 2. Call-in: Applicable
-

Procurement

1. Summary of Procurement Implications: N/A
-

Customer Impact

1. Estimated number of users/beneficiaries (current and projected): The services covered in this report affect all Council Taxpayers, Business Ratepayers, those who owe general income to the Council, all staff, Members and Pensioners.
-

Ward Councillor Views

1. Have Ward Councillors been asked for comments? Not Applicable
2. Summary of Ward Councillors comments:

3. COMMENTARY

- 3.1 This report sets out the results of the latest quarterly revenue budget monitoring exercise for the 2021/22 financial year for the Environment & Community Services Portfolio based on financial information available as at 30 September 2021.
- 3.2 This updated position for the Portfolio shows a projected overspend of £206k against controllable budgets. It should be noted that monitoring this year now takes into account any ongoing impact of Covid-19 on the Portfolio's budgets, and an indicative allocation of Covid-19 grant funding towards costs or loss of income resulting from the continuing impact of Covid-19 on services. Excluding the application of this anticipated grant funding of £440k, the projected overspend would be £646k.
- 3.3 The projected outturn is detailed in Appendix 1A, which shows the forecast spend for each division within the Portfolio compared to the latest approved budget. The main variations are summarised in the table below:

		£'000
Waste Services:		
- Increased waste volumes	800	
Less Central Contingency budget drawdown	<u>Cr 567</u>	233
- Green garden waste		335
- Trade waste income		225
- Recycling income		Cr 181
Parking:		
- On/off-street car parking		321
- Enforcement		Cr 448
- Bus lanes		273
- Shared service		Cr 221
- Permit parking income		Cr 111
Income from street traders and markets		140
Tree maintenance		100
Other variations		Cr 20
Sub total		646
Application of Covid-19 grant funding		Cr 440
Total Variation		206

- 3.4 Appendix 1B provides further detail and commentary on each of the projected variations within each service.

4. COVID-19 GRANTS

- 4.1 At the meeting of the Executive, Resources and Contracts PDS Committee on 13th October, Members were provided with an overview of additional Covid-19 grant funding received by the Council since the start of the pandemic in March 2020.
- 4.2 It was agreed that the next budget monitoring report to the Executive will include this overview and further available updates. Details of those grants relevant to this Portfolio are included in this report at Appendix 2.

5. IMPACT ON VULNERABLE ADULTS AND CHILDREN

None directly from this report.

6. POLICY IMPLICATIONS

- 6.1 To meet the ambitions for residents, the Council must use available resources deploy its workforce wisely. This is reflected in the “Making Bromley Even Better” ambition of Service Efficiency - ‘To manage our resources well, providing value for money, and efficient and effective services for Bromley’s residents’.
- 5.2 The “2021/22 Council Tax” report highlighted the financial pressures facing the Council. It remains imperative that strict budgetary control continues to be exercised to minimise the risk of compounding financial pressures in future years.
- 5.3 Chief Officers and Heads of Finance are continuing to place emphasis on the need for strict compliance with the Council’s budgetary control and monitoring arrangements.

6. COMMENTS FROM THE DIRECTOR OF ENVIRONMENT & PUBLIC PROTECTION

6.1 Like the rest of the Council, the Covid-19 pandemic and resultant restrictions had a significant impact on many of the Environment and Community Services Portfolio's services in 2020/21 and continue to do so for several frontline services into this financial year with an overall overspend of £646k projected, before application of Covid grant funding. The main service areas affected are:

- Parking services were most severely affected during the initial lockdown restrictions in 2020, with a 95% reduction in parking use at one stage and a corresponding decrease in the level of enforcement. The income budget for 2021/22 was consequently reduced by £1.2m and while there has been a good level of recovery in recent months, use of surface and multi-storey car parks in particular remain somewhat lower than budgeted. However, enforcement activity has now returned to pre-Covid levels and income from PCN's is now projected to overachieve.
- Waste services were impacted as a result of people remaining at home during periods of lockdown, subsequent continued restrictions and more people working from home generating significantly increased volumes of residual waste to be disposed. Although the budget was consequently increased by £0.5m for 2021/22 to take this into account, that trend has continued with consequential pressure on budgets. In addition, trade waste income has also been severely affected with businesses not operating as normal for much of the last 18 months and some no longer trading; consequently income levels are projected to be under budget this year.
- Income from other fees and charges is also affected across all services to some degree with marked reductions in income from street traders’ licences.

6.2 Although there are no legal Covid-19 restrictions now in place, future increases in infections and reintroduction of some restrictions would add to uncertainty of how long these measures could be in force for. Nor it is yet clear what the longer term wider economic impacts will be and how this will affect services later in the year and beyond.

6.3 In respect of waste, the new contracts have been in place since April 2019. Contract costs are subject to volatility as any growth in the number of properties and tonnages collected will incur additional expenditure, due to the extra collections that would be required and the additional waste that is generated. Any fluctuations on the market prices will affect the income from sales of

recycles income. Another potential risk area is recycling paper income. Wet weather affects the quality of the paper collected and therefore may lead to issues arising with the processing of it as 'paper' and a loss of income. Furthermore, latest monitoring has demonstrated the effect of changing economic and working patterns and it is not possible to predict the extent to which some of these trends will become embedded.

- 6.4 Over and above the current impact of Covid-19, Parking will continue to experience fluctuations in both income from On- and Off-Street Parking as usage varies, as well as changes in enforcement income. Income levels are difficult to predict as accurately as levels of parking are dependent on a wide variety of factors of which some are beyond the Council's control. In addition, enforcement of Moving Traffic Contraventions recently commenced in accordance with the previous decision taken by the Executive. Income projections were based on previously anticipated volumes of traffic, which have been lower as a result of the impact of Covid.
- 6.5 Many of the Portfolio's services can be affected by severe weather events which cannot be predicted. In particular, the highways winter service, grounds maintenance and trees.
- 6.6 There is still some uncertainty with regard to TFL funding. Limited short-term grant has been allocated to 11th December 2021, at which point a further announcement is expected. No funding for either staff costs or projects has been identified post this date.

7. FINANCIAL IMPLICATIONS

- 7.1 A detailed breakdown of the projected outturn by service area is shown in Appendix 1A with explanatory notes in Appendix 1B.
- 7.2 Overall, an overspending of £206k is projected to the year-end based on the information available for the first quarter of the year, inclusive of Covid-19 grant funding of £440k.
