Department for Communities & Local Government

7<sup>th</sup> November 2012

Dear Mr Boles

May I firstly thank you once again for affording myself, my colleagues and Jo Johnson the time to express our very real concerns about the proposed change to the permitted development rights, and the proposal to encourage Councils' to use the National Planning Policy Framework to vary the extend of the green belt in their areas.

Since our meeting, the Executive of the London Borough of Bromley has considered the recommendations of its Development Control Committee, the membership of which has expressed their grave misgivings regarding these proposed changes, and as a result the Executive has asked me to write to you to confirm their full support in relation to these concerns.

In addition, I can inform you that we are presenting a motion opposing these changes to our forthcoming Full Council meeting on Monday, 12<sup>th</sup> November after which we will be relating the outcome for your serious consideration.

We trust that these expressions of concern will be taken fully into account as part of the consultation in the coming weeks.

Yours sincerely
