Corporate Policy

- 1. Policy Status: Existing Policy: Capital Programme monitoring is part of the planning and review process for all services. Capital schemes help to maintain and improve the quality of life in the borough. Effective asset management planning (AMP) is a crucial corporate activity if a local authority is to achieve its corporate and service aims and objectives and deliver its services. For each of our portfolios and service priorities, we review our main aims and outcomes through the AMP process and identify those that require the use of capital assets. Our primary concern is to ensure that capital investment provides value for money and matches the Council's overall priorities as set out in the Community Plan and in "Building a Better Bromley". The capital review process requires Council Directors to ensure that bids for capital investment provide value for money and match Council plans and priorities.

3.4 Post-Completion Reports

Under approved Capital Programme procedures, capital schemes should be subject to a post-completion review within one year of completion. These reviews should compare actual expenditure against budget and evaluate the achievement of the scheme's non-financial objectives. No post-completion reports are currently due for the Adult Care & Health Portfolio but this quarterly report will monitor the future position and will highlight any further reports required.
