Priority 4 This Priority focuses on work to tackle those crimes that are motivated by malice or ill-will towards a social group, based on race, religion, sexual orientation, disability, gender identity or any other protected characteristic. Aims To improve reporting of hate crime and to reduce repeat victimisation of victims of hate crime	
Commitments within the SBPS	RAG Status
1. Undertake ongoing analysis Use an analysis of hate crimes levels, to ensure increases and trends are identified and tackled early In the Police and Crime Plan 2021-25, the Mayor of London highlighted Hate Crime and intolerance as a priority, and the Hate Crime Dashboard monitors the level of crime throughout London. The dashboard is actively monitored by MOPAC to establish levels of crime, public perception, and victim satisfaction. The Mayoral approach to hate crime will focus on three things, prevention, supporting victims, and oversight of police enforcement activity.	Achieved
2. Work with Partners In partnership the Safer Neighbourhood Teams (SNTs), Police and, community and faith groups, will work to raise awareness and tackle all forms of hate crime. SNT Police The response officers have received additional training in identifying hate crime and changes to how hate crime is reported to allow easier and more accurate flagging of incidents. Each hate incident is then monitored weekly and, as such, is overseen with greater scrutiny and control.	Achieved

In partnership, the SNTs and community and faith groups, work to raise awareness and address all forms of hate crime as well as prevent and improve support for victims. The Safer Bromley Partnership support strategies that aim to increase the reporting of hate crimes and incidents.

Community Coordination

LBBs Community Coordinator, Counter Extremism Policy & Communities Gateway and the Strategy and Engagement Offices support the BCU. They work closely with community and statutory partners to ensure that all hate crimes are captured and passed to the Police who then triage reports and provide support to victims via the Catch referral project. In addition, they work to ensure that ongoing communication is delivered through campaigns that promote the message that reporting is key, as to do so raises awareness and provides the Police with a more informed view of where to target their resources to greatest effect.

Maintain a high visibility in the community by delivering talks and awareness raising events

Met Police

The review of ward panels was completed and has subsequently been published as the Ward Panel Framework Review. It also contains as Terms of Reference for panels. Most panels have now returned to face-to-face meetings. The Police are also undertaking more community outreach with regard their Safer Streets walk and talk consultation programme.

Trading Standards

Trading Standards have been unable to deliver their usual high numbers of talks and awareness raising events in the community. Sessions were delivered via online platforms but face to face sessions are now returning. Trading Standards have also launched regular electronic alerts raising awareness of local and national scams and rogue trader issues and these are shared with partners and communities to protect the aged from targeted crime.

He has capacity but was targeted by scammers for some time. When we got involved, he confessed to handing over an “embarrassingly large amount of money” but the true extent of his loss was kept a secret from his family. During his victimisation, he lost his wife and the scammers used this to strengthen their bond with him. He was unknown to social services, but his bank account had previously been flagged. Police had been involved but for a long time he refused to believe he was the victim of a scam and continued to respond to demands for payment to recover his investments. We fitted a call blocker to his phone and analysis of this device showed he was getting 70 scam calls a week. We also arranged a befriending service through Age UK as he was very lonely, despite having a strong family support network. After engaging with colleagues from the national trading standards scams team, we supported the family in writing a letter to his bank to see if they would reimburse his losses. He was eventually refunded a significant sum.</i></p> <p>Q1 Update not requested Q2 Update – see update in Priority 1</p>	<p>Achieved</p>

<p>The Reporting of Hate Crime</p> <table border="1"><tr><td>Rolling Year Jan 21</td><td>% Difference on previous year</td></tr><tr><td>513</td><td>+16% (441)</td></tr></table> <p>For consistency MOPAC data will be used to report on this section.</p> <p>You will note from the SBPS that the focus here was to improve reporting of hate crime and to reduce repeat victimisation of victims of hate crime.</p> <p>The recording of police recorded hate crime has increased country wide, and this has been driven by improvements in crime recording and a better identification of what constitutes a hate crime. Unsurprisingly, because of the above, the total recorded hate crime within Bromley has risen by 16% on last year’s figures.</p> <p>Hate crime has been the subject of several proactive media campaigns across London and there have been massive attempts to increase confidence in people to report. For example, last month was LBGT+ month and officers are now flagging potential hate crimes differently.</p> <p>The BCU and SNT officers have also been increasingly using crime report flagging to re-engage with victims who may be subject to hate incidents to ensure all aspect of crimes are explored. It is a measure of success in many ways to see a broader increase in hate crime reporting as this suggests confidence in reporting is improving. In a similar way to increases in ASB reporting the pandemic had an impact on reported hate crime incidents against Asian/Far eastern victims. Most hate crimes reported in Bromley are rooted in Race.</p> <p>The RAG status here is split, as the target for increasing the reporting of this crime type is being achieved, however, ongoing work and commitments need to be maintained, to effectively address the perpetrators of this high harm crime</p>		Rolling Year Jan 21	% Difference on previous year	513	+16% (441)	In Process	Achieved
