

**SERVICE PROPOSALS AND PROCUREMENT STRATEGY  
STREET CLEANSING CONTRACT 2012/2019**

**Outline Contracting Proposals & Procurement Strategy**

It is proposed that the Contract Packaging options are based upon a Combined Contract with 5 'Lots'. Each service area (lot) having the facility for either a five plus two year term and extension period, or for a straight seven year period providing a facility for the contractor to include a discount for the full term.

<b>Contract Term</b>	<b>% Price Adjustment</b> (Bidder may enter a percentage discount on the overall contract rates based upon the Contract Term/Lot)				
	<b>Lot 1</b> Street Cleansing & Weed Control	<b>Lot 2</b> Graffiti Removal	<b>Lot 3</b> Cleansing of Public Conveniences	<b>Lot 4</b> Cleaning of Highway Drainage	<b>Lot 5</b> All Environmental Contract Services
Up to 5 years					
Up to 7 years					

This proposal would result in contracts being awarded to between one and four contractors, or any potential combinations while ensuring that all works were undertaken by the contractor offering the most benefits to the authority, consideration being given at tender evaluation as to the preferred option.
