“8. The development permitted by this planning permission shall not commence until a surface water drainage scheme for the site and an assessment of the hydrological and hydro geological context of the development has been submitted to, and approved by, the Local Planning Authority. The surface water drainage strategy should seek to implement a SUDS hierarchy that achieves reductions in surface water run-off rates in line with the findings of the submitted Foul Sewage & Surface Water Drainage Assessment report carried out by Wormald Burrows Partnership Ltd with Ref No. E3564-DRAIN-Rev1-0516 dated May 2016 to limit the discharge rate to 2l/s.

**(16/04364/FULL6) - 26 Dartmouth Road, Bromley, BR2 7NE**

Description of application - Part one/two storey side/rear extension and elevational alterations.

The Chairman acknowledged there were properties nearby where similar planning applications had been permitted but in his view the proposed development would create a terracing effect and he objected to the application. Councillor Kate Lymer supported the application and felt that to be fair to the applicant the application should be granted permission.

Members having considered the report, objections and representations, **RESOLVED that PERMISSION BE REFUSED** for the following reason:-

1. The proposed part one/two storey side extension would fail to comply with the Council's requirement for adequate side space to be maintained to the flank boundary in respect of two-storey development, in the absence of which the extension would constitute a cramped form of development and an unrelated terracing effect, detrimental to the visual amenities of the streetscene and contrary to Policy H9 of the Unitary Development Plan (2006).

1. The first floor side extension, by reason of its lack of subservience and the elimination of the original catslide roof which is a characteristic elevational feature of the host dwelling and surrounding properties, results in an overly dominant and incongruous addition to the host dwelling, which is out of character with the surrounding form of development and demonstrably harmful to the character and appearance as well as the visual amenities of the Bickley Area of Special Residential Character, thereby contrary to Policies H8, H10 and BE1 of the Unitary Development Plan.
