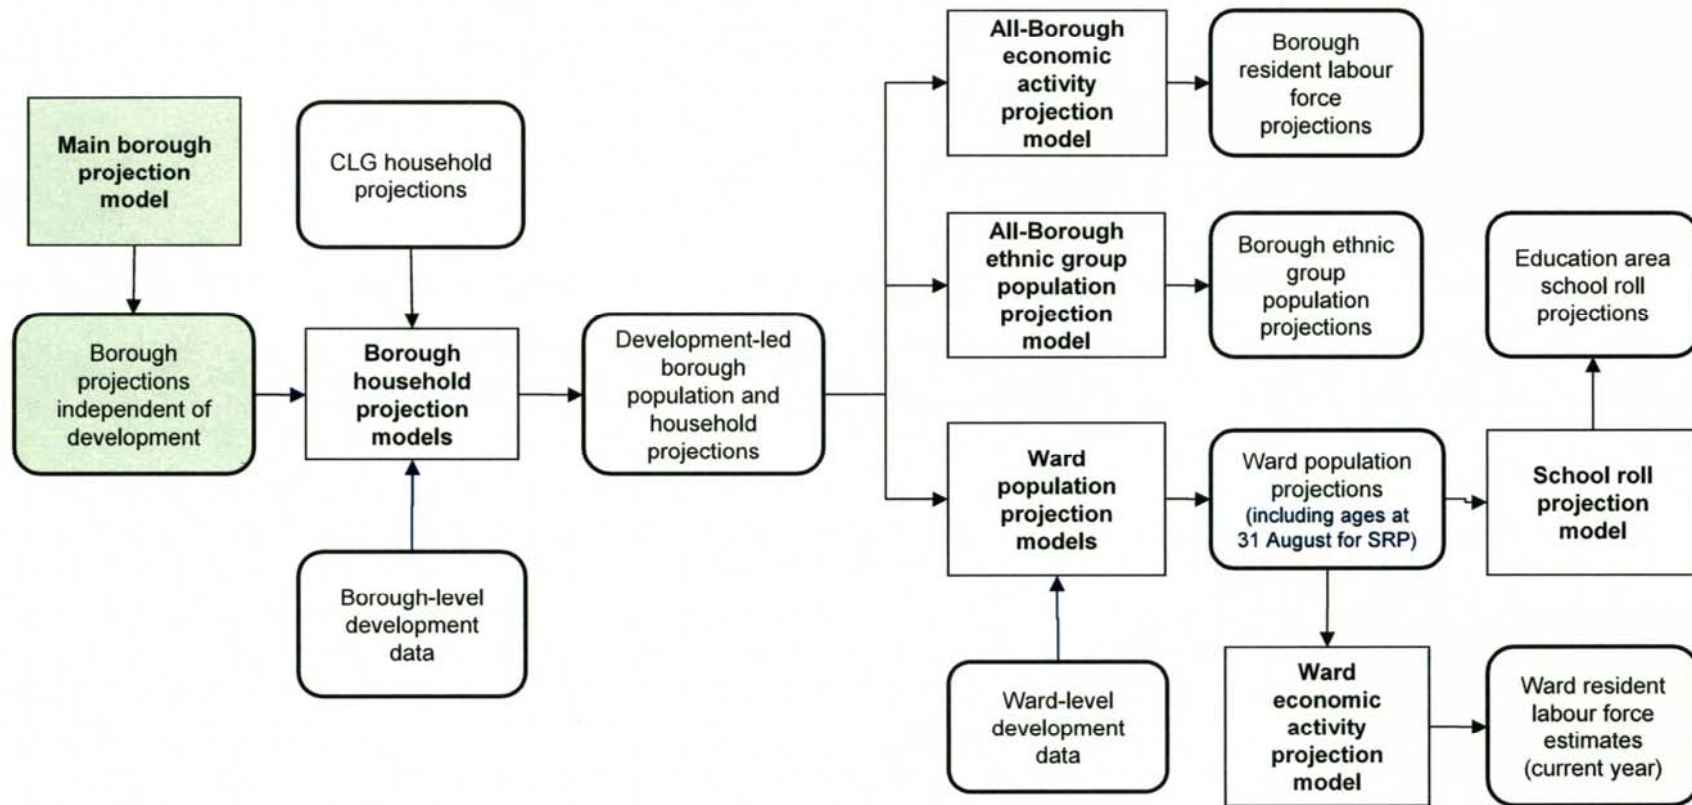

- To identify potential sites suitable for education provision across the Borough.
- To encourage potential proposers to consider locating free schools in areas of the Borough with the greatest pupil demand.

The Admission number for a school is arrived at through a series of calculations. Originally this was called the Standard Number. Schools were required to admit pupils up to this number if they applied.

A school could also admit pupils beyond this number if it so wished, subject to the Infant Class Size legislation restricting class sizes to 30 in Years R to 2, which would be the school's Admissions Limit.

(+) These schools have an SEN Unit attached, which have their own placement numbers separate to the schools' admission number. The number of pupils in the Unit are not included here.

Net Capacity assesses the physical capacity of a school.

Year group capacity is the number of year groups multiplied by the admission number
