\* Termly collection of data also signified an extension to the scope of exclusions data collected via School Census. From the 2005/06 school year, the SC collected information on fixed period exclusions and the reasons for exclusion. Previously this information had been collated via the Termly Exclusions Survey which was discontinued after the collection of data relating to the 2004/05 school year. This change to the collection does present a gap in the information collected from Primary and Special Schools for Fixed Period Exclusions. Data for the year 2005/06 school year is not available for these schools.
