		<p>'Great Spaces' initiative, has been successful in providing access to £300k for detailed design work. A further allocation of £3m has been made available by TfL subject to the Council meeting a number of design gateways.</p> <p>£1.5m has been allocated in the Council's Capital Programme 2012/13 in support of this project.</p>	<p>which were approved by R&amp;R PDS Committee in March 2012. The designs have now progressed through to the detailed design phase whereby traffic and engineering details are added and final estimates calculated. The scheme design has been amended to take in to account concerns raised by Bromley North Village traders regarding evening two way traffic working in High Street North. These detailed were endorsed by the R&amp;R PDS meeting in January 13.</p> <p>Transport for London has agreed the business case for the project and were due to consider the final design sign off on 14<sup>th</sup> January 2013. Unfortunately the results of their bus consultation were not available for this meeting and a revised review meeting has now been called 9<sup>th</sup> February 13. Following the successful sign off by TfL's Programme Board they will formally release the £3m of funding that has been allocated to this scheme. The GLA were not be able to consider the Outer London Fund reprofiling request until their next board meeting on 19 February 13. Therefore, they have not been in a position to issue written confirmation that would have allowed the immediate ordering of materials. It is estimated that the earliest materials can now be ordered is the end of February, and there is an 8-12 week lead time on delivery.</p> <p>Subject to the external funding approvals, implementation could start in March 2013 with the placing of material orders and decluttering, with the main capital works commencing in April 2013. This should take around 18 months during which there will be some disruption, although the intention is to keep this to a minimum.</p> <p>A full implementation programme will be brought to the next R&amp;R PDS for Members consideration.</p>

**Orpington**

<p><b>Orpington Town Centre</b></p>	<p>Lead : KM</p>	<p>There are 2 key opportunity sites.– The Job Centre and Police Training facility, which are currently available for redevelopment. Working is progressing to agree a consensus with land owners/interested parties over future development options, which would ultimately inform a planning brief for the whole of the Walnuts site. The Council as the Local Planning Authority is best placed to co-ordinate and lead on this work.</p> <p>The block paving materials that were used for the raised areas in the carriageway have deteriorated through traffic loadings.</p>	<p><b>Position</b></p> <p>The new consortium is seeking to implement a comprehensive improvement programme for the Walnut Shopping Centre which will see Crown Buildings redeveloped for additional retail floorspace and a cinema. Planning permission has been granted for the scheme. Authority has been obtained to sell the Council’s freehold interest in an area adjoining Crown Building which is required for the scheme. The applicant has submitted prior notification documentation to demolish the Job Centre building.</p> <p>Discussions are ongoing with the designers and block manufactures to identify the cause of the failures and a permanent solution. In the short term the main area has been resurfaced in ‘tarmac’ to maintain safety. Permanent repairs are due to be completed in 2013.</p>
<p><b>The Priory</b></p>	<p>Colin Brand</p>	<p>The Council were successful in a first round application to the Heritage Lottery Fund and have received a development grant to work up detailed designs and plans to support a second round application, due in December 2013.</p>	<p>Work has been undertaken to procure a specialist conservation architect to lead a multi-disciplinary team to work up the detailed designs for the Priory and a recommendation for contract award will be made to the Chief Officer in March 2013.</p> <p>In the meantime, surveys to determine the current condition of the building have been undertaken.</p> <p>A Project Activity Manager will also have been appointed by the end of February who will have responsibility for leading on developing detailed learning and participation activity plans. <b>Beckenham</b>			
<b>Public Realm Improvements</b>	Lead: KM	<p>The Draft Local Implementation Plan (LIP), submitted to TfL in December 2010, indicates that, following the implementation of the Bromley North Village project, the Council envisages that Beckenham town centre would potentially be the subject of a future Major Schemes bid.</p> <p>This is supported by the inclusion in the LIP of an indicative sum of £150k of TfL funding for scheme development in 2013/14.</p>	<p><b>Position</b></p> <p>On 14<sup>th</sup> December 2012 TfL announced the Area Based Programme settlement for 2013/14. TfL did not support the Area Based Bid but did approve £200,000 under 2013/14 LiP funding for High Street/ Rectory Road junction improvements. Outline proposals for these works have already been developed as part of the Step 1 and officers are now proceeding with survey works to inform a detail design for implementation this year.</p> <p>A full range of short term improvement projects is to considered by the Beckenham &amp; West Wickham Member Working Party on 7<sup>th</sup> February 13.</p> <p>A verbal update will be provided at the meeting.</p>
<b>Penge</b>			
<b>Penge Renewal Strategy</b>	Lead: Colin Brand	Renewal Strategy has been published.	<p><b>Position</b></p> <p>A new site for a new Library which would allow the re-organisation of service delivery in this part of the Borough has been identified. Work is now ongoing to secure an acceptable lease and fit out programme.</p> <p>Timescale: Ongoing</p>
<b>Office and Employment Floorspace.</b>			
<b>Office Floorspace</b>	Lead	The AAP makes provision for 7,000 sq metres of additional office floorspace in the Plan	In conjunction with local property agents work has commenced on gathering both quantitative and qualitative information on the office

	Various	<p>period. This was allocated on Opportunity Site A (2,000) and Opportunity Site C (5,000).</p> <p>Given the revised policy position for Site A and the possibility that Site C could be redeveloped as a hotel, there is a concern that there could be insufficient provision made for future office employment growth in the town.</p> <p>DTZ have been commissioned to produce a Retail, Office, Industry and Leisure Study, which will inform the production of policy options for the Local Plan consultation which will commence in September 2012. These options will examine the future supply and demand for employment floorspace and current and future designation of employment sites.</p>	<p>stock in Bromley Town Centre. This will allow further analysis of the future supply and demand for office floorspace both in town centres and in other potential employment locations such as Biggin Hill.</p> <p>It is intended that the results of this analysis could be used to develop a potential financial incentive package, targeted at bringing back redundant office into use, for which funding could be sought from the Mayor's Growth Fund.</p> <p>Officers are considering the content of the London Office Policy Review 2012 recently published by the GLA. The LOPR 12 concludes that Bromley is unlikely to retain its position as a significant office centre and the report calls for a more pragmatic policy approach to be adopted. The reports suggests down grading Bromley as a speculative office location to a lesser designation that would see some office provision promoted as part of wider residential or residential and retail/leisure mixed use development. This would be likely to entail long-term net loss of overall office stock, partial renewal on the more commercially attractive sites and managed change of use of provision on less attractive sites.</p>
