### **3. COMMENTARY**

- 3.1 The 2014/15 projected outturn is detailed in Appendix 1, with a forecast of projected spend for each division compared to the latest approved budget and identifies in full the reason for any variances.
- 3.2 Costs attributable to individual services have been classified as “controllable” and “non-controllable” in Appendix 1. Budget holders have full responsibility for those budgets classified as “controllable” as any variations relate to those factors over which the budget holder has, in general, direct control. “Non-controllable” budgets are those which are managed outside of individual budget holder’s service and, as such, cannot be directly influenced by the budget holder in the shorter term. These include, for example, building maintenance costs and property rents which are managed by the Property Division but are allocated within individual departmental/portfolio budgets to reflect the full cost of the service. As such, any variations arising are shown as “non-controllable” within services but “controllable” within the Resources Portfolio. Other examples include cross departmental recharges and capital financing costs. This approach, which is reflected in financial monitoring reports to budget holders, should ensure clearer accountability by identifying variations within the service that controls financial performance. Members should specifically refer to the “controllable” budget variations relating to portfolios in considering financial performance. These variations will include the costs related to the recession.

#### **Chief Officer Comments**

- 3.3 Overall, the controllable budget for the Renewal and Recreation Portfolio is projected to overspend by £260k.
- 3.4 As part of the budget setting process for 2014/15 a budget savings target of £150k was included in the culture budget. To date, £90k savings have been identified leaving a balance of £60k. It is intended to identify further savings during the next few months in order to ensure that the culture budget will be balanced from April 2015 onwards.
- 3.5 The full years savings of £300k built into the library budget will not be realized until April 2015 due to two factors; the first is that a detailed consultation has been undertaken during the last few months with both the public and the library staff over options for reducing opening hours and the second is that in order to achieve the reduction in staffing, it is necessary to install the RFID system in the remaining 9 libraries. This installation will not be completed until after October 2014 and therefore only part year savings of £100k will be achieved for 2014/15.

### **4. POLICY IMPLICATIONS**

- 4.1 The Resources Portfolio Plan for 2014/15 includes the aim of effective monitoring and control of expenditure within budget and includes the target that each service department will spend within its own budget.
- 4.2 Bromley’s Best Value Performance Plan “Making a Difference” refers to the Council’s intention to remain amongst the lowest Council Tax levels in outer London and the importance of greater focus on priorities.
- 4.3 The four year financial forecast report highlights the financial pressures facing the Council. It remains imperative that strict budgetary control continues to be exercised in 2014/15 to minimise the risk of compounding financial pressures in future years.
- 4.4 Chief Officers and Departmental Heads of Finance are continuing to place emphasis on the need for strict compliance with the Council’s budgetary control and monitoring arrangements.

## 5. FINANCIAL IMPLICATIONS

- 5.1 Although the overall budget shows an overspend of £258k for 2014/15, the controllable budget for the Renewal and Recreation Portfolio is projected to be overspent by £260k based on financial information available as at 31<sup>st</sup> May 2014. Some of the major variations are summarised below with more detailed explanations included in Appendix 1.
- 5.2 Surplus of income of £20k from non-major applications is projected as activity has increased. This is offsetting additional costs for specialist advice required for forthcoming appeals.
- 5.3 To date, only £90k of the £150k budget savings have been achieved within culture, which has meant that an overspend of £60k is projected. Further savings are expected to be identified to enable a balanced budget to be set from April 2015.
- 5.4 As a detailed consultation was carried out with the public and library staff during the last few months, and the fact that the Radio Frequency Identification Data system (RFID) has yet to be installed in the remaining 9 libraries, the savings target of £300k will not be met during this financial year. It is estimated that £100k part year saving will be realized and that the full £300k will be achieved from April 2015.
- 5.5 The table below summarises the main variances: -

<b>Summary of Major Variations</b>	<b>£'000</b>
Income from non-major planning applications	Cr 20
Additional expenditure for appeal costs	20
Underachievement of budget savings within culture	60
Underachievement of budget savings within library service	200
	<u>260</u>
