

COMMUNITY CARE PROTECTION GROUP

(Submitted by Susan Sulis, Secretary).

PUBLIC QUESTIONS TO 29TH JANUARY 2015 HEALTH & WELLBEING BOARD.

Q1:

BROMLEY HEALTHCARE'S 'BROMLEY LEG CLUB', (PART OF THE LINDSAY LEG CLUB FOUNDATION), WALK-IN CLINIC FOR PATIENTS WITH LOWER LEG PROBLEMS.

Bromley Healthcare is to be congratulated on this open access service, run by its Tissue Viability Nurses, assisted by volunteers, which treats those with circulatory problems, including leg ulcers, who would otherwise require appointments in clinical settings.

Is this not a model which could be adopted for other conditions, as part of 'Primary Care Transformation'?

Q2:

INITIAL EQUALITIES IMPACT ASSESSMENT OF CHARGING FOR CARER'S SERVICES AND SUBSTANTIAL CUTS (£200,000) IN DISABILITY RELATED EXPENDITURE (see report FSD 14087).

'Support for Carers' is identified as one of the 9 priorities in the Joint Health and Wellbeing Strategy. How do these cuts and charges support Carers?
