Financial Services Division	-				
Financial systems upgrade/replacement of unsupported software	981	30	n	1	Executive 15/07/15 approved £43k virement between Financial system upgrade and Window & rollout.
Digital Print Strategy	75	25			This scheme relates to the implementation of Multi-Functional Devices. It was originally assumed that the machines would be funded from the Capital scheme, however it was subsequently decided that they could be funded from Revenue and the cost of rolling out these machines was funded by the One-Way programme. Following the implementation of these machines, a further review was undertaken of the revised business need and service requirements. In order to make best use of the print facilities, control and scanning software was purchased (uni-flow and ecopy) and a need for additional hardware was identified. £200k had originally been allocated for this scheme, however following the review, a budget of £125K in total was retained to fund the lease purchase of software and additional hardware from 11/12 to 15/16. The scheme was rephased to reflect this. The project has generated Revenue budget savings of £147K, and the Capital scheme budget was reduced by £75K.
