### 1. SUMMARY

- 1.1. Joint Strategic Needs Assessment (JSNA) has been a statutory requirement of local authorities and NHS primary care trusts since 1 April 2008.<sup>1</sup> Original guidance set out an expectation that the JSNA be carried out jointly by the director of public health, director of adult social services and director of children's services.
- 1.2. The government has since highlighted the 'equal and explicit' role of GP consortia and local authorities, including the director of public health, in preparing the JSNA, and endorsed the JSNA's key role in informing joint health and wellbeing strategies, to be developed by new Health and Wellbeing Boards.
- 1.3. The aim of the JSNA is to deliver an understanding of the current and future health and wellbeing needs of the population over both the short term (three to five years), and the longer term future (five to ten years) to inform strategic planning commissioning services and interventions that will achieve better health and wellbeing outcomes and reduce inequalities.
- 1.4. The JSNA is an evidence based document highlighting need, as such it is distinct from the Health & Wellbeing Strategy which it informs.

### 2. REASON FOR REPORT GOING TO HEALTH & WELLBEING BOARD
