Corporate Policy

1. Policy Status: Existing Policy: Capital Programme monitoring is part of the planning and review process for all services. Capital schemes help to maintain and improve the quality of life in the borough. Effective asset management planning (AMP) is a crucial corporate activity if a local authority is to achieve its corporate and service aims and objectives and deliver its services. For each of our portfolios and service priorities, we review our main aims and outcomes through the AMP process and identify those that require the use of capital assets. Our primary concern is to ensure that capital investment provides value for money and matches the Council's overall priorities as set out in the Community Plan and in "Making Bromley Even Better". The capital review process requires Council Directors to ensure that bids for capital investment provide value for money and match Council plans and priorities.

Capital monitoring – variations to be put to the Executive on 29 November 2023

- 3.1 A revised capital programme will be put to the Executive on 29 November 2023, following a detailed monitoring exercise carried out after the after the second quarter of 2023/24. The base position is the programme approved by the Executive on Executive on 18 January 2023, as amended by variations approved at subsequent Executive meetings. All changes to schemes in the Environment and Community Services portfolio programme are itemised in the table below and further details are included in paragraphs 3.2 to 3.3. The revised programme for the Environment and Community Services is attached as Appendix A, whilst Appendix B shows actual spend against budget up to the end of the first quarter of 2023/24, together with detailed comments on individual scheme progress.

3.2 Schemes re-phased between 2023/24 and future financial years.

As part of the second quarter monitoring exercise, no sums have been re-phased from 2023/24 into future financial years to reflect revised estimates of when expenditure is likely to be incurred. Comments on scheme progress are provided in Appendix B.

3.3 Additions to the programme previously approved by Executive.

There have been no additions to the programme during this monitoring cycle.

3.4 Additions to the programme requiring approval by Executive.

A report elsewhere on this agenda requests approval of a supplementary estimate of £1,893k to cover increased costs for Waldo and Churchfield depots and avoid further costs in future years.

3.5 Post-completion reports

Under approved capital programme procedures, capital schemes should be subject to a post-completion review within one year of completion. After major slippage of expenditure in prior years, Members confirmed the importance of these as part of the overall capital monitoring framework. These reviews should compare actual expenditure against budget and evaluate the achievement of the scheme's non-financial objectives. There are currently no post-completion reports due for the Environment and Community Services portfolio.

4 POLICY IMPLICATIONS

- 4.1 Capital programme monitoring and review is part of the planning and review process for all services. The capital review process requires Chief Officers to ensure that bids for capital investment provide value for money and match Council plans and priorities.

5 FINANCIAL IMPLICATIONS

5.1 These will be reported in full to the Executive on 29 November 2023. Changes to be put to the Executive for the Environment and Community Services Portfolio capital programme are set out in the table in paragraph 3.1.
