

London Borough of Bromley Draft Local Plan Modifications List

Modification Number	Modification
MM001 (Please note this further amends MM016 below)	<p>Draft Policy 1 - Housing Supply</p> <p>Insert paragraph 2.1.5a</p> <p><u>The trajectory at Appendix 10.1 (and Table 1) shows that the Council has identified a 10,645 housing supply over the 15 year plan period, compared with a minimum housing supply, based on 641 dwellings per annum, of 9615. This trajectory is therefore consistent with the London Plan Policy 3.3, including its clauses Da and E. It does so first by seeking to supplement the London Plan minimum housing target of 641 per annum with extra housing capacity to close the gap between identified housing need and supply, a total of 1030 dwellings over the plan period. It also does so by drawing upon the brownfield housing capacity of the sources set out in Policy 3.3(E), such as an Opportunity Area and town centres.</u></p>
MM002	<p>Draft Policy 2 – Affordable Housing</p> <p>Amend Draft Policy 2 as follows <i>'In order to meet the needs of the Borough, <u>the Council will</u> :</i></p> <p><i><u>a) seek affordable housing will be sought on all housing developments capable of providing 11 residential units or more or where the residential floorspace is more than 1000sqm, irrespective of the number of dwellings.</u></i></p> <p><i><u>On all sites at, or above, this threshold, negotiations will take place to determine the number of affordable dwellings to be provided. In negotiating the amount of affordable housing on each site, the Council will seek 35% provision with 60% social-rented/affordable rented housing and 40% intermediate provision, unless it can be demonstrated that a lower level should be sought or that the 60:40 split would not create mixed and balanced communities. The affordability of different elements of the scheme should not immediately be apparent from the siting, design and layout.</u></i></p> <p><i><u>The affordable housing should be made available for transfer or occupation before a certain proportion (to be determined through negotiations between the Council and developer) of the market housing is occupied.</u></i></p> <p><i><u>Where an applicant proposes a level below the 35%, or the tenure mix is not policy compliant, the Council will require evidence within a Financial Viability Appraisal that will be independently assessed.</u></i></p> <p><i><u>b) seek to maximise the use of housing grants and other funding to increase the level of affordable housing above the figure secured in a)</u></i></p> <p><i><u>c) support the delivery of affordable housing through other sources of supply, such as estate regeneration, bringing vacant units back into use and other forms of housing which demonstrate they can help meet need.</u></i></p> <p>Payments in lieu</p>

	<p>Where it has been determined that a site meets the size threshold and is suitable for affordable housing, payment in-lieu of affordable housing on site or provision in another location will be acceptable only in exceptional circumstances and where it can be demonstrated that:</p> <ul style="list-style-type: none"> • it would be impractical to transfer the affordable housing to a registered provider (RP); or • on-site provision of affordable units would reduce the viability of the development to such a degree that it would not proceed; or • on-site provision of affordable units would not create mixed and balanced communities and there would be benefit in providing such units at another location. <p><u>The Council 's Planning Obligations Supplementary Planning Document will provide detail to assist in the interpretation and implementation of this policy.</u></p> <p>Add to supporting text para 2.1.42 <u>'Government and the Mayor are introducing new initiatives to address housing need and the Council will take into account these and new housing products which can demonstrate they can address housing need. The Council's Housing Strategy will set out the Council's corporate approach to address housing need, and the wide range of initiatives which contribute to this objective. The Council will consider positively new forms of provision such as Build to Rent and discounted build to rent where the rent levels can be shown to be affordable to local residents and help increase choice and address need.</u> Further advice on the detailed implementation of the policy may be provided in a Supplementary Planning Document'</p>
<p>MM003</p>	<p>Draft Policy 15 – Crystal Palace, Penge and Anerley Renewal Area</p> <p>Amend Draft Policy 15 as follows '<i>Proposals within the Crystal Palace, Penge & Anerley Renewal Area will be expected to maximise take advantage of opportunities:</i></p> <p><i>a – to maximise contributions contribute to, and benefits from the thriving cultural and leisure economy, which has evolved in the Crystal Palace District Centre and, in the Crystal Palace Strategic Outer London Development Centre;</i></p> <p><i>b –to which create benefit to the wider area by contributing to the conservation and enhancement of Crystal Palace Park through development that respects its character area and ensures a positive relationship with natural and heritage assets. presented by the enhancement of, and development within, Crystal Palace Park, consistent with its heritage values and significance, and for the benefit of the wider area, and</i></p> <p><i>c - to support renewal in Penge Town Centre.</i></p>
