

ECS PDS 13th March 2024:

Oral Questions from the Public:

Question to the Environment Portfolio Holder from Adam Womersley:

For the first time, global warming has exceeded 1.5C across an entire year, according to the EU's climate service (please see this week's [BBC](#) article).

Plant-based diets result in 75% less GHG emissions than diets with more than 100g of meat daily. Can Bromley join 26 councils including Exmouth and Edinburgh by endorsing the Plant Based Treaty and expanding access to plant-based food?
